War Lord Basic Books

"Since Yesterday" by Frederick Lewis Allen. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

The Lords of CreationThe History of America's 1 Percent

NEW YORK TIMES BESTSELLER "I gulped it right down. Excellent, as always. . . . Cornwell brings battles to life like no one else." —George R.R. Martin, Author of Game of Thrones The final installment in Bernard Cornwell's bestselling Saxon Tales series, chronicling the epic story of the making of England—the basis for The Last Kingdom, the hit Netflix series. THE FINAL BATTLE AWAITS... The epic conclusion to the globally bestselling historical series. England is under attack. Chaos reigns. Northumbria, the last kingdom, is threatened by armies from all sides, by land and sea - and only one man stands in their way. Torn between loyalty and sworn oaths, the warrior king Lord Uhtred of Bebbanburg faces his greatest ever battle - and prepares for his ultimate fate... "Perhaps the greatest writer of historical adventure novels today" (Washington Post), Bernard Cornwell has dazzled

and entertained readers and critics with his prolific string of page-turning bestsellers. Of all his protagonists, however, none is as beloved as Uhtred of Bebbanburg, and this thrilling historical novel continues the saga of his adventures and the turbulent early years of England.

The Lord InterVarsity Press

An incisive account of the tumultuous relationship between Alexander Hamilton and James Madison and of the origins of our wealthy yet highly unequal nation In the history of American politics there are few stories as enigmatic as that of Alexander Hamilton and James Madison's bitterly personal falling out. Together they helped bring the Constitution into being, yet soon after the new republic was born they broke over the meaning of its founding document. Hamilton emphasized economic growth, Madison the importance of republican principles. Jay Cost is the first to argue that both men were right--and that their quarrel reveals a fundamental paradox at the heart of the American experiment. He shows that each man in his own way came to accept corruption as a necessary cost of growth. The Price of Greatness reveals the trade-off that made the United States the richest nation in human history, and that continues to fracture our politics to this day.

Arcana Coelestia: Exodus Penguin

Winner of the Pulitzer Prize "Erudite, entertaining macroeconomic history of the lead-up to the Great Depression as seen through the careers of the West's principal bankers . . . Spellbinding, insightful and, perhaps most important, timely." —Kirkus Reviews (starred) "There is terrific prescience to be found in [Lords of Finance's] portrait of times past . . . [A] writer of great verve and erudition, [Ahamed] easily connects the dots between the economic crises that rocked the world during the years his book covers and the fiscal emergencies that beset us today." —The New York Times It is

commonly believed that the Great Depression that began in 1929 resulted from a confluence of events beyond any one person's or government's control. In fact, as Liaquat Ahamed reveals, it was the decisions made by a small number of central bankers that were the primary cause of that economic meltdown, the effects of which set the stage for World War II and reverberated for decades. As we continue to grapple with economic turmoil, *Lords of Finance* is a potent reminder of the enormous impact that the decisions of central bankers can have, their fallibility, and the terrible human consequences that can result when they are wrong.

Belgic Confession Restless Books

While paleontologist David Albee struggles to protect his remarkable discovery of live dinosaur eggs, the alien architects of life on the planet rush to Earth to make contact, armed with the secrets to the origins of the universe. Original.

A Nove! Le vie della Cristianità

An inspired and urgent prose retelling of the Maya myth of creation by acclaimed Latin American author and scholar Ilan Stavans, gorgeously illustrated by Salvadoran folk artist Gabriela Larios and introduced by renowned author, diplomat, and environmental activist Homero Aridjis. The archetypal creation story of Latin America, the Popol Vuh began as a Maya oral tradition millennia ago. In the mid-sixteenth century, as indigenous cultures across the continent were being threatened with destruction by European conquest and Christianity, it was written down in verse by members of the K'iche' nobility in what is today Guatemala. In 1701, that text was translated into Spanish by a Dominican friar and ethnographer before vanishing mysteriously. Cosmic in scope and yet intimately human, the Popol Vuh offers invaluable insight into the Maya way of life before being decimated by colonization—their code of ethics, their views on death and the afterlife, and their devotion to passion, courage, and the natural world. It tells the story of how the world was created in a series of rehearsals that included wooden dummies, demi-gods, and eventually humans. It describes the underworld, Xibalba—a place as harrowing as Dante's hell—and relates the legend of the ultimate king, who, in the face of tragedy, became a spirit that accompanies his people in their struggle for survival. *Popol Vuh: A Retelling* is a one-of-a-kind prose rendition of this sacred text that is as seminal as the Bible and the Qur'an, the Ramayana and the Odyssey. Award-winning scholar of Latin American literature Ilan Stavans brings a fresh creative energy to the Popol Vuh, giving a new generation of readers the opportunity to connect with this timeless story and with the plight of the indigenous people of the Americas. Praise for *Popol Vuh: A Retelling*: "Salvadoran illustrator Larios provides lush images to accompany stories of the Earth and the underworld, Xibalba, and the animals and gods that inhabit them.... A beautiful interpretation of pivotal Central American history told through contemporary illustration and language." —Kirkus Reviews "In these pages you will find an adroit retelling of a complex and often confusing tale with a vast and bewildering cast of characters. Approaching the Popol Vuh with a fresh eye and the necessary erudition, Ilan Stavans, the distinguished scholar of Hispanic culture, nimbly conveys the content and the sense of the original, retaining its magic and fascination, while rendering it more accessible to a wider readership. *Popol Vuh: A Retelling* artfully presents the case for the centrality of this magisterial story to the cultural consciousness of the Americas and for the urgency of its message." —Homero Aridjis, from the foreword "At a time when so many of us ask ourselves about the end of the world as we know it, few books could be more relevant than this sacred text of the Maya. In a mesmerizing, illuminating new translation, Ilan Stavans brings to contemporary readers this lyrical epic, with its messages from a lost civilization obsessed, as ours should be, with the inevitable cycles of catastrophe and change. The Popol Vuh encourages us to contemplate the perpetual conflict between truth and falsehood, light and darkness, so that we may find the wisdom to emerge as better people." —Ariel Dorfman, author of *Death and the Maiden* "Popol Vuh is one of the seminal foundational 'texts' of the Americas before it became 'America'—and one so few of us really know much about. Again, Ilan Stavans is infusing the US of A with the cultures and stories that have been traditionally erased or ignored and forgotten. All I can say is, another amazing Stavans project!" —Julia Alvarez "The Popol Vuh is the great book of creation of the Maya K'iche' culture, and Ilan Stavans has embarked on an intrepid adventure of recreation; he returns to a myth of origin to endow it with vibrant topicality, proving that rewriting a legend is a way of bewitching time." —Juan Villoro, author of *God Is Round* "Many translators, scholars, and poets have brought us close to the radiant eminence of our Mayan origin story, the Popol Vuh. None touch its wondrous dynamism and epic elegance like Stavans and Larios. Free of the formal constraints of the K'iche' original, Stavans's delivers a masterful retelling that invites us into chimeric dreams: from the mischievous first peoples and the quests of those grown from seeds, to hybrid creatures and demi-god twins with battles lost and won. Larios's dexterous admixture of cool washes and vibrant color palettes along with a K'iche'-inspired line-work aesthetic, further unzip our minds to a shared ancestral imaginary. Only my Guatemalan abuelita could cast such storytelling spells over me. Together, Stavans and Larios invite us all to dance as the children we once were and will become. A gift!" —Frederick Luis Aldama, author of *Long Stories Cut Short: Fiction from the Borderlands* "Ilan Stavans's retelling of this ancient and sacred story of the Mayan people is as exquisitely written as it is necessary." —Eduardo Halfon, author of *Mourning Praise for Ilan Stavans: "Ilan Stavans is an inventive interpreter of the contemporary cultures of the Americas.... Cantankerous and clever, sprightly and serious, Stavans is a voracious thinker. In his writing, life serves to illuminate literature—and vice versa: he is unafraid to court controversy, unsettle opinions, make enemies. In short, Stavans is an old-fashioned intellectual, a brilliant interpreter of his triple heritage—Jewish, Mexican, and American."* —Henry Louis Gates, Jr. "...in the void created by the death of his compatriot Octavio Paz, Ilan Stavans has emerged as Latin America's liveliest and boldest critic and most innovative cultural enthusiast." —The Washington Post "Ilan Stavans has done as much as anyone alive to bridge the hemisphere's linguistic gaps." —The Miami Herald "A canon-maker." —The Chronicle of Higher Education "Ilan Stavans is a maverick intellectual whose canonical work has already produced a whole array of marvels... His incisive essays are redefining Jewish literature." —The Forward "Ilan Stavans is the rarest of North American writers—he sees the Americas whole. Not since Octavio Paz has Mexico given us an intellectual so able to violate borders, with learning and grace." —Richard Rodriguez "In the multicultural rainbow that is contemporary America, no one may be more representative of the state of the union than Ilan Stavans." —Newsday "Ilan Stavans may very well succeed in becoming the Octavio Paz of our age." —The San Francisco Chronicle "A virtuoso critic with an exuberant, encyclopedic, restless mind." —The Forward "Ilan Stavans has the sharp eye of the internal exile. Writing about the sometimes reluctant reconquista of North America by Spanish-speaking cultures or the development of his own identity, he deals with both the life of the mind and the life of the streets." —John Sayles "Lively and intelligent, eclectic, sharp-tongued." —Peter Matthiessen "I think Stavans has one of the best grips around on what makes Spanish America tick." —Gregory Rabassa "Ilan Stavans is a disciple of Kafka and Borges. He accepts social identity

broadly, in the most cosmopolitan terms... His impulse is to broaden, not to narrow; he finds understanding through complication of identity, not through the easy gestures of ethnic politics." —The New York Times "Ilan Stavans has established himself as an invaluable commentator of literature." —Phillip Lopate

The Kolbrin Bible eBookIt.com

Once again the incomparable Gore Vidal interprets and animates history -- this time in a panoramic tour of the 5th century B.C. -- and embellishes it with his own ironic humor, brilliant insights, and piercing observations. We meet a vast array of historical figures in a staggering novel of love, war, philosophy, and adventure . . . "There isn't a page of CREATION that doesn't inform and very few pages that do not delight." -- John Leonard, The New York Times

A Song Open Road Media

A revelatory look at the separation of church and state in America—from the New York Times bestselling author of *The Great Influenza* For four hundred years, Americans have fought over the proper relationships between church and state and between a free individual and the state. This is the story of the first battle in that war of ideas, a battle that led to the writing of the First Amendment and that continues to define the issue of the separation of church and state today. It began with religious persecution and ended in revolution, and along the way it defined the nature of America and of individual liberty. Acclaimed historian John M. Barry explores the development of these fundamental ideas through the story of Roger Williams, who was the first to link religious freedom to individual liberty, and who created in America the first government and society on earth informed by those beliefs. This book is essential to understanding the continuing debate over the role of religion and political power in modern life.

The Sky People New Century Edition of the Wor

A "stimulating" account of the capitalists who changed America in the late 19th and early 20th centuries, setting the stage for the 1929 crash and Great Depression (Kirkus Reviews). In the decades following the Civil War, America entered an era of unprecedented corporate expansion, with ultimate financial power in the hands of a few wealthy industrialists who exploited the system for everything it was worth. The Rockefellers, Fords, Morgans, and Vanderbilts were the "lords of creation" who, along with like-minded magnates, controlled the economic destiny of the country, unrestrained by regulations or moral imperatives. Through a combination of foresight, ingenuity, ruthlessness, and greed, America's giants of industry remolded the US economy in their own image. They established their power and authority, ensuring that they—and they alone—would control the means of production, transportation, energy, and commerce—creating the conditions for the stock market collapse of 1929 and the Great Depression that followed. As modern society continues to be affected by wealth inequality and cycles of boom and bust, it's as important as ever to understand the origins of financial disaster, and the policies, practices, and people who bring them on. The *Lords of Creation*, first published when the catastrophe of the 1930s was still painfully fresh, is a fascinating story of bankers, railroad tycoons, steel magnates, speculators, scoundrels, and robber barons. It is a tale of innovation and shocking exploitation—and a sobering reminder that history can indeed repeat itself.

Lords of Finance Simon and Schuster

From master language creator David J. Peterson, creator of *Game of Thrones*' (HBO) Dothraki language, comes a creative guide to language construction. Peterson begins with a brief history of constructed languages, from Tolkien's creations to Klingon to the thriving global community of language construction. Then, using examples from a variety of languages including his own creations, Peterson offers a captivating and lucid overview, providing a basic foundation of essential linguistic tools for inventing and evolving one's own lexicon.

The Lords of Creation Open Road Media

Marc Vitrac was born in Louisiana in the early 1960's, about the time the first interplanetary probes delivered the news that Mars and Venus were teeming with life—even human life. At that point, the "Space Race" became the central preoccupation of the great powers of the world. Now, in 1988, Marc has been assigned to Jamestown, the US-Commonwealth base on Venus, near the great Venusian city of Kartahown. Set in a countryside swarming with sabertooths and dinosaurs, Jamestown is home to a small band of American and allied scientist-adventurers. But there are flies in this ointment – and not only the Venusian dragonflies, with their yard-wide wings. The biologists studying Venus's life are puzzled by the way it not only resembles that on Earth, but is virtually identical to it. The EastBloc has its own base at Cosmograd, in the highlands to the south, and relations are frosty. And attractive young geologist Cynthia Whitlock seems impervious to Marc's Cajun charm. Meanwhile, at the western end of the continent, Teesa of the Cloud Mountain People leads her tribe in a conflict with the Neanderthal-like beastmen who have seized her folk's sacred caves. Then an EastBloc shuttle crashes nearby, and the beastmen acquire new knowledge... and AK47's. Jamestown sends its long-range blimp to rescue the downed EastBloc cosmonauts, little suspecting that the answer to the jungle planet's mysteries may lie there, among tribal conflicts and traces of a power that made Earth's vaunted science seem as primitive as the tribesfolk's blowguns. As if that weren't enough, there's an enemy agent on board the airship... Extravagant and effervescent, *The Sky People* is alternate-history SF adventure at its best. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Lords of Creation Grove/Atlantic, Inc.

Masters of Doom is the amazing true story of the Lennon and McCartney of video games: John Carmack and John Romero. Together, they ruled big business. They transformed popular culture. And they provoked a national controversy. More than anything, they lived a unique and rollicking American Dream, escaping the broken homes of their youth to co-create the most notoriously successful game franchises in history—Doom and Quake—until the games they made tore them apart. Americans spend more money on video games than on movie tickets. *Masters of Doom* is the first book to chronicle this industry's greatest story, written by one of the medium's leading observers. David Kushner takes readers inside the rags-to-riches adventure of two rebellious entrepreneurs who came of age to shape a generation. The vivid portrait reveals why their games are so violent and why their immersion in their brilliantly designed fantasy worlds offered them solace. And it shows how they channeled their fury and imagination into products that are a formative influence on our culture, from MTV to the Internet to Columbine. This is a story of friendship and betrayal, commerce and artistry—a powerful and compassionate account of what it's like to be young, driven, and wildly creative. "To my taste, the greatest American myth of cosmogenesis features the maladjusted, antisocial, genius teenage boy who, in the insular laboratory of his own bedroom, invents

the universe from scratch. *Masters of Doom* is a particularly inspired rendition. Dave Kushner chronicles the saga of video game virtuosi Carmack and Romero with terrific brio. This is a page-turning, mythopoeic cyber-soap opera about two glamorous geek geniuses—and it should be read while scarfing down pepperoni pizza and swilling Diet Coke, with Queens of the Stone Age cranked up all the way.”—Mark Leyner, author of *I Smell Esther Williams*

Earth Lords Simon and Schuster

Popol Vuh, the Quich^Á Mayan book of creation is not only the most important text in the native language of the Americas, it is also an extraordinary document of the human imagination. It begins with the deeds of Mayan Gods in the darkness of a primeval sea and ends with the radiant splendor of the Mayan Lords who founded the Quich^Á Kingdom in the Guatemalan highlands. Originally written in Mayan hieroglyphs, it was translated into the Roman alphabet in the 16th century. The new edition of Dennis Tedlock's unabridged, widely praised translation includes new notes and commentary, newly translated passages, newly deciphered hieroglyphs, and over 40 new illustrations.

Superluminary Your Own World, Inc.

Being assassinated once may be an accident. Being assassinated twice is enemy action. Aeneas Tell of the House of Tell is one of the youngest Lords of Creation. More gods than men, the Lords of Creation have cheated Death itself. But even a quasi-immortal god will take exception to being assassinated. Twice.

"The story of the immense financial and corporate expansion which took place in the United States between the depression of the eighteen-nineties and the crisis of the nineteen-thirties."—Preface.

Lord of the Flies WestBow Press

The story of the immense financial and corporate expansion which took place in the United States between the depression of the eighteen-nineties and the crisis of the nineteen-thirties.

[An Informal History of the 1920s](#) Eisenbrauns

The National Book Award-winning epic chronicle of the creation of the Panama Canal, a first-rate drama of the bold and brilliant engineering feat that was filled with both tragedy and triumph, told by master historian David McCullough. From the Pulitzer Prize-winning author of *Truman*, here is the national bestselling epic chronicle of the creation of the Panama Canal. In *The Path Between the Seas*, acclaimed historian David McCullough delivers a first-rate drama of the sweeping human undertaking that led to the creation of this grand enterprise. *The Path Between the Seas* tells the story of the men and women who fought against all odds to fulfill the 400-year-old dream of constructing an aquatic passageway between the Atlantic and

Pacific oceans. It is a story of astonishing engineering feats, tremendous medical accomplishments, political power plays, heroic successes, and tragic failures. Applying his remarkable gift for writing lucid, lively exposition, McCullough weaves the many strands of the momentous event into a comprehensive and captivating tale. Winner of the National Book Award for history, the Francis Parkman Prize, the Samuel Eliot Morison Award, and the Cornelius Ryan Award (for the best book of the year on international affairs), *The Path Between the Seas* is a must-read for anyone interested in American history, the history of technology, international intrigue, and human drama.

[The First Book of Moses, Called Genesis](#) White Wolf Pub

The only true and unedited telling of the life of Christ—his life and times, in historical context, but not lacking the psychology behind his physical being and spirit. Unlike other books seeking to strip Jesus' story to reveal only the human being, Romano Guardini's *The Lord* gives the complete story of Jesus Christ—as man, Holy Ghost, and Creator. Pope Benedict XVI lauds Guardini's work as providing a full understanding of the Son of God, away from the prejudice that rationality engenders. Put long-held myths aside and discover the entire truth about God's only begotten Son.

[A Study of the Book of Revelation](#) HarperCollins

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new *Suggestions for Further Reading* by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

The Secret Intellectual History of the New Corporate World Simon and Schuster

Imagine, if you can, the world of business - without corporate strategy. Remarkably, fifty years ago that's the way it was. Businesses made plans, certainly, but without understanding the underlying dynamics of competition, costs, and customers. It was like trying to design a large-scale engineering project without knowing the laws of physics. But in the 1960s, four mavericks and their posses instigated a profound shift in thinking that turbocharged business as never before, with implications far beyond what even they imagined. In *The Lords of Strategy*, renowned business journalist and editor Walter Kiechel tells, for the first time, the story of the four men who invented corporate strategy as we know it and set in motion the modern, multibillion-dollar consulting industry: Bruce Henderson, founder of Boston Consulting Group Bill Bain, creator of Bain & Company Fred Gluck, longtime Managing Director of McKinsey & Company Michael Porter, Harvard Business School professor Providing a window into how to think about strategy today, Kiechel tells their story with novelistic flair. At times inspiring, at times nearly terrifying, this book is a revealing account of how these iconoclasts and the organizations they led revolutionized the way we think about business, changed the very soul of the corporation, and transformed the way we work.
