In this accessible guide to interpreting the Bible, senior New Testament scholar Robert Stein helps readers identify various biblical genres, understand the meaning

of biblical texts, and apply that meaning to contemporary life. This edition has been completely revised throughout to reflect Stein's current thinking and changes to the discipline over the past decade. Students of the Bible will find the book effective in group settings. Praise for the first edition "Stein's work is both a fine introduction

to the task of biblical hermeneutics for the novice and an innovative refresher for the veteran teacher or pastor."--Faith & Mission

What do you believe about women's roles in church leadership? Should women lead groups that include men? Should

women preach? Should women be ordained? More importantly, why do you believe what you believe? Plenty of books exist telling women what to think; precious few help women think for themselves, particularly about theological issues. *Women, Leadership, and the Bible* helps women learn to interpret the Bible and discern for themselves answers to their questions about women's roles in the church, along with any other issue they may face in life. In straightforward,

plain language, Dr. Natalie Eastman introduces women to a five-step, easy-to-follow process for studying the Bible and interpreting what they study. [NOTE to designer: if there is not enough space on the back cover then cut the following section in italics] This book encourages women that they can think for themselves and can analyze significant theological issues, despite any hesitations they may have, any conflict surrounding an issue, or any lack of theological

training. By the time readers finish this book, they will have a biblically defensible, theologically reasoned, and thoroughly discerned understanding of what they believe Scripture says about women's roles and how that understanding could play out within the church. No longer will they feel as though they have nothing to contribute when the subject of women's roles-- or any other of life's theological questions-- arises.

This book seizes the opportunity to reassess the discipline of biblical studies from the foundation up and forges creative new ways for reopening the book for our culture.

Yung Suk Kim asks important questions in Biblical Interpretation: Why do we care about the Bible and biblical

interpretation? How do we know which interpretation is better? He expertly brings to the fore the essential elements of interpretation--the reader, the text, and the reading lens--and attempts to explore a set of criteria for solid interpretation.

While celebrating the diversity of biblical interpretation, Kim warns that not all interpretations are valid, legitimate, or healthy because interpretation involves the complex process of what he calls critical contextual biblical interpretation. He

suggests that readers engage with the text by asking important questions of their own: Why do we read? How do we read? and What do we read?

According to Dr. Michael Kyomya, misconceptions about what the Bible actually says can breed confusion and false ideas about God and the Christian life. Therefore, it is critically important that you know how to interpret Scripture carefully. Dr.

Michael Kyomya explains what interpretation is, why it is important, how to do it, and the pitfalls to avoid. He illustrates his points with examples from his own experience and from sermons he has heard in Africa. Dr. Kyomya makes it clear that interpretation is not just something for scholars, but also is useful when preparing a sermon or a Sunday school lesson, as well as in your own personal study of the Bible. The writing is simple and clear, and the illustrations are both

amusing and informative. Full of ways to enrich personal study of the Bible, this guide will equip you with the knowledge and instruction you need. *Interpreting Scripture with the Great Tradition* Baker Academic  
This definitive study looks at the task of interpreting Scripture by exploring four broad models for understanding Scripture, namely, "witnessing tradition," "authoritative canon," "inspired word," and "experienced revelation." The diversity of interpretive approaches

implied by the use of these four models is carried further by a methodological catholicity and openness within each of the four major divisions of the book. For instance, in dealing with the interpretation of scriptural narrative, Goldingay carefully explains how literary approaches to Scripture and a concern for the history narrated in the Bible's stories can be held together with other interpretive focuses. In his discussions of differing approaches and focuses in interpretation,

Goldingay is impressively clear and informative and demonstrates a sophisticated ability to respond to and challenge what other scholars have written. Throughout this volume, Goldingay continually moves toward the interpreter's final task-communication to others of what has been gained in interpretation. He asks, for example, what are the implications of the different interpretive strategies for Christian life, human liberation, preaching and Christian community life.

He demonstrates his conclusions with numerous examples of interpretation-his own and those of others-of specific Bible passages. JOHN GOLDINGAY is David Allan Hubbard Professor of Old Testament at Fuller Theological Seminary in Pasadena, California. He is the author of numerous scholarly books and commentaries on Daniel (Word Biblical Commentary) and Isaiah (New International Biblical Commentary). He has also written several more popular expositions such

as *After Eating the Apricot and Men Behaving Badly. The Idea of the Spiritual Interpretation of Scripture. a Discourse, Delivered Before the Society for Religious Inquiry in the University of Vermont at Their Commencement Anniversary, Etc* Clements Publishing Group A comprehensive historical survey of patristic exegesis. Simonetti examines the changing understanding of the word of God in the early Church, and describes the

individual authors and "schools" which were active in this development. First there is a study of the role of Scripture in the infant Church. Simonetti describes the use of Scripture in orthodox circles, drawing comparisons from the Gnostic world. There follows an examination of Eastern exegesis in the 4th and 5th centuries (Eusebius, the Antiochian School, the Cappadocians, and later developments in Alexandria), and an examination of Western

exegesis in the same period (including detailed discussions of Jerome and Augustine). Simonetti concludes with a study of developments in the Eastern and Western Church in the later 5th and 6th centuries. A final section provides a theological perspective through a study of the theological interpretation of Scripture in the patristic era.

Some books give new answers to old questions. Here is the book that

changes the questions themselves. We are therefore extremely fortunate to have Fowl's Engaging Scripture, for this is a book that challenges the presumptions that created the "problem" of the New Testament and its relationship to theology. Fowl's reading of Ephesians on stealing is worth the price of the book in itself. One cannot help but think this book will stand out as the mark of a new beginning.'  
"Stanley Hauerwas,

of Theological Ethics, Duke University, North Carolina." The Original Essay will be of interest to all those concerned with the inter-relationships between theological and the Bible. It may be used as a complement to Fowl's collection of classic and contemporary readings, "The Theological Interpretation of Scripture" (Blackwell Publishers, 1997). "Engaging Scripture" Proposes that Christians must read scripture theologically, redressing the recent domination of

professional scholarship in this area by historical-criticism. Drawing on the best interpretive traditions of the past, Fowl develops, argues for and displays a new model for the theological interpretation of scripture. This interpretive framework should enable Christians, and particularly Christian theologians, to interpret scripture in a way that helps them to live and worship faithfully. Theological and theoretical questions are illustrated by reference to

particular Christian convictions, practices, and concerns in the US and Britain, and by engaging scriptural passages. These serve as examples of the sort of interpretation Fowl is advocating. In summary, the book looks towards bridging the chasm that arose between biblical studies and theological study following the rise of modernity.

**Renewing Biblical Interpretation** Spiritual Interpretation of Scripture Under date of April 15, 1993, the Pontifical

Biblical Commission published in French a document on the interpretation and use of the Bible in the Church. The English translation of the original French document, "The Interpretation of the Bible in the Church", appeared on November 18, 1993. The purpose of the document is "to indicate the paths most appropriate for arriving at an interpretation of the Bible as faithful as possible to its character both human and divine". The English translation of

the document is published in its entirety in the present volume, together with a clarificatory commentary by Fr. Joseph A. Fitzmyer, S.J., a member of the Biblical Commission. A detailed bibliography is included. Also published are English translations of the address of His Holiness Pope John Paul II on the occasion of the publication of the French original on April 15, 1993, and of the preface to the document by Cardinal Joseph Ratzinger, President of the Biblical

Commission.

Biblical Interpretation in the Early Church is part of Ad Fontes: Early Christian Sources, a series designed to present ancient Christian texts essential to an understanding of Christian theology, ecclesiology, and practice. The books in the series will make the wealth of early Christian thought available to new generations of students of theology and provide a

valuable resource for the Church. This volume focuses on how Scripture was interpreted and used for teaching by early Christian scholars and church leaders.

Developed in light of recent Patristic scholarship, *Ad Fontes* volumes will provide a representative sampling of theological contributions from both East and West. The series aims to provide volumes that are relevant for a variety of courses: from introduction to theology to classes on doctrine and

the development of Christian thought. The goal of each volume is not to be exhaustive, but rather representative enough to denote for a non-specialist audience the multivalent character of early Christian thought, allowing readers to see how and why early Christian doctrine and practice developed the way it did.

Christians have been interpreting Scripture with an aim of deepening their life with God and each other from the very beginning of the church. The past twenty years or so have witnessed an explosion of scholarly writing devoted to the theological interpretation of Scripture. Stephen Fowl, as an active participant in and contributor to the

burgeoning literature, has written an ideal companion for guests at the large and somewhat chaotic party, introducing them to important people, texts, and issues. The companion explores some of the connections between the long-running and essential Christian practice of theological interpretation and the more recent body of scholarly literature. Ultimately, the companion hopes to encourage readers to join the party in their own right.

 Christianity Today Book Award Winner This work argues that the heart of patristic exegesis is the attempt to find the sacramental reality (real presence) of Christ in the Old Testament Scriptures. Leading theologian Hans Boersma discusses numerous sermons and commentaries of the church fathers to show how they regarded Christ as the treasure hidden in the field of the Old Testament and explains that the church today can

and should retrieve the sacramental reading of the early church. Combining detailed scholarly insight with clear, compelling prose, this book makes a unique contribution to contemporary interest in theological interpretation.

Biblical Interpretation in the Early Church BRILL  
 The early church received the Scriptures of Israel as Christian Scriptures and did not change them. The older testament was received as a witness to God, and when a newer testament emerged, the

older was not dismissed, harmonized, or edited. Rather, the church moved forward with a two-testament witness. Christopher Seitz, an internationally renowned expert in canonical interpretation, illuminates the two-testament character of Scripture and its significance for the contemporary church. He interacts critically with current interest in the New Testament's use of the Old Testament and addresses an issue of perennial concern: how to hear both testaments as

Christian witness.

This book is a detailed

and comprehensive study of attitudes toward biblical authority and interpretation held from the beginnings of the Christian era to the present day. In clear and readable fashion, the authors examine the writings of early church fathers, the medieval exegetes, and the leaders of the Protestant Reformation to locate the source of, and refute, the position of inerrancy.

**A Guide to Interpreting Scripture** Clements Pub  
The Spirit Says offers a stunning collection of

articles by an influential assemblage of scholars, all of whom lend considerable insight to the relationship between inspiration and interpretation. They address this otherwise intractable question with deft and occasionally daring readings of a variety of texts from the ancient world, including—but not limited to—the scriptures of early Judaism and Christianity. The thrust of this book can be summed up not so much in one question as in four: o What is the role

of revelation in the interpretation of Scripture? o What might it look like for an author to be inspired? o What motivates a claim to the inspired interpretation of Scripture? o Who is inspired to interpret Scripture? More often than not, these questions are submerged in this volume under the tame rubrics of exegesis and hermeneutics, but they rise in swells and surges too to the surface, not just occasionally but often. Combining an assortment of prominent voices, this

book does not merely offer signposts along the way. It charts a pioneering path toward a model of interpretation that is at once intellectually robust and unmistakably inspired. **The Rule of Faith and Biblical Interpretation** Reading the Scriptures The Interpreting Spirit is both a consideration of the Spirit's role in the interpretation of Scripture and a celebration of renewal scholarship. It examines those who have focused on the Spirit's role in their hermeneutical

considerations, recognizing common, uniting themes amidst the diversity of scholarly approach and opinion. Working on the principle that the Spirit communicates in ways that seek to unify and celebrate the other, Mather works diachronically from 1970, identifying and drawing together these common, uniting hallmarks into a collective understanding. Pivotal to Mather's argument is her emphasis that we do not just interpret Scripture, but

that the Spirit through Scripture, and working in our lives in ways that lead us towards Scripture, interprets us. The *Interpreting Spirit* is the first comprehensive analysis of the conversation surrounding pneumatic interpretation that has been taking place, particularly among renewal scholars, since 1970. It seeks to answer the notoriously difficult question, "What does the Spirit do in the process of biblical interpretation?" *Models for Scripture* Baker Books

What distinguishes catholic exegesis from other approaches to interpreting Scripture? This study examines the Pontifical Biblical Commission's document, *The interpretation of the Bible in the Church*, and derives from it twenty principles of Catholic interpretation. The meaning of each of these principles is explained and its significance is discussed in light of commentary on the Biblical Commission's document, magisterial documents on Scripture,

and contemporary scholarly discussion. This volume includes a preface by Card. Albert Vanhoye, formerly Secretary of the Pontifical Biblical Commission, a bibliography of works about the Commission's document and of works cited, a general index, and a glossary. Peter S. Williamson received his M. A. in theology from Sacred Heart Seminary in Detroit and his S.T.B., S.T.L. and S.T.D. in biblical theology from the Pontifical Gregorian University in Rome. He is a married

layman who has been involved for nearly 30 years in evangelization and pastoral ministry in the United States, Lithuania and Kazakhstan. Participatory Biblical Exegesis Baker Academic The rise of modernity, especially the European Enlightenment and its aftermath, has negatively

impacted the way we understand the nature and interpretation of Christian Scripture. In this introduction to biblical interpretation, Craig Carter evaluates the problems of post-Enlightenment hermeneutics and offers an alternative approach: exegesis in harmony with

the Great Tradition. Carter argues for the validity of patristic christological exegesis, showing that we must recover the Nicene theological tradition as the context for contemporary exegesis, and seeks to root both the nature and interpretation of Scripture firmly in trinitarian orthodoxy.
