## **POWERS KARTER**

### **The Fort McClellan POW Camp**

Jelsba Media Group  
The POW Camp at Fort McClellan, Alabama, was one of hundreds of American containment centers built to hold the hundreds of thousands of German prisoners captured during World War II. The camp's well-maintained and humane facilities gained it a

reputation as a "model camp." Military officials praised its elimination of major operational problems. International inspectors commended it, calling it one of the best camps in the country. Prisoners accepted and even enjoyed their time there. Drawing on official documents and recollections of prisoners, soldiers and civilians, this book provides a personal and

detailed history of a widely praised and admired place of internment. McFarland I've gotten a do over... And I'm determined not to screw it up. I'm a tough guy. I'm a whiz with power tools, earned my hard hat and work boots

the legit way, and can throw a football spiral that makes pro quarterbacks weep. But when Maddie, the mother of my son, shows up on my doorstep in tears, I have zero defenses. I can't say no to my kid. Or his mom. Never have been able to. That's how I make two big impulsive decisions: giving Maddie a bed to sleep in... and climbing in with her. Now I've got my kid and his mom living under my too-

small roof, and I can't put the attraction genie back in the bottle. I always knew I wasn't the guy anyone wanted as a dad or a husband, and nothing's changed in that department. But I can't deny that this time, something's different. I just hope that thing is me. An under-one-roof, accidental pregnancy, second chances rom com. *Assembly* Jelsba Media Group

This is a classic guide to woodworking that focuses on making a variety of cabinets and similar items of household furniture. Including instructions for designing and practical step-by-step directions, this timeless volume will be of utility to DIY enthusiasts and those with an interest in woodwork in general. Paul Nooncree Hasluck (1854 - 1916) was an Australian engineer and editor. He was a master of

technical writing and father of the 'do-it-yourself' book, producing many books on subjects including engineering, handicrafts, woodwork, and more. Other notable works by this author include: "Treatise on the Tools Employed in the Art of Turning" (1881), "The Wrath-Jobber's Handy Book" (1887), and "Screw-Threads and Methods of Producing Them" (1887). Many vintage

books such as this are increasingly scarce and expensive. It is with this in mind that we are republishing this volume now in an affordable, modern, high-quality edition complete with a specially-commissioned new biography of the author. Safety News Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-

improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. The Under One Roof Collection This manual is here to help those of us experiencing "midlife", showing us how to get the meagre most out of these years and making us feel less alone. It will make you laugh. It may at times even

be genuinely helpful.

Jack: tough, cocky, and

irreverent.  
Chase: boy-next-door, charming, and fun. Sawyer: dark, tall, and brooding. They couldn't be more different, but they have something big in common: They're all trying to do right by the kids they're raising alone. And it's going pretty well... until trouble moves in... It's all fun and games until you and the woman you should NEVER fall for are under one roof. DO OVER  
When Maddie, the mother of

my son, shows up on my doorstep in tears, I have zero defenses. I can't say no to my kid. Or his mom. Never have been able to. That's how I make two big impulsive decisions: giving Maddie a bed to sleep in... and climbing in with her. Now I've got my kid and his mom living under my too-small roof, and I can't put the attraction genie back in the bottle. HEAD OVER HEELS I need a fill-in nanny, stat. Liv needs

a place to live and a job. We're best friends and polar opposites—with a huge helping of new and sizzling chemistry. Living under one roof... what could go wrong? SLEEPOVER She's my new next-door neighbor. My son's best friend's mom. And... whoops, my most recent one-night stand. We both know a repeat would be a terrible idea, given the close quarters and our recent histories. But

are things too close for comfort? Or not close enough? Three full-length, standalone, interconnected, steamy, small-town contemporary romantic comedies, chock full of friends-to-lovers, opposites attract, grumpy-sunshine, and second chance goodness. *Moody's Manual of Railroads and Corporation Securities Cortina* French-English military
