The Report: Qatar 2015 Gyan Publishing House

Qatar's sizable oil and natural gas reserves have underpinned its

rapid economic growth over the past two decades. Home to the

world's largest non-associated gas field, the country is the world's

fourth-largest producer of dry natural gas and the largest

producer of liquefied natural gas, with hydrocarbons revenues

forming the bulk of national income as a result. Although the drop

in global energy prices has impacted export revenues, rigorous

economic diversification drives in recent years have paid

dividends, and in 2015 non-hydrocarbons growth reached 7.7%,

compared to a 0.1% contraction for hydrocarbons growth during

the same period. The country's financial sector has continued to

evolve; Islamic banking in particular has witnessed significant

progress. Meanwhile, as the country gears up to host several

important sporting events in the coming years, most notably the

2022 FIFA World Cup, numerous big-ticket infrastructure builds

continue to expand the construction sector.

The Indian Listener (fortnightly programme journal of AIR in

English) published by The Indian State Broadcasting

Service, Bombay ,started on 22 December, 1935 and was the

successor to the Indian Radio Times in english, which was

published beginning in July 16 of 1927. From 22 August ,1937

onwards, it was published by All India Radio, New Delhi. From July 3

,1949, it was turned into a weekly journal. Later, The Indian listener

became "Akashvani" in January 5, 1958. It was made a fortnightly

again on July 1, 1983. It used to serve the listener as a Bradshaw

of broadcasting ,and give listener the useful information in an

interesting manner about programmes, who writes them, take part

in them and produce them along with photographs of performing

artists. It also contains the information of major changes in the

policy and service of the organisation. NAME OF THE JOURNAL:

The minority question - what does a religious minority require to

do in a democratic country in order to fulfill their duties as

citizens of the country and also to attain public rights - is as old as

the idea of democracy. Only the Muslim minority in India could

give a rational, practical and informed answer to this question.

There were innumerable researches conducted to identify and

explain the material circumstances that facilitated them to come

up with this answer, giving birth to arguments that are supportive

and critical of the community. Most of these researches are

available in the market in the form of books and biographies,

even in Malayalam, though for the namesake. Now, what all might

be the spiritual and intellectual factors that were at play in

shaping this discovery? It is for sure that no political thinking

would rise in the absence of it. This book springboards from an

enquiry into this question. I was sure that I will find an answer if

dug deep into the last three decades of Muslim League's history,

or at least to 19th and 20th centuries. A generation that lived with

history has more or less given way to the new carriers of the

flame, completing their duty. Though not written or well-

established, they had solid philosophical ideology with which they

could draw a line between the political lines that they took and

those behind them had taken. Since that knowledge has also

faded into oblivion with them, this political ideology may cease to

be a rootless bubble in the air. This book is an attempt to

withstand that crisis. Therefore its main aim is to remind of the

roots wherever its forgotten and inform with it the new

generation. Along with that it aims to expose the unnecessary

burden the community bears as a curse on its shoulder. This

books also attempts to do a hairsplitting analysis of the

accusations of social bifurcation, communalism, sectarianism etc.

posed against the League by its enemies, unveiling the fluff in it

to the public.

In Kerala, Vakkom Moulavi motivated Muslims to embrace

modernity, especially modern education, in order to reap

maximum benefit. In this process, he initiated numerous religious

reforms. However, he held fairly ambivalent attitudes towards

individualism, materialism and secularization, defending Islam

against the attacks of Christian missionaries.

This book traces the progress of mass communications in India

and the West from a historical and sociological perspective, from

primitive to modern times. Placing his argument in the global context within which mass communication takes place, the author: - Emphasizes the distinction between communication and mass communication—the former being a two-way exchange and the latter mostly a one-way communication. - Discusses the relevance of mass communication for the largely illiterate population of India, with particular reference to the type of media

content and the inadequacy of conventional schooling. - Discusses the rapid technological progress in the world in recent decades in the context of digitalization, computerization and media convergence, as well as the global nature of mass communication. - Highlights that almost half the world's population remains untouched by the communications revolution even at the beginning of the 21st century. - Examines the potential of EDUSAT, the educational satellite launched recently,

as a means to bring education and information to all sectors of the Indian population.
