AP US History Princeton Review

As a high school teacher of government and AP Us history, I found it compelling to prepare my students to be an educated electorate. In many cases, students did not go on to college, and this was the last opportunity I had as a teacher to inform them about the workings of the federal and state government. As a high school teacher of government and AP Us history, I found it compelling to prepare my students to be an educated electorate. In many cases, students did not go on to college, and this was the last opportunity I had as a teacher to inform them about the

workings of the federal and state government. Several students were instrumental in creating an atmosphere of challenge and the desire to be more knowledgeable. As a result, I formulated a pretest that became the citizenship Test for my high school students in government. Since it is required in most high schools across the nation, other teachers might find this a good guidebook. That citizenship test and the student responses are the basis for this book, which I hope the readers will find enlightening and educational. This is my attempt to educate the electorate about basic information that every citizen should know about their government and maybe encourage them to want to know more.

With 5 Practice Tests Walch Publishing
This book offers the tools teachers need to get started with an innovative approach to teaching history, one that develops literacy and higher-order thinking skills, connects the past to students' lives today, and meets Common Core State Standards (grades 7–12). The author provides over 60 primary sources organized into seven thematic units, each structured around an essential question from U.S. history. As students analyze carefully excerpted documents—speeches by presidents and protesters, Supreme Court cases, political cartoons—they build an understanding of how diverse historical figures have approached key issues. At the same time, students learn to participate in civic debates and develop their own views on what it means to be a 21st-century American. Each unit connects to current events and dynamic classroom activities make history come alive. In addition to the documents themselves, this teaching manual provides strategies to assess student

learning; mini-lectures designed to introduce documents; activities to help students process, display, and integrate their learning; guidance to help teachers create their own units; and more. “Full of thought-provoking questions, engaging primary source documents, and an impressive array of classroom activities, this is a must-have resource for history teachers looking to stay relevant in our modern learning landscape.” —Diana Laufenberg, lead teacher and executive director, Inquiry Schools, Philadelphia, PA “A useful resource for novice and experienced history teachers, social studies teacher educators, homeschooling, and community educators. I am excited to use it in my college classes; this is required reading!” —LaGarrett King, University of Missouri
“A remarkably thoughtful and engaging aid to teaching U.S. history. Using carefully chosen primary documents, Metro raises pointed questions that will help teachers and students alike wrestle with the place of the past in the present.” —Jill Lepore, Harvard University

Cracking the AP U.S. History Exam, 2011 John Wiley & Sons

Those facts. Those dates. Those four walls. Those still and petrified fossils of traditional history courses. Sure, it's history, but do we have to turn to tradition for guidance? Let's make it worth the students time. Let's give them something to take beyond their high school experience. Let's reboot history. The goal of the social studies is to provide students with the tools necessary to be active and productive citizens. History teachers need to assist their students in developing problem-solving skills for real-life scenarios, and this can be done whether we teach students about Ancient Athens or

modern Akron, Ohio. The ancient Mediterranean, the Italian Renaissance, and the British East India Company are very distant concepts, far from what our students find as relevant. The same skills can be acquired by studying something nearer to the students' interests and everyday life. So, take a moment to take a step back from the history curriculum, and ask yourself: "What skills will my students need in five years?"

A Description of Successful American Indian Students in U.S. History Classes at a Comprehensive Two-year Community College Walch Publishing

This book describes results from the 1994 National Assessment of Educational Progress (NAEP) assessment in U.S. history, conducted at grades 4, 8, and 12. Included in this report card are the results of students' achievement at each grade and within various subgroups of the general population. The report discusses the relationships between student performance and instructional and home background variables. This information gives educators a context for evaluating the U.S. history achievement of students and the results that may be used to guide reform efforts. Chapters include: (1) "NAEP 1994 U.S. History Assessment"; (2) "U.S. History Results for the Nation and Regions"; (3) "U.S. History Achievement Levels"; (4) "Contexts in which Students Learn History"; and (5) "What Students Know and Can Do in U.S. History." A conclusion, three appendices, 52 tables, and 13 figures complete the book. (EH)

Nation's Report Card: U.S. History 2010 Xlibris Corporation

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to

considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).
