But the photobook is more than just a display case: it's a means of expression, an art object, a historical record, a propaganda tool, a multi-sensory experience. Photobook Belge is the first ever overview of photobooks created by Belgian photographers. Covering a period of more than 150 years, from the mid-19th century to the present, it features almost 250 photobooks, all carefully described and illustrated. It's the first time that research into the production and context of Belgian photobooks has been carried out on this scale. In so doing, it sheds light on a hitherto neglected part of Belgium's long and fascinating photo history. Over time, the Belgian photobook has become well established. From the author of the acclaimed and much-loved Waterlogand Wildwood. For the last six years of his life, Roger Deakin kept notebooks in which he wrote his daily thoughts, impressions, feelings and observations. Discursive, personal and often impassioned, they reveal the way he saw the world, whether it be observing the teeming ecosystem that was Walnut Tree Farm, thinking about the wider environment, walking in his fields or on Mellis Common, or quietly contemplating his past and present life. Notes From Walnut Tree Farmcollects the very best of these writings, capturing Roger's extraordinary, restless curiosity into the natural and human worlds, his love of literature and music, his knack for making unusual and apposite connections, and of course his distinct and subversive charm and humour. Together they cohere to present a passionate, engaged and - in spite of the worst pressures of contemporary life - optimistic view of our changing world.

One hundred stereotype maps glazed with the most exquisite human prejudice, especially collected for you by Yanko Tsvetkov, author of the viral Mapping Stereotypes project. Satire and cartography rarely come in a single package but in the Atlas of Prejudice they successfully blend in a work of art that is both funny and thought-provoking. The book is based on Mapping Stereotypes, Yanko Tsvetkov's critically acclaimed project that became a viral Internet sensation in 2009. A reliable weapon against bigots of all kinds, it serves as an inexhaustible source of much needed argumentation and-occasionally-as a nice slab of

paper that can be used to smack them across the face whenever reasoning becomes utterly impossible. The Complete Collection version of the Atlas contains all maps from the previously published two volumes and adds twenty five new ones, wrapping the best-selling series in a single extended edition.

One of the Believer's Best Books of the Year: One woman's journey through that awkward period between being born and dying. A modern odyssey about trying to find one's home in the world, this collection of wickedly funny and offbeat vignettes touches upon quantum physics; the Donner Party; arctic exploration; Greek mythology; Rocky I, II, V, IV, VI, and III respectively; and literary immortality. Dating Tips for the Unemployed "melds novel, autobiography, and all manner of asides as [the author] flails at art, love, and friendship with the wry intelligence of someone just wise enough to realize they have no idea what they're doing. A flat-out joy to read" (O, The Oprah Magazine). "In engaging episodes, Iris-the-character neurotically navigates dating in New York City, smokes pot on Greek islands with hapless lovers, drinks too much, deals with disapproving family, and eats a lot of cannoli. Smyles's surreal, lyrical voice elevates these everyday scenarios into the realm of the fantastic and absurd. Included in the book are hilariously stylized advertisements full of false promises, such as 'Health Secrets of the Roman Empire' and 'Have Your Portrait Painted By An Elephant!' all for a price. Smyles is sharp, melancholy, and wickedly funny. She is unafraid to reveal and revel in her character's flaws because it is what makes them so achingly, relatably human." —Interview "Something like a cocktail of Dorothy Parker, James Joyce, and Philip Roth iced, sweetened, and blended." —The Nervous Breakdown "Whimsy, satire, and rollicking social commentary . . . Ms. Smyles is a misanthrope-of-the-people, a standout on the order of Fran Lebowitz." —The East Hampton Star

Los Angeles-based cult artist Richard Jackson consistently uses his mistrust of conventional painting as a gateway to works that straddle the divide between the explicitly civilized and the wildly primordial. Born in 1939, Jackson emerged alongside the Minimal and Conceptual artists of the 1970s with whom he became

associated, yet remained distant in terms of approach. Influenced by Abstract Expressionism and action painting, Jackson has built his career over three decades, exploring the limits of painterly practice. This wryly designed monograph fuses Jackson's two passions: art-making and hunting. Using the format of a hunting magazine, it showcases images from recent solo exhibitions at Haswelllediger & Co., Nyehaus, Hauser & Wirth and Galerie Georges-Philippe & Nathalie Vallois and includes essays by Paul McCarthy, Bozidar Brazda, Julian Bismuth and Carissa Rodriguez.

Outside It's War Bonnier Publishing Fiction Ltd.

For a twenty-eight-year-old young man who returned from the army several years ago but has yet to reacclimatize to ordinary life, every step, gesture, word, and vision is a revelation, which takes him back to the beginning, to a time when reality had lost its shape, and turned into a new and imperceptible world. In his imagination, he embodies a number of different characters, he feels the presence of his girlfriend again, and remembers friends from his childhood and from the army, who are now gone. This is a book of questions, and the answers to these questions are to be found by the reader. The novel is like a puzzle which needs to be pieced together, and the picture is not complete until the last piece is in place, until the last word of the book has been read. Translated from the Armenian by Nairi Hakhverdi.

While social psychology has made fundamental contributions to the understanding of basic principles that underlie social behavior, these principles themselves—including expectancies, goals, explanations, arousal, social influence, interdependence, social conflict, persuasion, and social standards--have never been directly reviewed in a comprehensive manner. Filling a significant gap in the literature, this authoritative reference and text illuminates the essential processes, mechanisms, and structures at different levels of analysis--biological, cognitive, motivational, interpersonal, and group/cultural--to provide access to the central principles that guide social psychological investigation. Formatted for easy reference and comparison, each chapter describes alternative conceptualizations of a particular principle and reviews research supporting (and failing to support) these different perspectives. Covering all the significant theories and research programs, the empirical literature is surveyed not for the traditional function of providing comprehensive reviews of content areas, but for its relevance to broad conceptual issues. This enables readers to get a better idea of the "big picture" concerning various social psychological principles, facilitating their ability to keep track of conceptual trends and developments in social psychology. An essential tool for all social psychologists, as well as professionals in related fields, this authoritative handbook also serves as an invaluable text for advanced classes in social psychology.
