Moral judgments respond to the same model of logical reasoning, therefore: Moral Judgment: Characteristics, Types, Examples | Life ...Two-level utilitarianism

is a utilitarian theory of ethics developed by R. M. Hare. According to the theory, a person's moral decisions should be based on a set of moral rules, except in certain rare situations where it is more appropriate to engage in a 'critical' level of moral reasoning. Consequentialists believe that an action is right if it produces the best possible state of affairs. Traditional utilitarianism treats this as a claim that people should try to ensure that ...Two-level utilitarianism - Wikipedia Jean Piaget's two-stage theory of moral judgment marked a divide between the way children younger than 10 and those 10 and older think about morality. While younger children looked at rules as fixed and based their moral judgments on consequences, older children's perspectives were more flexible and their judgments were based on intentions. Kohlberg's Stages of Moral Development - ThoughtCo Ethical systems can generally be broken down into three categories: deontological, teleological and virtue-based ethics. The first two are considered deontic or action-based theories of morality because they focus entirely on the actions which a person performs. 3 Types of Ethical Systems to

Follow - Learn Religions In the past two decades, social science has painted a pretty dour picture of the power of moral reasoning. To explain why people disagree so profoundly about ethical and political questions, pundits and scientists have claimed that humans systematically disregard evidence from experts, and that we rely on gut feelings instead of reason. If true, these conclusions have pretty serious and ...
