In the decade after
high school, young
people continue to rely
on their families in
many ways-sometimes
for financial support,

sometimes for help with childcare, and sometimes for continued shelter. But what about those young people who confront special difficulties during this period, many of whom can count on little help from their families? On Your Own Without a Net documents the special challenges facing seven vulnerable populations during the transition to adulthood: former foster care youth, youth formerly involved in the juvenile justice system, youth in the criminal justice system, runaway and homeless youth, former special education students, young people in the mental health system, and youth with physical disabilities. During adolescence,

government programs have been a major part of their lives, yet eligibility for most programs typically ends between the ages of eighteen and twenty-one. This critical volume shows the unfortunate repercussions of this termination of support and points out the issues that must be addressed to improve these young people's chances of becoming successful adults.

This is the little book that started a revolution, making women's voices heard, in their own right and

with their own integrity, for virtually the first time in social scientific theorizing about women. Its impact was immediate and continues to this day, in the academic world and beyond. Translated into sixteen languages, with more than 700,000 copies sold around the world, *In a Different Voice* has inspired new research, new educational initiatives, and political debate—and helped many women and men to see themselves and each other in a different light.

her own working-class roots in gritty Chelsea, Massachusetts—shares these fierce, honest, tender essays written by women who can't go home to the suburbs when ends don't meet. When jobs are scarce and the money has dwindled, these writers have nowhere to go but below the poverty line. The writers offer their different stories not for sympathy or sadness, but an unvarnished portrait of how it was, is, and will be for generations of women growing up working class in America. “Her prose has a reckless beauty that feels like magic.”—Cheryl Strayed, New York Times bestselling author of *Tiny Beautiful Things* and *Wild* The cult-classic novella that intimately explores one young writer’s whirlwind and whiplash affair as she falls deeply in love with a woman for the first time. Sometimes I wonder what it is I could tell you about her for my job here to be done. I am looking for a shortcut. . . . But that would be asking too much from you. It wasn’t you who loved her. A young writer moves from the country to the city and falls in love with

another woman for the very first time. From the start, the relationship is doomed; Finn is nineteen years older, wears men’s clothes, has a cocky smirk of a smile . . . and a long-term girlfriend. With startling clarity and breathtaking tenderness, Chloe Caldwell writes the story of a love in reverse: of nights spent drunkenly hurling a phone against a brick wall; of early mornings hungover in bed, curled up together; of emails and poems exchanged at breakneck speed. In *Women*, Caldwell lays bare the feverish obsession of addictive love, and asks the question: what, if anything, can who we love teach us about who we are? In this

beautiful,
transcendent,
bracingly sexy novella,
Caldwell tells a lust-
love story that will
bring you to your
knees. Capturing the
feverish heartbreak of
Sapphic romance,
painting a stark picture
of an identity in crisis,
and illuminating the
exploratory
possibilities of queer
life, *Women* is an
incandescent novella
that brands the heart
and sears the soul.

Author of the extremely successful blog Stirrup Queens and Sperm Palace Jesters, Melissa Ford presents readers with a guide for navigating the complex world of infertility. The Land of If got its name not only because "IF" is the abbreviation for "infertility" in the online world, but also because there are so many "ifs" inherent in being here. No stranger to the Land of If herself, Ford shares her hard-earned knowledge and insights, helping couples struggling with infertility understand the lingo, learn the details doctors tend to leave out, and keep their emotional sanity despite seemingly insurmountable obstacles. Navigating the Land of If gives the

nitty-gritty on injections, rejections, biting your tongue during happy parent-to-be conversations, and trying not to cry over baby shower invitations. With chapters that include how-to's for same-sex couples, and present adoption or remaining child-free as plausible alternatives, Ford tells you exactly what you need to know, from one infertile to another.

This book examines a central issue in understanding recent changes in demographic patterns and the labour market - the increased

participation of women in the workforce, and how the nature of this participation has developed. In the context of such economic and labour phenomena as globalization, increasing flexibility in work patterns, intermittent and part-time employment, and in many countries high underemployment or unemployment, the role of women workers has transformed dramatically. This book explores a number of demographic issues associated with these developments, such as migration in the developed world and transition economies, family formation and dissolution, the autonomy of women migrants, household composition, the evolution of gender

systems, and contraceptive behaviour, both as factors that determine the labour market conditions for women and their income levels, and as demographic outcomes. The studies cover a wide-range of situations, from societies with a strong patriarchal ideology and residential female seclusion, to industrialized countries with policies designed to assist women manage both a work and a family role, and makes use of extensive data sets collected at country level. The Editors have sought to maintain an interdisciplinary outlook in the book, and to draw policy implications from the various socio-economic situations examined.

This book describes what happens when innovations are transferred to new settings: What work is needed to make them work, but also how they change the setting into which they are introduced.

'Essential reading for everyone' – Marian Keyes It's high time we renovated and elevated this life change. Despite the centuries of speculation and propaganda, we are not overheating or inherently cold, we are not hysterics or boiling vats of toxic poisons, we are not dried up or washed up, we are simply menopausal. It's time for us to start talking about the menopause. Cracking the Menopause, from straight-talking broadcaster Mariella Frostrup and health journalist Alice Smellie, has all the information you need, delivered with characteristic wry humour. Mariella shares her own journey through the menopause, along with the latest science,

advice from leading experts and humorous illustrations – to provide an informative source of wisdom and enlightenment. Featuring case studies from women in every walk of life and all stages of their menopause journey, Cracking the Menopause opens up the conversation about an urgent topic that half the population will experience, but barely anyone is talking about. Designed to equip you with the knowledge to manage your symptoms from perimenopause onwards, this essential book separates the myths from the reality and offers expertise, hope and advice. 'I inhaled this book, it's fantastic. Women of all ages need to read it.' – Claudia Winkleman

This book examines stereotypical traits of women as they are reflected in Anglo-American anti-proverbs, also known as proverb transformations, deliberate proverb innovations, alterations, parodies, variations, wisecracks,

fractured proverbs, and proverb mutations. Through these sayings and witticisms the author delineates the image of women that these anti-proverbs reflect, her qualities, attributes and behavior. The book begins with an analysis of how women's role in the family, their sexuality and traditional occupations are presented in proverbs, and presents an overview of the genre of the anti-proverb. The author then analyses how this image of women is transformed in anti-proverbs, sometimes subverting, but often reinforcing the sexist bias of the original. This engaging work will appeal to students and scholars of humour studies, paremiology, gender studies, cultural

studies, folklore and sociolinguistics alike. Women of the American Circus, 1880-1940 Without a Net
An exploration of gender and power relations in Yoruba religion—both Christianity and Yoruba traditional religion. Drawing on a wide range of oral and written sources, this book shows that women occupy a central place in the religious worldview and life of the Yoruba people and shows how men and women engage in mutually beneficial roles in the Yoruba religious sphere. It explores how gender issues play out in two Yoruba religious traditions—indigenous religion and Christianity in Southwestern Nigeria.

Rather than shy away from illuminating the tensions between the prominent roles of Yoruba women in religion and their perceived marginalization, author Oyeronke Olajubu underscores how Yoruba women have challenged marginalization in ways unprecedented in other world religions.

Oyeronke Olajubu is Senior Lecturer of Comparative Religion at the University of Ilorin.

Walking in Faith...even when times are tough.
In Thrive, author and teacher Jen Cowart helps women develop the habits and attitudes necessary to thrive, whatever their

circumstances. Leading readers through the Book of James, a letter written about enduring hardships, she lifts up six characteristics of mature Christians.

From endurance and humility to controlling our words, Jen helps participants find the divine and the practical in living faithfully. Jen's teaching has inspired thousands of women across the country. Her authenticity inspires others to open their hearts and minds. One reviewer wrote, "Her 'realness' and her vulnerability just work together to open your heart to dig deeper and deeper." Through this study, women will find inspiration and tools around six traits: Endurance - Embracing obstacles as a means to maturity. Wisdom - Using a heavenly

perspective on earthly issues. Action – Living a life where actions match faith. Control – Taming the tongue. Humility – Developing the attitude of Christ. Prayer – Exercising the power tool of the faith. Additional components for this six-week Bible study, each available separately, are a Leader Guide and six video sessions, 8 to 13 minutes long (with closed captioning).

Globalization may offer modern feminism its greatest opportunity and greatest challenge. Allowing communication and information exchange while also exacerbating economic and social inequalities, globalization has fostered the growth of transnational feminist

networks (TFNs). These groups have used the Internet to build coalitions, lobby governments, and advance the goals of feminism. Globalizing Women explains how the negative and positive aspects of globalization have helped to create transnational networks of activists and organizations with common agendas. Sociologist Valentine M. Moghadam discusses six such feminist networks to analyze the organization, objectives, programs, and outcomes of these groups in their effort to improve conditions for women throughout the world. Moghadam also examines how globalizing women are responding to and resisting growing

inequalities, the exploitation of female labor, and patriarchal fundamentalisms. Without a Net. Her Story. SAGE Publications
