**In die Wildnis** Academic Press  
Nur wer Grenzen überschreitet, kann die  
Welt verändern Jackson, Mississippi,  
1962: Die junge Skeeter ist frustriert.  
Nach dem Studium verbringt sie die  
Tage auf der elterlichen Baumwollfarm,  
als einzige ihrer Freundinnen ohne einen  
Ring am Finger. Sehr zum Missfallen der  
Mutter. Doch der Mann, mit dem ihre  
Freundinnen sie verkuppeln wollen, ist

ein hochnäsiger Snob. Und dann ist auch  
noch ihr schwarzes Kindermädchen, bei  
dem sie stets Trost fand, spurlos  
verschwunden. Skeeter wünscht sich nur  
eins: Sie will weg aus dem engen  
Jackson und als Journalistin in New York  
leben. Und um diesem Ziel näher zu  
kommen, verbündet sie sich mit zwei  
Dienstmädchen, die ebenso unzufrieden  
sind wie sie: Aibileen zieht inzwischen  
das siebzehnte weiße Kind auf. Doch  
nach dem Unfalltod ihres einzigen  
Sohnes ist etwas in ihr zerbrochen. Und  
Minnie ist auf der Suche nach einer

neuen Stelle. Sie ist bekannt für ihre Kochkünste, aber sie ist auch gefürchtet: Denn Minny trägt das Herz auf der Zunge. Und gemeinsam beschließen die drei außergewöhnlichen Frauen, gegen die Konventionen ihrer Zeit zu verstoßen und etwas zu wagen. Denn sie alle haben das Gefühl zu ersticken und wollen etwas verändern – in ihrer Stadt und in ihrem eigenen Leben.

What will it take to create truly contemporary learning environments that meet the demands of 21st-century society, engage learners, and produce graduates who are prepared to succeed in the world? What skills and capacities do teachers and leaders need to create and sustain such schools? What actions

are necessary? *Bold Moves for Schools* offers a compelling vision that answers these questions—and action steps to make the vision a reality. Looking through the lenses of three pedagogies—antiquated, classical, and contemporary—authors Heidi Hayes Jacobs and Marie Hubley Alcock examine every aspect of K-12 education, including curriculum, instruction, assessment, and the program structures of space—both physical and virtual—time, and grouping of learners and professionals. In a new job description for teachers, Jacobs and Alcock highlight and expound on the following roles: \* self-navigating professional learner, \* social contractor, \* media critic and media maker, \* innovative designer, \* globally

connected citizen, and \* advocate for learners and learning. With thought-provoking proposals and practical strategies for change, Bold Moves for Schools sets educators on the path to redefining their profession and creating exciting new learning environments. The challenge is unprecedented. The possibilities are unlimited.

Fatima erzählt die Geschichte ihres Freundes Iqbal, eine Geschichte von Unfreiheit und Leid, aber auch von Rebellion und Mut, Hoffnung und Befreiung. Beide arbeiten für wenig Geld in einer pakistanischen Teppichweberei. Iqbal jedoch lässt sich weder von Willkür noch von härtesten Strafen brechen. Er flieht nach Lahore und nimmt Kontakt auf zur "Front zur

Bekämpfung der Kinderarbeit". Iqbals Rebellion gegen die Verbrechen einer kinderverachtenden Industrie führt zum Erfolg: Die anderen Kinder werden befreit und der Webereibesitzer wird verhaftet. Iqbal jedoch bezahlt den Traum von einer gerechteren Welt mit seinem Leben. Aber er lebt weiter in den unzähligen Iqbals, die zur Freiheit aufrufen und nicht zuletzt in Fatimas Erinnerung.

A century ago, horses were ubiquitous in America. They plowed the fields, transported people and goods within and between cities and herded livestock. About a million of them were shipped overseas to serve in World War I. Equine related industries employed vast

numbers of stable workers, farriers, wainwrights, harness makers and teamsters. Cities were ringed with fodder-producing farmland, and five-story stables occupied prime real estate in Manhattan. Then, in just a few decades, the horses vanished in a wave of emerging technologies. Those technologies fostered unprecedented economic growth, and with it a culture of recreation and leisure that opened a new place for the horse as an athletic teammate and social companion.

The Gift of Disillusionment Life Saving Love

During the 2020 and 2021 phases of the global COVID-19 pandemic, there was significant prognostication regarding what internationalization in higher education would look like in its aftermath. Within the field of international education, many stated the need to reimagine internationalization in and of higher education in the face of severe budget cuts, restrictions on

travel, and increased government protectionism in the face of growing nationalistic populism globally to name a few challenges. Absent from many of those discussions, however, were the voices of many leader-practitioners who have had to think flexibly about internationalization in higher education in order to sustain and grow programs throughout the last 20 years despite numerous exogenous factors, e.g., earlier economic recessions and viral outbreaks, along with endogenous factors like internal leadership transitions and institutional reorganizations. Wisconsin in the World explores how internationalization at the University of Wisconsin-Madison (UW) has been a decades-long, ongoing endeavor. Against that backdrop, the

various chapters also provide a snapshot of how people across the UW campus were reflecting on their work amidst the COVID-19 pandemic and on the implications of the pandemic regarding the future of campus internationalization. The book is organized into four overarching sections—internationalization of the curriculum (general and language); experiential learning (co-curricular engagement and education away); establishing linkages (institutional and outreach); and administration. To highlight the expansive way campus units have been engaging in internationalization, a wide-ranging set of chapter case studies have been included. Although not exhaustive, this volume does provide a robust cross-

sectional view into internationalization at UW. For international education scholars and practitioners then, a number of the chapters also highlight areas that may warrant further engagement and exploration moving forward. Finally, by examining how internationalization at UW has been informed by the Wisconsin Idea, this book explores how institutional internationalization strategies can align with and be tailored to institutional values for long-term sustainability. In addition to the 34 chapters focusing on different units and programs at UW, Wisconsin in the World also includes a number of contributions from colleagues at other institutions. Each section has a lead-in chapter which provides an overview of the scholarship in that particular area and/or a concluding

chapter from a scholar-practitioner situating the UW “cases” in relation to their own work. The intention of structuring the book this way was to facilitate a dialogue among UW colleagues, across institutions, and with the scholarship in the field. The target audience for *Wisconsin in the World* includes practitioners or scholar practitioners in the field of international education (study abroad, education away, internships, partnerships, program development), as well as faculty and students in global higher education or comparative and international education graduate programs. Additionally, this volume may be of general interest for any higher education administrator who may not have a background in international education but may become

responsible for programs and support within a school or college context (e.g., a dean or department chair).

The clinical approaches to the chronic degenerative diseases that drain our resources, and compromise our well-being, have become almost exclusively symptom-focused. The common wisdom is that they are idiopathic with final outcomes to be managed rather than prevented or cured. That they are potentially reversible rarely enters any discussion between doctor and patient. Reversibility of Chronic Disease and Hypersensitivity, Volume 5: Treatment Options of Chemical Sensitivity, the final volume of this set, offers a much

different perspective on chronic degenerative disease; one that disputes the idiopathic label attached to most, as well as the usual fatalistic prognosis.

World Oceans: A Reference Handbook offers an in-depth discussion of the world's oceans. It discusses the marine life that is dependent on the sea as well as the problems threatening the health of the ocean and its wildlife. World Oceans: A Reference Handbook opens with an overview of the history of human knowledge and understanding of the oceans and cryosphere, along with related scientific, technological, social, political, and other factors. The second chapter presents and discusses about a dozen major problems facing the Earth's oceans today, along with possible solutions. The third chapter provides interested individuals with an opportunity to express their thoughts and ideas on today's ocean issues, and

remaining chapters provide additional resources, such as a bibliography, a chronology, and a glossary, to assist the reader in her or his further study of the issue. Where most books for young adults learning about world oceans take a purely expository treatment, this book provides readers with additional information as well as resources, allowing them to learn more and inform further study of the subject.

If asked, who among us wouldn't say we were kind people? But kindness is often manifested in feelings of pity or sympathy--especially when others are watching--rather than in deeds. And when it comes down to it, what good does mere feeling do for the world? Your

Next 24 Hours is about something much bigger--a lifestyle of kindness, without thought of reciprocation, extended toward every person in our lives, both friend and foe. Through powerful true stories of kindness lived out, this book shows readers the enormous difference they can make through small, doable acts of kindness in their families, communities, workplaces, schools, and churches. It shows how every encounter with another person is an opportunity to be kind--and a chance to change our world. Readers of Your Next 24 Hours will find deep satisfaction and joy as they discover how they can be part of a revolution of kindness that starts with them and reaches out through every person their lives touch.

This book explores African domestic and regional responses and approaches to

environmental protection and sustainability. Written by African experts, the collection consists of five parts covering the whole of Africa. It provides broad coverage of specific themes, including environmental constitutionalism, climate change, gender and the environment, wildlife trade, environmental justice, and human displacement. The key aims are first, to explore theoretical and empirical studies to interrogate and provide clarity on academic discourse on how and whether environmental human rights approaches and policy implications have effectively enhanced environmental protection and sustainability at African domestic levels. Second, to investigate and present innovative solutions on how African domestic legal regimes deal with

environmental justice, natural resources governance, refugees' environmental rights, and climate-induced displaced persons. Finally, to propose innovative legal and institutionalised solutions to Africa's ecological realities by determining the legal and regulatory gaps on environmental human rights issues on the continent. The collection will be a valuable resource for researchers, academics, and policymakers in human rights law, environmental law, political science, ecology and conservation, environmental management, disaster management, and development studies.

Gute Geister BRILL  
 Hope for Leaders Facing Burnout and Discouragement Around the world, discouragement erodes the vitality of

organizations. Visionaries often succumb to cynicism. Zealous advocates give up. Leaders coast as their passion for the cause grows cold. Grounded in research, this book is an invitation for followers of Jesus to sustain hope in long-term service. It's about moving past the false hope of idealism and the faint hope of disillusionment to discover true Christian hope. You will gain encouragement through the study of the book of Jeremiah woven throughout as the authors explore how the Lord prophetically met and sustained Jeremiah during his lifetime of faithfulness despite literally nothing going as he'd hoped. Glean further inspiration by reading the stories of Christian leaders from around the globe: Zimbabwe, Haiti, Guatemala, Poland,

Palestine, the Philippines, India, Zambia, and Lebanon. For this is a moment when we need the global Church's perspective and influence. Don't give up and don't check out. These are confounding and

perilous days, yet God's sustaining presence can bring joy, hope, and encouragement even amid heartache and disappointment.
