Powerlifting FPIO Science and Practice of Strength Training is a favorite book among strength and

conditioning professionals. Now in a third edition, it offers upgraded artwork, updates based on

current science, and new information to enhance the practical application of the concepts

presented. Science and Practice of Strength Training, 3rd Edition The SFRA concept (80,81,83)

suggests that fatigue accumulates in proportion to the strength and duration of a stimulus. Then,

after the stimulus, for example, an exercise session, the body is rested, enabling fatigue to

dissipate and adaptations (often referred to as supercompensation) to occur. The Science and
