"Written by the three leading experts in the field, this book combines an introduction to the sources and methods of epidemiological criminology and an application of these methods to some of the most vexing problems now confronting researchers and practitioners in public health and criminology. The book describes, explains, and applies the newly formulated practice of epidemiological criminology, an emerging discipline that links methods and statistical models of public health, particularly epidemiological theory, methods, and models, with the corresponding tools of their criminal justice counterparts. The book also applies epidemiological criminology as a practical tool to address population issues of violence and crime on a national and global basis"--Provided by publisher.

The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to

attend the annual ASA pre-conference teaching and learning workshop. Our *Social World: Condensed* inspires students to develop their sociological imaginations, to see the world and personal events from a new perspective, and to confront sociological issues on a day-to-day basis. The award-winning author team organizes the text around the "Social World" model, a conceptual framework that demonstrates the relationships among individuals (the micro level); organizations, institutions, and subcultures (the meso level); and societies and global structures (the macro level). The use of the Social World Model across chapters (represented in a visual diagram in the chapter openers) helps students develop the practice of using three levels of analysis, and to view sociology as an integrated whole, rather than a set of discrete subjects. The Condensed version is adapted from *Our Social World: Introduction to Sociology*. The Sixth Edition of the Condensed version is made approximately 30% shorter than the full edition by removing selected boxes, editing the main narrative, and combining four chapters into two (Family/Education, and Politics/Economics).
