Jumbos and Jumping Devils is a

pioneering exploration of the social history of circus in India over the last 150 years. It presents a wide variety of amazing tales ranging from the blooming and evolution of circus acrobatics in early twentieth-century Malabar to the sensational legal battles following the ban of wild animals and children from the circus ring in the twenty-first century. Alongside extensive fieldwork and interviews, the

The book paves the way for a new sociocultural analysis of performance genres and popular culture in the subcontinent against

several overlapping contexts.  This volume studies the concept and relevance of HISTEM (History of Science, Technology, Environment, and Medicine) in shaping the histories of colonial and postcolonial South Asia. Tracing its evolution from the establishment of the East India Company through to the early decades after the

Independence of India, it highlights the ways in which the discipline has changed over the years and examines the various influences that have shaped it. Drawing on extensive case studies, the book offers valuable insights into diverse themes such as the East-West encounter, appropriation of new knowledge, science in translation and communication, electricity and

urbanization, the colonial context of engineering education, science of hydrology, oil and imperialism, epidemic and empire, vernacular medicine, gender and medicine, as well as environment and sustainable development in the colonial and postcolonial milieu. An indispensable text on South Asia's experience of modernity in the nineteenth and twentieth centuries, this

book will be of interest to scholars and researchers of modern South Asian studies, modern Indian history, sociology, history of science, cultural studies, colonialism, as well as studies on Science, Technology, and Society (STS). *Social and Cultural History of India Since 1556* Harvard University Press India today is a vibrant free-market democracy, a nation well on its way to

overcoming decades of widespread poverty. The nation's rise is one of the great international stories of the late twentieth century, and in India Unbound the acclaimed columnist Gurcharan Das offers a sweeping economic history of India from independence to the new millennium. Das shows how India's policies after 1947 condemned the nation to a hobbled economy until

1991, when the government instituted sweeping reforms that paved the way for extraordinary growth. Das traces these developments and tells the stories of the major players from Nehru through today. As the former CEO of Proctor & Gamble India, Das offers a unique insider's perspective and he deftly interweaves memoir with history, creating a book that is at once

vigorously analytical and vividly written. Impassioned, erudite, and eminently readable, India Unbound is a must for anyone interested in the global economy and its future.

Despite the rapid spread of Buddhism the historical origins of Buddhsit thought and practice remain obscure.This work describes the genesis of the Tantric movement and in some ways an example of the feudalization of Indian society. Drawing on primary documents from sanskrit, prakrit, tibetan, Bengali, and chinese author shows

how changes in medieval Indian society, including economic and patronage crises, a decline in women's participation and the formation of large monastic orders led to the rise of the esoteric tradition in India.

subjects. Yet it is not simply a history of conquest and subjugation, or dominance and defeat: interaction and interdependency powerfully shaped the histories of all involved. The end result was a hybrid empire. India may have become by 1885 the jewel in the British crown, but by that same year a series of changes had occurred within Indian society that would set the foundations for the modern states

of India, Pakistan, and Bangladesh. This book provides a concise introduction to these dramatic changes. *Women in India: A Social and Cultural History* [2 volumes] Routledge Essays on India, most written between 1991 and 1996. Curing Madness? Routledge Curing Madness? focusses on the institutional and non-institutional histories of

madness in colonial north India. It proves that 'madness' and its 'cure' are shifting categories which assumed new meanings and significance as knowledge travelled across cultural, medical, national, and regional boundaries. The book examines governmental policies, legal processes, diagnosis and treatment, and individual case histories by looking closely at asylums in

<p>Agra, Benaras, Bareilly, Lucknow, Delhi, and Lahore. Rajpal highlights that only a few mentally ill ended up in asylums; most people suffering from insanity were cared for by their families and local vaidyas, ojhas, and pundits. These practitioners of traditional medicine had to reinvent themselves to retain their relevance as Western medical knowledge was widely disseminated in colonial</p>	<p>India. Evidence of this is found in the Hindi medical advice literature of the era. Taking these into account Shilpi Rajpal moves beyond asylum-centric histories to examine extensive archival materials gathered from various repositories. <i>Striving to Score</i> Routledge India: The Ancient Past provides a clear and systematic introduction to the cultural, political,</p>	<p>economic, social and geographical history of ancient India from the time of the pre-Harappan culture nine thousand years ago up until the beginning of the second millennium of the Common Era.
