- The most authoritative annual guide to the very best Italian wines; more than 2,500 producers have been selected, and more than and 22,000 wines - The awards honor ecologically aware wine producers who are working with the environment, bestowing 'Green' awards on those who create sustainable yields - Each entry gathers useful information about the winery Italian Wines is the English-language version of Gambero Rosso's Vini d'Italia, the world's best-

selling guide to Italian wine. It is the result of a year's work by over 60 tasters, coordinated by three curators. They travel around the entire country to taste 45,000 wines, only half of which make it into the guide. More than 2,500 producers have been selected. Each entry brings together useful information about the winery, including a description of its most important labels and price levels in Italian wine shops. Each wine is evaluated according to the Gambero Rosso bicchieri rating, with Tre Bicchieri awarded to the top labels. The guide is an essential tool for both wine professionals and passionate amateurs around the globe: it provides the instruments for finding one's way in the complex panorama of Italy's wine world.

"Simplicity, as I understand it, is the range of solutions living organisms have found, despite the complexity of natural processes, to enable the brain to prepare an action and plan for the

consequences of it. These solutions are simplifying principles that enable the processing of information or situations, by taking into account past experience and anticipating the future. They are neither caricatures, shortcuts, or summaries. They are new ways of asking questions, sometimes at the cost of occasional detours, in order to achieve faster, more elegant, more effective actions." A. B. As Alain Berthoz demonstrates in this profoundly original book, simplicity is never easy; it requires suppressing, selecting, connecting, thinking, in order to then act in the best way possible. And what if we, in turn, are inspired by the living world to process the complexity that surrounds us? Alain Berthoz is professor at the Collège de France where he is co-director of the

Laboratoire de physiologie de la perception et de l'action. [Laboratory for the physiology of perception and action]. He is a member of the French Academy of Sciences, and is the author of *Le Sens du mouvement* [The Brain's Sense of Movement] and *La Décision* [Emotion and Reason].

Il progetto INVALSI PER TUTTI: scopri di più I volumi della serie INVALSI per tutti presentano training specifici per allenare gli alunni in vista di queste prove. Ideati e sviluppati da insegnanti, non sono una semplice raccolta di test già svolti ma proposte operative studiate per rispondere alle esigenze di una classe eterogenea, che permettono di preparare tutti gli alunni in modo inclusivo, favorendo i diversi stili di apprendimento. I maggiori punti di forza e di innovazione risiedono nel proporre:

- materiali operativi differenziati per livelli di difficoltà, per cui ogni scheda è presentata sia in forma standard sia in altre due versioni adattate per bambini con difficoltà di apprendimento, BES e disabilità certificata;
- strumenti e strategie per facilitare sia l'autonomia

degli alunni sia la gestione della classe da parte dell'insegnante; • esempi di adattamento graduale delle prove per gli alunni con BES, fornendo così un modello per realizzare ulteriori personalizzazioni; • un percorso di supporto emotivo e metacognitivo particolarmente utile per gli alunni con difficoltà di apprendimento. Il presente volume contiene 93 schede fotocopiable organizzate in due aree corrispondenti alle sezioni delle prove INVALSI di italiano. Per alcuni dei testi proposti sono disponibili online i file audio in formato MP3.

IT'S OFFICIAL: excessive "internetting," smartphoning, and social media make us miserable. But it doesn't have to be that way. Over the last decade, recognized

journalist Blake Snow rigorously researched, tested, and developed several connectivity strategies for finding offline balance in an online world, which resulted in this, his first book. In *Log Off: How to Stay Connected after Disconnecting*, Snow passionately, succinctly, and sometimes humorously explains how to hit refresh for good, do more with less online, live large on low-caloric technology, increase facetime with actual people, outperform workaholics in half the time, and tunelessly blend both analog and digital lives with no regrets. If the "offline balance movement" is real, this is its playbook.

 'Thrilling and otherworldly' SUNDAY TIMES Every winter, Wren Silke is chased through the forest in a warped version of a childhood game. The boys who haunt her are judges, powerful and frightening pursuers, who know nothing of her true identity. If they knew she was an augur, their sworn enemy, the game would turn deadly. But Wren is on the hunt, too. Sent undercover as an intern to the Harkness Foundation - enemy headquarters - her family's survival rests on finding a secret meant to stay hidden. As the enmity between two ancient magics reaches breaking point, Wren is torn between old loyalties and new lies. And trapped in the most dangerous game of her life. Part thriller, part love

story, this captivating debut novel will leave readers spellbound.

“One of the most important books I’ve ever read—an indispensable guide to thinking clearly about the world.” – Bill Gates
“Hans Rosling tells the story of ‘the secret silent miracle of human progress’ as only he can. But *Factfulness* does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly.” —Melinda Gates
“*Factfulness* by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases.” - Former U.S. President Barack Obama
Factfulness: The stress-reducing habit of only carrying opinions for which

you have strong supporting facts. When asked simple questions about global trends—what percentage of the world’s population live in poverty; why the world’s population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In *Factfulness*, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and

them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most.

Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.
