Hannah and Abba [Hebrew for "Dad"] are spending time together in nature on Tu B'Shevat, the Jewish Arbor Day. As Abba rests under a carob tree, Hannah declares that she wants to climb a tree. The carob tree's trunk is too skinny, but can she climb a eucalyptus tree or a pine tree or

an olive tree? When each poses a challenge—for being too scratchy, for not having footholds—Abba offers new inspiration for climbing and insight into what Hannah and the carob tree share in common.

How Popular Music Works, and Why It Matters Hal Leonard Publishing Corporation

Perhaps more than any other Greatest Hits compilation, Abba Gold has come to define a band's career on one disk. More than that, its release in 1992 heralded the critical rehabilitation of a group which had, since its demise a decade earlier, become little more than a memory of trashy costumes and cheesy tunes to many people. Here, Elisabeth Vincentelli charts the circumstances surrounding the birth of Abba Gold, looks at the impact it had on the music world, and tells the stories behind some of the greatest pop songs ever recorded.

ABBA A to B and Back Again, A Critical Analysis Rowman & Littlefield

taking a critical approach to ABBA the group and their music, it still is a fan oriented book however with the context of taking a closer look at how the group evolved from peak to levelling out to what is happening now in a contemporary world. The book looks at the studio albums and takes a closer look at ABBA marketing strategies, highlighting many individual songs, the tours, the t.v. promos, and of course the individual members of ABBA and how they melded as a team. The dialogue is open and is expressed as opinion shared by the author and or fans so naturally not everyone will be on the same page about all of the content/context of this work. 30 chapters in total the book is illustrated uniquely throughout by original artwork specifically created for this book.

Pop music surrounds us - in our cars, over supermarket speakers, even when we are laid out at the dentist - but how often do we really hear what's playing? *Switched on Pop* is the book based on the eponymous podcast that has been hailed by NPR, Rolling Stone, The Guardian, and Entertainment Weekly for its witty and accessible analysis of Top 40 hits. Through close studies of sixteen modern classics, musicologist Nate Sloan and songwriter Charlie Harding shift pop from the background to the foreground, illuminating the essential musical concepts behind two decades of chart-topping songs. In 1939, Aaron Copland published *What to Listen for in Music*, the bestseller that made classical music approachable for

generations of listeners. Eighty years later, Nate and Charlie update Copland's idea for a new audience and repertoire: 21st century pop, from Britney to Beyoncé, Outkast to Kendrick Lamar. Despite the importance of pop music in contemporary culture, most discourse only revolves around lyrics and celebrity. *Switched on Pop* gives readers the tools they need to interpret our modern soundtrack. Each chapter investigates a different song and artist, revealing musical insights such as how a single melodic motif follows Taylor Swift through every genre that she samples, André 3000 uses metric manipulation to get listeners to "shake it like a Polaroid picture," or Luis Fonsi and Daddy Yankee create harmonic ambiguity in "Despacito" that mirrors the patterns of global migration. Replete with engaging discussions and eye-catching illustrations, *Switched on Pop* brings to life the musical qualities that catapult songs into the pop pantheon. Readers will find themselves listening to familiar tracks in new ways and not just those from the Top 40. The timeless concepts that Nate and Charlie define can be applied to any musical style. From fanatics to skeptics, teenagers to octogenarians, non-musicians to professional composers, every music lover will discover something ear-opening in *Switched on Pop*.

A compelling, eerie new novel from the internationally bestselling author of *Let the Right One In*. "At the top of his game, Lindqvist gives Stephen King and John Saul at their best a run for the money."

—Library Journal (starred) "Dubbed the Stephen King of Sweden, Lindqvist lives up to the billing." —New York Post
Four families wake up one morning in their trailer on an ordinary campsite. However, during the night something strange has happened. Everything outside the camping grounds has disappeared, and the world has been transformed into an endless

expanse of grass. The sky is blue, but there is no sign of the sun; there are no trees, no flowers, no birds. And every radio plays nothing but the songs of sixties pop icon Peter Himmelstrand. As the holiday-makers try to come to terms with what has happened, they are forced to confront their deepest fears and secret desires. Past events that each of them has tried to bury rise to the surface and take on terrifying physical forms. Can any of them find a way back to reality?

Informed Sources Incorporated
 More than 30 years after the stunning 1974 Eurovision Song Contest debut of the Swedish musical supergroup, ABBA's music remains a benchmark which continues to enthral millions of fans around the world - both on stage and screen as well as on vinyl and disc. In this equally stunning tour de force, Australian cellist and arranger Chris Patrick has combined his life-long passion for ABBA with his professional musical career skills to create this guide to ABBA's soundscape - the vocal and keyboard genius of Agnetha, Benny, Bjorn and Frida, and the precision audio engineering of Michael B Tretow and his team of arrangers - which continues to defy truly successful emulation to this day. With his lively and engaging writing style, Chris takes the reader on a personally-guided tour - to quote Foreword writer and ABBA biographer Carl Magnus Palm - "over the hills of joyful exuberance, through the valleys of melancholy and along the stretched-out roads of craftsmanship where their music was created." The 420 pages of the book are liberally sprinkled with hundreds of specially-created musical notation figures to illustrate the points Chris is making in his text, where sparkling descriptions of ABBA's different musical techniques join hands with some insightful - sometimes surprising - musical analysis and thought-provoking discussion. But the 'musically illiterate' among us need not worry - Chris pulls out all the stops in his professional skills case and encourages the lay reader along with much simpler note numbering and 'sol-fa' examples of ABBA's genius ; and if you understood where Julie Andrews was going when she sang "Let's start at the very beginning ;" then you will be quite at ease in the pages of this book as well. At the chapter breaks, fresh visual delights excite the eye, with a selection of images from the covers of the hundreds of ABBA albums, discs and singles in Chris' own collection, each carefully chosen for position relative to the

preceding or following chapter's topic. A comprehensive Glossary of musical terms used, a Selected Discography of the essential ABBA albums, and a detailed Index complete the book, but before we get to the end, there is almost another 'book-within-the-book' first - "The world of ABBA" timeline! Writing for a market which includes ABBA fans today who may not even have been born when Agnetha, Benny, Bjorn and Frida were at their height, Chris has provided a fascinating snapshot of the 1960s, 70s and 80s of 'what in the world' was happening at the time - for ABBA, for the music industry in general and its chart hits, as well as for world political and social events. No previous experience is necessary for readers of all types to enjoy the tour - this book has been carefully crafted to appeal to the interested general reader as well as to ABBA fans and serious musicians alike - and don't we all have an ABBA album somewhere which we would like to enjoy rediscovering? You will too, after you read this book!
