Manitoba Law Journal: Underneath the Golden Boy 2014 Volume 37(2) The New Peoples Being and Becoming Métis in North America

Between 1867 and 2000, the Canadian government sent over 150,000 Aboriginal children to residential schools across the country. Government officials and missionaries agreed that in order to “civilize and Christianize” Aboriginal children, it was necessary to separate them from their parents and their home communities. For children, life in these schools was lonely and alien. Discipline was harsh, and daily life was highly regimented. Aboriginal languages and cultures were denigrated and suppressed. Education and technical training too often gave way to the drudgery of doing the chores necessary to make the schools self-sustaining. Child neglect was institutionalized, and the lack of supervision created situations where students were prey to sexual and physical abusers. Legal action by the schools’ former students led to the creation of the Truth and Reconciliation Commission of Canada in 2008. The product of over six years of research, the Commission’s final report outlines the history and legacy of the schools, and charts a pathway towards reconciliation. Canada’s Residential Schools: The Métis Experience focuses on an often-overlooked element of Canada’s residential school history. Canada’s residential school system was a partnership between the federal government and the churches. Since the churches wished to convert as many Aboriginal children as possible, they had no objection to admitting Métis children. At Saint-Paul-des-Métis in Alberta, Roman Catholic missionaries established a residential school specifically for Métis children in the early twentieth century, while the Anglicans opened hostels for Métis children in the Yukon in the 1920s and the 1950s. The federal government policy on providing schooling to Métis children was subject to constant change. It viewed the Métis as members of the ‘dangerous classes,’ whom the residential schools were intended to civilize and assimilate. This view led to the adoption of policies that allowed for the admission of Métis

children at various times. However, from a jurisdictional perspective, the federal government believed that the responsibility for educating and assimilating Métis people lay with provincial and territorial governments. When this view dominated, Indian agents were often instructed to remove Métis children from residential schools. Because provincial and territorial governments were reluctant to provide services to Métis people, many Métis parents who wished to see their children educated in schools had no option but to try to have them accepted into a residential school. As provincial governments slowly began to provide increased educational services to Métis students after the Second World War, Métis children lived in residences and residential schools that were either run or funded by provincial governments. As this volume demonstrates the Métis experience of residential schooling in Canada is long and complex, involving not only the federal government and the churches, but provincial and territorial governments. Much remains to be done to identify and redress the impact that these schools had on Métis children, their families, and their community.

Chronicling and Reclaiming a Denied Past Rowman & Littlefield Underneath the Golden Boy series of the Manitoba Law Journal reports on developments in legislation and on parliamentary and democratic reform in Manitoba, Canada, and beyond. This issue has articles from a variety of contributing authors including: Andrew M. Smith, Andrew Swan, Bryan P. Schwartz, E. L. Forget, Gerrit Theule, James Beddome, James P. Mulvale, Jane Ursel, Jessica Davenport, Jessica Isaak, Joan Grace, Karine Levasseur, Kathleen Buddle, Kelvin Goertzen, Kyle Emond, Matthew Carvell, Michael Ventola, Michelle I. Bertrand, Natalie Kalmét, Rana Bokhari, RCL Lindsay, Richard Jochelson, S. B. Strobel, Shauna MacKinnon, Sherry Brown, Sid Frankel, Stacy Senkbeil, Wayne Simpson, and Zachary Kinahan.

Confronting the Past and Engaging the Present Elsevier Health Sciences

What force of will and circumstance drove a woman from a comfortable life painting china tea services to one of hardship and loneliness in the battle zones of France and Belgium following the Great War? For western Canadian artist Mary Riter Hamilton (1868-1954), art was her life’s passion. Her tale is one of tragedy

and adventure, from homestead beginnings, to genteel drawing rooms in Winnipeg, Victoria and Vancouver, to Berlin and Parisian art schools, to Vimy and Ypres, and finally to illness and poverty in old age. "No Man’s Land" is the first biographical study of Hamilton, whose work can be found in galleries and art museums throughout Canada. Young and McKinnon’s meticulous research in unpublished private collections brings to light new correspondence between Hamilton and her friends, revealing the importance of female networks to an artist’s well being. Her letters from abroad, in particular, bring a woman’s perspective into the immediate post-war period and give voice to trying conditions. Hamilton’s career is situated within the context of her peers Florence Carlyle, Emily Carr, and Sophie Pemberton with whom she shared a Canadian and European experience.

An Annotated Bibliography of International Youth Literature Rowman & Littlefield

The 2016 Manitoba election campaign began after more drama than any in the past two decades. Yet, the province basks in prolonged economic growth and Winnipeg continues to experience a public renaissance. So why does political discontent roil through the province? The governing New Democrats have weakened and demoralized themselves. The opposition Progressive Conservatives foresee victory but project little assurance of success. The Liberals ride a wave of popularity in Winnipeg, though appear fragile. What is going on and what will the campaign amount to? A team of two dozen political experts—academics, policy experts, and journalists—is following the campaign and will contribute their findings to *Understanding the Manitoba Election 2016: Parties, Leaders, Campaigns, and Issues*. Contributions will cover a wide range of themes, including public opinion, media coverage, voter turnout, Indigenous issues, fiscal and social policy, and the relation of Manitoba politics to recent developments across Canada. To be released on May 6, 2016, two weeks after the election, the open-access publication will provide early analysis and insights into the decision that Manitoba voters have made. Published in association with the University of Manitoba’s Duff Roblin Chair in Government.

*No Man's Land* McGill-Queen's Press - MQUP

For Canadian impressionist Mary Riter Hamilton, capturing the

emotional landscape of battlefields and graveyards in the months after the Great War's armistice became an artistic calling and defined her work. A woman alone after the storm had passed, she found that her life after the war was indelibly marked by the experience. Undeterred by a rejection from the Canadian War Memorials Fund, who nominated only male war artists abroad, in 1919 Hamilton received a commission from the Amputation Club of British Columbia (now the War Amps) to commemorate those lost at war. She travelled from Victoria to the pre-reconstruction battlefields and towns of the Somme, Vimy Ridge, and the Ypres Salient where amid harsh conditions - inadequate shelter and food, surroundings littered with unexploded shells - she recorded with determination, pride, and grace the ruins of war. Based on intensive archival research in Canada, France, and Belgium, and using many previously unpublished letters, *I Can Only Paint* offers an insider's view of the artist's vast, underexplored body of war work and the conditions in which she created it. It places this period, central though it was, in the context of a full understanding of her life and restores the work she created there to its proper place in the canon of war art in Canada and abroad. Irene Gammel argues that Hamilton's work encoded a female perspective that distinguishes her paintings from the work of official Canadian war artists. The first reliable account of Hamilton's impressions of Canada's most haunting sites of conflict, *I Can Only Paint* captures with detail and sensitivity an experience that defined her life and recovers a body of work that stands as a unique and enduring portrait of the effects of the Great War.

**Merenstein & Gardner's Handbook of Neonatal Intensive Care - E-Book** Catapult

Pushed to the historical and social margins for too long, Eastern Métis reviews the record of these sidelined communities and the effort to reclaim their past. This book is the first-ever scholarly endeavor to trace the emergence and consolidation of Métis identities from the Atlantic Coast to Ontario and beyond. [Courage, Grief, and Strength in Canada's Great War](#) Routledge The chapters in this volume collect together perspectives on Indigenous epistemologies. These Indigenous ways of knowing pay particular attention to the relational aspects of language, culture, and place. They are not identified as specific themes, but as integrated parts of a philosophy, for Indigenous epistemologies

think within a relational framework, so that all aspects are best understood from this perspective. Indigenous ways of knowing have resisted colonization and oppression, and as such, Indigenous research perspectives exemplify a commitment to social justice, one that recovers knowledges that have been silenced or subjugated. When such knowledge is shared, we can see how to challenge oppressive regimes. We can see how to seek truth in a relational way that's attendant to being together. Indigenous Research takes up issues of social justice in a way that is informed by Indigenous epistemologies, an important practice in contemporary research, particularly qualitative inquiry.

[After Identity](#) Penn State Press

For decades, the field of Mennonite literature has been dominated by the question of Mennonite identity. *After Identity* interrogates this prolonged preoccupation and explores the potential to move beyond it to a truly post-identity Mennonite literature. The twelve essays collected here view Mennonite writing as transitioning beyond a tradition concerned primarily with defining itself and its cultural milieu. What this means for the future of Mennonite literature and its attendant criticism is the question at the heart of this volume. Contributors explore the histories and contexts—as well as the gaps—that have informed and diverted the perennial focus on identity in Mennonite literature, even as that identity is reread, reframed, and expanded. *After Identity* is a timely reappraisal of the Mennonite literature of Canada and the United States at the very moment when that literature seems ready to progress into a new era. In addition to the editor, the contributors are Ervin Beck, Di Brandt, Daniel Shank Cruz, Jeff Gundy, Ann Hostetler, Julia Spicher Kasdorf, Royden Loewen, Jesse Nathan, Magdalene Redekop, Hildi Froese Tiessen, and Paul Tiessen.

Who do you think you are? Part of identity is how people experience their gender. Transphobia is intolerance of any part of the range of gender identity. This accessible, illustrated book offers information, quizzes, comics and true-to-life scenarios to help kids better understand gender identity and determine what they can do to identify and counter transphobia in their schools, homes and communities. Considered from the viewpoint of gender explorers, gender enforcers and witnesses, transphobic behaviour is identified, examined and put into a context that kids can use to understand and accept themselves and others for

whatever gender they are -- even if that's no gender at all!

During his spare time, William Baker Nickerson investigated sites from New England to the Midwest and into the Canadian Prairies. In the course of exploration, he created an elegant and detailed record of discoveries and developed methods which later archaeologists recognized as being ahead of their time. By middle age, he was en route to becoming a professional contract archaeologist. However, after a very good start, during World War I archaeological commissions disappeared and failed to recover for many years afterward. Consequently, in spite of heroic efforts, Nickerson was unable to restore his scientific career and died in obscurity. His life story spans the transition of North American archaeology from museums and historical societies to universities, throwing light on a phase of history that is little known.

The *New Peoples* contains essays tracing the origins and expressions of identity among the metis people of mixed Indian and European ancestry.

[Hands-On Science and Technology for Ontario, Grade 3](#) University of Toronto Press

'One Health' refers to an interdisciplinary approach to solving complex problems at the interface of human and animal health and the wider ecosystem. It represents an integrated and collaborative approach and addresses diverse issues, such as the detection and management of emerging and re-emerging infectious and non-infectious diseases, food and water security, food hygiene, and global trade. Many complex problems that we currently face must consider anthropogenic factors as well as climate change, environmental impact, international collaboration, tourism, the human-animal bond, economics, plant health, and a myriad of other factors. This book discusses complex concepts in One Health, such as preparedness planning, national level governance, inter-agency co-operation, climate change, human activity in sensitive ecosystems, the global food trade and food safety, antimicrobial resistance, surveillance, and communication from policy level to practical application. The book uses real-world case studies from different geographical regions, ranging from Asia to the Arctic, different environments from the

jungle to the oceans, and different species including bees, fish, domestic and wild animals and humans. The cases are prepared by experts with a diverse range of experience and provide a unique and fascinating on-the-ground approach to One Health topics in practice. One Health Case Studies is an ideal resource for students and practitioners in veterinary medicine, human medicine, public health, agriculture, wildlife management, ecosystem health, and environmental management. \*\*\* "The book contains an outstanding compilation of examples of one health in action, and it may very well become the definitive textbook for learning and teaching the one-health concept. ...well referenced and has extensive graphics to help illustrate one-health concepts in action. It is an insightful, thought-provoking, and comprehensive piece of work that is well worth the price for any medical professional." --Journal of the American Veterinary Medical Association, Vol. 250, No. 12, June 2017 [Subject: Health Policy, Public Policy, Environmental Studies]

Postracial America? McGill-Queen's Press - MQUP

The Vikings descended upon Europe at the close of the 8th century, invading the continent's western seas and river systems, trading, raiding and spreading terror. In the north, they settled Iceland and Greenland and reached North America. In the east, Swedish Varangians established a river road to the Orient. With the collapse of the Viking commercial empire, Sweden and the other Scandinavian countries struggled to survive, their hardships exacerbated by internal strife, foreign domination and the Black Death. This book details the development of Scandinavia—Sweden in particular—from the end of the Ice Age, through a series of prehistoric cultures, the Bronze and Iron ages, to the Viking period and late Middle Ages. Recent research suggests a Swedish origin of the Goths, who helped dismember the Roman Empire, and evidence of Swedish participation in the western Viking expeditions. Special attention is given to Eastern Europe, where Sweden dominated commerce through the conquest of trade towns and the river systems of Russia.

 It is the end of the First World War, and thirteen-year-old Meredith yearns to become a teacher. But she must leave school to help support her family, moving to the city to work as a maid in a wealthy doctor's home. As the deadly Spanish Flu sweeps across the city, members of the household fall ill one by one. With the doctor working night and day at the hospital, only Meredith and the doctor's children, Maggie and Jack, are left to care for them. Every day the newspapers' lists of "Yesterday's Dead" add to Meredith's growing fears. When Jack becomes gravely ill, Meredith must stop fighting with Maggie so they can work together to save him. As Meredith wrestles with questions of duty and responsibility, she opens the door to a future that she thought had been closed forever.

**Deal with it and be a gender transcender** McFarland

In this stunning coming-of-age novel, award-winner Miriam Toews balances grief and hope in the voice of a witty, beleaguered teenager whose family is shattered by fundamentalist Christianity "Half of our family, the better-looking half, is missing," Nomi Nickel tells us at the beginning of *A Complicated Kindness*. Left alone with her sad, peculiar father, her days are spent piecing

together why her mother and sister have disappeared and contemplating her inevitable career at Happy Family Farms, a chicken slaughterhouse on the outskirts of East Village. Not the East Village in New York City where Nomi would prefer to live, but an oppressive town founded by Mennonites on the cold, flat plains of Manitoba, Canada. This darkly funny novel is the world according to the unforgettable Nomi, a bewildered and wry sixteen-year-old trapped in a town governed by fundamentalist religion and in the shattered remains of a family it destroyed. In Nomi's droll, refreshing voice, we're told the story of an eccentric, loving family that falls apart as each member lands on a collision course with the only community any of them have ever known. A work of fierce humor and tragedy by a writer who has taken the American market by storm, this searing, tender, comic testament to family love will break your heart.

*History of Soybeans and Soyfoods in Japan, and in Japanese Cookbooks and Restaurants outside Japan (701 CE to 2014)* Oxford University Press

For more than forty years, scholars of the history and sociology of sport and recreation have studied how, no matter the time or place, sport is always more than just a game. In *Playing for Change*, leading scholars in the field of sports studies consider that legacy and forge ahead into the discipline's future. Through essays grouped around the themes of international and North American sport, including the Vancouver and Sochi Olympic Games; access to physical activity in Canadian communities; and the role of activism and the public intellectual in the delivery of sport, the contributors offer a comprehensive examination of the institutional structures of sport, physical activity, and recreation. This book provides wide-ranging examples of cutting-edge research in a vibrant and growing field.

 Co-authored by an interprofessional collaborative team of

physicians and nurses, Merenstein & Gardner's Handbook of Neonatal Intensive Care, 9th Edition is the leading resource for interprofessional, collaborative care of critically ill newborns. It offers comprehensive coverage with a unique interprofessional collaborative approach and a real-world perspective that make it a practical guide for both nurses and physicians. The new ninth edition features a wealth of expanded content on delivery-room care; new evidence-based care "bundles"; palliative care in the NICU; interprofessional collaborative care of parents with depression, grief, and complicated grief; and new pain assessment tools. Updated high-quality references have also been reintegrated into the book, making it easier for clinicians to locate research evidence and standards of care with minimal effort. These additions, along with updates throughout, ensure that clinicians are equipped with the very latest clinical care guidelines and practice recommendations — all in a practical quick-reference format for easy retrieval and review. UNIQUE!

Core author team of two physicians and two nurses gives this internationally recognized reference a true interprofessional collaborative approach that is unmatched by any other resource. Consistent organization within clinical chapters include Physiology/Pathophysiology, Etiology, Prevention, Data Collection (History, Signs and Symptoms, and Laboratory Data), Treatment/Intervention, Complications, and Parent Teaching sections. UNIQUE! Color-highlighted point-of-care clinical content makes high-priority clinical content quick and easy to find. UNIQUE! Parent Teaching boxes outline the relevant information to be shared with a patient's caregivers. Critical Findings boxes outline symptoms and diagnostic findings that require immediate attention to help the provider prioritize assessment data and steps in initial care. Case studies demonstrate how to apply essential content to realistic clinical scenarios for application-based learning. NEW! Updated content throughout reflects the latest evidence-based practice, national and international

guidelines, and current protocols for interprofessional collaborative practice in the NICU. NEW! Up-to-date, high-quality references are now reintegrated into the text for quick retrieval, making it easier for clinicians to locate research evidence and standards of care with minimal effort. NEW! Expanded content on delivery-room care includes the impact of staffing on quality of care, delayed cord clamping, resuscitation, and more. NEW! Coverage of the new evidence-based care "bundles" keeps clinicians up to date on new guidelines that have demonstrated improved outcomes of very preterm infants. NEW! Coverage of new pain assessment tools equips NICU providers with essential resources for maintaining patient comfort. NEW! Expanded coverage of palliative care in the NICU provides the tools needed to ensure patient comfort. NEW! Expanded coverage of interprofessional collaborative care of parents with depression, grief, and complicated grief prepares clinicians for this essential area of practice.
