Political Ethnography Rodale Books

WINNER OF THE NATIONAL BOOK CRITICS CIRCLE AWARD “Writing criticism is to writing fiction and poetry as hugging the shore is to sailing in the open sea,” writes John Updike in his Foreword to this collection of literary considerations. But the sailor doth protest too much: This collection begins somewhere near deep water, with a flotilla of short fiction, humor pieces, and personal essays, and even the least of the reviews here—those that “come about and draw even closer to the land with another nine-point quotation”—are distinguished by a novelist’s style, insight, and accuracy, not just surface sparkle. Indeed, as James Atlas commented, the most substantial critical articles, on Melville, Hawthorne, and Whitman, go out as far as Updike’s fiction: They are “the sort of ambitious scholarly reappraisal not seen in this country since the death of Edmund Wilson.” With *Hugging the Shore*, Michiko Kakutani wrote, Updike established himself “as a major and enduring critical voice; indeed, as the pre-eminent critic of his generation.”

Eric Honeywood Partridge, renowned philologist, etymologist and lexicographer, dedicated his life to the study of language but it is for his work on slang, and in particular for his flagship dictionary, *The Dictionary of Slang and Unconventional English*, that he is most widely remembered and admired. Now for the first time from Routledge, the eighth, and current, edition of Partridge's renowned dictionary is available in paperback. Originally published in 1984, this edition was published posthumously but had been worked upon by Partridge until six weeks before his death. Its place in the history of the lexicography of slang is assured as the last edition to feature original work by Partridge himself. Book jacket.

Masculinity and Power in Irish Nationalism, 1884-1938 Dalkey Archive Press

Poverty and precarity have gained a new societal and political presence in the twenty-first century's advanced economies. This is reflected in cultural production, which this book discusses for a wide range of media and genres from the novel to reality television. With a focus on Britain, its chapters divide their attention between current representations of poverty and important earlier narratives that have retained significant relevance today. The book's contributions discuss the representation of social suffering with attention to agencies of enunciation, ethical implications of 'voice' and 'listening', limits of narratability, the pitfalls of sensationalism, voyeurism and sentimentalism, potentials and restrictions inherent in specific representational techniques, modes and genres; cultural markets for poverty and precarity. Overall, the book suggests that analysis of poverty narratives requires an intersection of theoretical reflection and a close reading of texts.

This is an authoritative account of the a major, but neglected aspect of the Irish cultural renaissance- prose literature of the Gaelic Revival. The period following the War of Independence and Civil War saw an outpouring of book-length works in Irish from the state publishing agency An Gum. The frequency and production of new plays, both original and translated, have never been approached since. This book investigates all of these works as well as journalism and manuscript material and discusses them in a lively and often humorous manner. -- Publisher description

Scholars of politics have sought in recent years to make the discipline more hospitable to qualitative methods of research. Lauding the results of this effort and highlighting its potential for the future, Political Ethnography makes a compelling case for one such method in particular. Ethnography, the contributors amply demonstrate in a wide range of original essays, is uniquely suited for illuminating the study of politics. Situating these pieces within the context of developments in political science, Edward Schatz provides an overarching introduction and substantive prefaces to each of the volume's four sections. The first of these parts addresses the central ontological and epistemological issues raised by ethnographic work, while the second grapples with the reality that all research is conducted from a first-person perspective. The third section goes on to explore how ethnographic research can provide fresh perspectives on such perennial topics as opinion, causality, and power. Concluding that political ethnography can and should play a central role in the field as a whole, the final chapters illuminate the many ways in which ethnographic approaches can enhance, improve, and, in some areas, transform the study of politics.

Dictionaries are mines whose word-gems encapsulate centuries of language history and cultural traditions; they are store-houses of meanings and uses, 'lamp genies' to be set free at the very moment readers set their eyes on their entries. This book is an attempt to free such lamp genies, by discussing the role of dictionaries in the identification and expression of cultural aspects in language, with special reference to English. As such, its eleven chapters have been arranged to focus on general, genre-specific, monolingual and bilingual lexicography, both from a diachronic and a synchronic perspective. The book will be of use to lexicographers and lexicologists, as well as to corpus linguists, historical and contemporary English scholars, students of English, and anybody interested in the juice of culture(s) that can be fruitfully extracted from dictionary entries.

On Another Man's Wound, O'Malley's account of his experiences during Ireland's War of Independence, was first published to instant acclaim in 1936 and was followed by his account of his experiences in the Civil War in *The Singing Flame*. O'Malley had reported directly to Michael Collins and Richard Mulcahy during the War of Independence and was appointed OC of the Second Southern Division, the second largest division of the IRA. When the Treaty with Britain was signed on 6 December 1921, diehard Republicans like O'Malley would not accept it. In the bitter Civil War that followed, O'Malley was in the Four Courts when it was attacked by the Free State army. Later he was OC of the Republicans in Ulster and Leinster. He was eventually captured and imprisoned until July 1924. He was one of the last Republican prisoners to be released. The Free Staters had won and O'Malley, feeling there was no place for him in this new Ireland, went to live in the USA where he wrote his memoirs.

James Joyce and Nationalism Cambridge Scholars Publishing

James Joyce and Nationalism comprehensively revises our understanding of Joyce by re-examining his writing against Irish Nationalism. In this exciting and provocative book, Emer Nolan looks at the relationship between modernism and nationalism, tracing the applicability of alternative notions of nationalism to the various phases of Joyce's work. Nolan also brings post-colonial and feminist theories to a close re-reading of Joyce's works. This insightful and challenging work provides a polemical introduction to Joyce and is a much needed contribution to the vast field of Joyce studies. James Joyce and Nationalism is a ground-breaking and theoretically engaged intervention into debates about Joyce's politics and the politics of modernism.

This book focuses on previously unexplored gaps, limitations and avenues of inquiry within the canon and scholarship of Irish modernism to develop a more attentive and fluid theoretical account of this conceptual field. Foregrounding interfaces between literary, visual, musical, dramatic, cinematic, epistolary and journalistic media, these essays introduce previously peripheral writers, artists and cultural figures to debates about Irish modernism: Hannah Berman, Ethel Colburn Mayne, Mary Devenport O'Neill, Sheila Wingfield, Freda Laughton, Rhoda Coghill, Elizabeth Bowen, Máirtín Ó Cadhain, Joseph Plunkett, Liam O'Flaherty, Edward Martyn, Jane Barlow, Seosamh Ó Torna, Jack B. Yeats and Brian O'Nolan all feature here to interrogate the term's implications. Probing Irish modernism's responsiveness to contemporary theory beyond postcolonial and Irish studies, Irish Modernisms: Gaps, Conjectures, Possibilities uses diverse paradigms, including weak theory, biopolitics, posthumanism and the nonhuman turn, to rethink Irish

modernism's organising themes: the material body, language, mediality, canonicity, war, state violence, prostitution, temporality, death, mourning. Across the volume, cutting-edge work from queer theory and gender studies draws urgent attention to the too-often marginalized importance of women's writing and queer expression to the Irish avant-garde, while critical reappraisals of the coordinates of race and national history compel us to ask not only where and when Irish modernism occurred, but also whose modernism it was?

Theories of authorship and material culture provide the framework for this study. It maps Anglo-American authorship as it shifts from a theoretical to a more material approach to its study in contexts recognized as key to its development: the nineteenth-century literary market-place, twentieth-century experimentalism and postmodern culture.

Ich denke, also bin ich 109 Jahre nach dem Ende des Dritten Weltkriegs leben nur noch fünf Menschen. Sie hausen in unterirdischen Stollen, immer am Rande des Verhungerns, und werden jede Minute ihres Lebens von einem Supercomputer gefoltert, der ein Bewusstsein erlangt hat - und mit ihm unendlichen Hass auf seine Erbauer. Es gibt nur einen einzigen Ausweg für die gequälten Menschen - doch welcher von ihnen wird stark genug sein, ihn zu wählen? Understanding Global Cultures, Third Edition presents the cultural metaphor as a method for understanding the cultural mindsets of a nation, a cluster of nations, and even of a continent. This method involves identifying some phenomenon, activity or institution of a culture that all or most of its members consider important and with which they identify closely. Metaphors are not stereotypes; rather, they rely upon the features of one critical phenomenon of a culture to describe the entire culture. The characteristics of the metaphor then become the basis for describing and understanding the essential features of the culture. For example, the Italians invented the opera and love it passionately. Five key characteristics of the opera are the overture, spectacle and pageantry, voice, externalization, and the interaction between the lead singers and the chorus. These features are used to describe Italy and its cultural mindset. Thus the metaphor is a guide or map that helps such outsiders as students, travelers, and managers on short-term and long-term assignments understand quickly what members of a culture consider important.
