The Situational Judgement Test at a Glance provides a sound introduction to the SJT and details ways you can prepare before the assessment. It includes worked case examples based on real-life scenarios which have been reviewed by experienced clinicians and examiners. The book draws out key aspects of professional practice relevant to the role of a junior doctor. This is based on the nine domains as outlined by the ISFP (Improving Selection to Foundation Programme), who detailed the behaviours necessary to be a competent Foundation Doctor. The overall aim of The Situational Judgement Test at a Glance is not to spoon feed

hundreds of practice questions or reams of guidelines, but to steer you towards a logical way of approaching best medical practice - and therefore the SJT - with many examples of doctors' personal experiences along the way. Challenging scenarios are analysed using guidelines from the General Medical Council and research interviews with patients, lab staff and healthcare professionals. All examples in the book are worked in a test-style apparatus, with questions on one side and detailed answers over the page so you can understand the reasoning behind the material.

From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. *Outliers* will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times
