Indian ethics is one of the great traditions of moral thought in world philosophy whose insights have influenced thinkers in early Greece, Europe, Asia, and the New World. This is the first such systematic study of the spectrum of moral reflections from India, engaging a critical cross-cultural perspective and attending to modern secular sensibilities. The volume explores the scope and limits of Indian ethical thinking, reflecting on the interpretation and application of its teachings and practices in the comparative and contemporary contexts. The chapters chart orthodox and heterodox debates, from early classical Hindu texts to Buddhist, Jaina, Yoga, and Gandhian ethics. The range of issues includes: life-values and virtues, karma and dharma, evil and suffering, renunciation and enlightenment; and extends to questions of human rights and justice, ecology and animal ethics, nonviolence and democracy. Ramifications for rethinking ethics in a postmodern and global era are also explored. Indian Ethics offers an invaluable resource for students of philosophy, religion, human sciences and cultural studies, and to those interested in South Asian responses to moral dilemmas in the postcolonial era.

Contemporary Issues in Bioethics Cengage Learning

The most comprehensive collection of its kind, *Ethics: History, Theory, and Contemporary Issues*, 2/e is organized into three sections, providing instructors with flexibility in designing and teaching a variety of courses in moral philosophy. The first section, Historical Sources, moves from classical thought (Plato, Aristotle, Epicurus, and Epictetus) through medieval views (Augustine and Aquinas) to modern theories (Hobbes, Butler, Hume, Kant, Bentham, and Mill), culminating with leading nineteenth- and twentieth-century thinkers (Kierkegaard, Schopenhauer, Nietzsche, James, Dewey, Camus, and Sartre). The readings are printed in their entirety wherever possible. The second section, Modern Ethical Theory, includes many of the most important essays of the past century. The discussion of utilitarianism, Kantianism, egoism, and relativism continues in the work of major contemporary philosophers (Williams, Brandt, Feinberg, Foot, and Rachels). Landmark selections (Moore, Prichard, Ross, Ayer, Stevenson, Anscombe, Baier, Hare, Harman, and Gauthier) reflect concern with moral language and the justification of morality. The concepts of justice (Rawls) and rights (Feinberg) are explored, as well as recent views on the importance of virtue ethics (MacIntyre and Rachels) and an ethic influenced by feminist concerns (Held). In the third section, Contemporary Moral Problems, the readings present the current debates over abortion, euthanasia, famine relief,

animal rights, the death penalty, and affirmative action. This second edition features expanded selections from Plato's Republic, Aristotle's Nicomachean Ethics, and Camus' The Myth of Sisyphus. It also includes articles by Michael Stocker on ethical theory; Jane English and Joel Feinberg on abortion; Thomas D. Sullivan on euthanasia; Hugo Adam Bedau on capital punishment; and Judith Jarvis Thomson, Robert Simon, and Steven M. Cahn on affirmative action.

In what ways do patterns of working, as well as work technologies, shape people's lives within and outside work, in particular their life opportunities and their social and natural environment?
