This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, Angels and Demons in Art will delight readers with an interest in art or religious symbolism. Quicksand CRC Press

"When I was the age of these children I could draw like Raphael. It took me many years to learn how to draw like these children."--Pablo Picasso, upon viewing an exhibition of children's drawings, as quoted by Sir Herbert Read in 1945 The idea that modern art looks like something a child can do is a long-standing cliché. For some modernists, however, the connection between their work and children's art was direct and explicit. This groundbreaking and heretical book, centered on such modern masters as Klee, Kandinsky, Picasso, and Miró, presents for the first time material from the collections of child art that these artists actually possessed as they undertook some of the greatest masterworks of their careers. As the first art historian to pursue this connection in detail, Jonathan Fineberg here explores the importance of children's art to the work of key modernists from Matisse to Jackson Pollock. Fineberg's inquiry

unfolds in this handsome book, which juxtaposes modern masterpieces with the drawings by children that directly influenced them. Fineberg discusses the effect of primitivism and Freudian thought on some of these artists, and demonstrates how they valued children's art for many reasons, including its naive spontaneity and celebration of the moment, imaginative use of visual language, and its universality and candor. For each of the masters who collected child art, the reasons for doing so are as varied as his or her unique style. Fineberg has uncovered most of these major collections of child art assembled by celebrated modernists. Many examples from these collections are reproduced in this book for the first time, together with explanations as to why expressionists, cubists, futurists, and others displayed the art of children alongside their own work in exhibitions of the early twentieth century. In chapters devoted to Larionov, Kandinsky and Münter, Klee, Picasso, Miró, Dubuffet, the Cobra artists, and artists after World War II, Fineberg examines how each artist exploited aspects of child art to formulate his or her own artistic breakthroughs. With over 170 color plates and 140 black and white illustrations, this visually compelling book will stimulate new research among art historians and will inspire museum visitors to see some of their favorite modern masterpieces in a new way.

George Simling has grown up in the city-state of Illyria, an enclave of logic and reason founded as a refuge from the Reaction, a wave of religious fundamentalism that swept away the nations of the twenty-first century. Yet to George, Illyria's militant rationalism is as

stifling as the faith-based superstition that dominates the world outside its walls. For George has fallen in love with Lucy. A prostitute. A robot. She might be a machine, but the semblance of life is perfect. To the city authorities, robot sentience is a malfunction, curable by erasing and resetting silicon minds. But George knows that Lucy is something more. His only alternative is to flee Illyria, taking Lucy deep into the religious Outlands where she must pass as human because robots are seen as mockeries of God, burned at the stake, dismembered, crucified. Their odyssey leads them through betrayal, war and madness, ending only at the monastery of the Holy Machine...

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique

component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Enlarged print edition now available! Writing in an approachable and anecdotal style, Tom Wright helps us to find our way around the letter to the Hebrews, one of the most challenging writings in the New Testament. He acknowledges that people often find it difficult, because some of the ideas it contains are strange to us. Yet, like meeting a new friend, Wright helps us to find Hebrews full of interest and delight, with a powerful message that comes

home to the church of today and tomorrow just as much as it did to the church of yesterday. Tom Wright has undertaken a tremendous task: to provide guides to all the books of the New Testament, and to include in them his own translation of the entire text. Each short passage is followed by a highly readable discussion with background information, useful explanations and suggestions, and thoughts as to how the text can be relevant to our lives today. A glossary is included at the back of the book. The series is suitable for group study, personal study, or daily devotions.
