Candid Monsters Volume 4 BEHIND THE SCENES & INTERVIEWS from Your Favorite Monster MoviesHi, I'm a film director / writer / producer and publisher. I've published SPFX (Special Effects Magazine) since 1976. Over the past 45 years I've been collecting candid, behind the scenes photos from science-fiction, horror, fantasy and animation films. I have also interviewed many actors and filmmakers.In this volume (136 pages) you'll find over 250 candid photos from many of the classic science-fiction films including Forbidden Planet, Them!, This Island Earth, War of the Worlds, The Monster That Challenged the World, Creature From the Black Lagoon, The Man From Planet X and more! We also have Feature Articles on the making of Them!, This Island Earth and The Monster That Challenged the World.Plus interviews with Leslie Nielsen, Anne Francis, Joan Weldon, Jeff Morrow, Rex Reason, Al Nozaki, Arnold Laven, Pat Fielder, Arthur Gardner, Jules Levy, Ricou Browning and Robert Clarke.Monsters in the Movies Any on-screen schmuck can take down a wolfman with a silver bullet. It takes a certain kind of hero to hoist that wolfman overhead into an airplane spin, follow with a body slam, drop an atomic elbow across his mangy neck, leg-lock him until he howls, and pin his furry back to the mat for a three-count. It takes a Mexican masked wrestler. Add a few half-naked vampire women, Aztec mummies, mad scientists, evil midgets from space, and a goateed Frankenstein monster, and you have just some of the elements of Mexican masked wrestler and monster movies, certainly among the most bizarre, surreal and imaginative films ever produced. This filmography features some of the oddest cinematic showdowns ever concocted—Mexican

masked wrestlers battling monsters, evil geniuses and other ne'er-do-wells, be it in caves, cobwebbed castles or in the ring. From the 1950s to the 1970s, these movies were staples of Mexican cinema, combining action, horror, sex, science fiction and comedy into a bizarre amalgam aimed to please the whole family. Chapters examine the roots of the phenomenon, including the hugely popular masked wrestling scene and the classic Universal horror films from which Mexican filmmakers stole without compunction. Subsequent chapters focus on El Santo, Blue Demon, and Mil Mascaras, the three most prominent masked wrestlers; wrestling women; other less prominent masked wrestlers; and the insane mish-mash of monsters pitted against the heroes. Each chapter includes background information and a full filmography, and a wide assortment of striking illustrations—posters, lobby cards and other graphic material, some better than the movies they advertised—accompany the text.

Kaijumar Season 4 #3 Dorling Kindersley Ltd

Now over twenty years old, the original edition of Nightmare Movies has retained its place as a true classic of cult filmcriticism. In this new edition, Kim Newman brings his seminal work completely up to date, both reassessing his earlier evaluations and adding a second part that analyses the last two decades of horror films with all the wit, intelligence and insight for which he is known. Since the publication of the first edition, horror has been on a gradual upswing and has gained a new and stronger hold over the film industry. Newman negotiates his way through a vast back catalogue of horror and charts the on-screen progress of our collective fears and bogeymen, from the low-budget slasher movies of the 1960s, through to the slick releases of the 2000s. Nightmare Movies is an invaluable companion that not only provides a newly updated history of the darker side of film but also acts as a truly entertaining guide with which to explore the less well-trodden paths of horror and rediscover the classics with a newly instructed eye.

This is a critical overview of monster magazines from the 1950s through the 1970s. "Monster magazine" is a blanket term to describe both magazines that focus primarily on popular horror movies and magazines that contain stories featuring monsters, both of which are illustrated in comic book style and printed in black and white. The book describes the rise and fall of these magazines, examining the contributions of Marvel Comics and several other well-known companies, as well as evaluating the effect of the Comics Code Authority on both present and future efforts in the field. It identifies several sub-genres, including monster movies, zombies, vampires, sword-and-sorcery, and pulp-style fiction. The work includes several indexes and technical credits.

Candid Monsters Volume 7 Science Fiction Pt. 4 Dark Horse Comics

Monsters are a part of every society, and ours is no exception. They are deeply embedded in our history, our mythos, and our culture. However, treating them as simply a facet of children's stories or escapist entertainment belittles their importance. When examined closely, we see that monsters have always represented the things we fear: that which is different, which we can't understand, which is dangerous, which is Other. But in many ways, monsters also represent our growing awareness of ourselves and our changing place in a continually shrinking world. Contemporary portrayals of the monstrous often have less to do with what we fear in others than with what we fear about ourselves, what we fear we might be capable of. The nineteen essays in this volume explore the place and function of the monstrous in a variety of media – stories and novels like Baum's Oz books or Gibson's Neuromancer; television series and feature films like The Walking Dead or Edward Scissorhands; and myths and legends like Beowulf and The Loch Ness Monster – in order to provide a closer understanding of not just who we are and who we have been, but also who we believe we can be – for better or worse.

Bong Joon Ho won the Oscar® for Best Director for Parasite (2019), which also won Best Picture, the first foreign film to do so, and two other Academy Awards. Parasite was the first Korean film to win the Palme d'Or at Cannes. These achievements mark a new career peak for the director, who first achieved wide international acclaim with 2006's monster movie The Host and whose forays into English-language film with Snowpiercer (2013) and Okja (2017) brought him further recognition. As this timely book reveals, even as Bong Joon Ho has emerged as an internationally known director, his films still engage with distinctly Korean social and political contexts that may elude many Western viewers. The Films of Bong Joon Ho demonstrates how he hybridizes Hollywood conventions with local realities in order to create a cinema that foregrounds the absurd cultural anomie Koreans have experienced in tandem with their rapid economic development. Film critic and scholar Nam Lee explores how Bong subverts the structures of the genres he works within, from the crime thriller to the sci-fi film, in order to be truthful to Korean realities that often deny the reassurances of the happy Hollywood ending. With detailed readings of Bong's films from Barking Dogs Never Bite (2000) through Parasite (2019), the book will give readers a new appreciation of this world-class cinematic talent.

This history and critique of classic scary films "honors Universal's horror legacy. . . . an excellent resource for film students and monster movie fanatics" (Library Journal). In 1931 Universal Studios released Dracula starring Bela Lugosi. This box office success was followed by a string of films featuring macabre characters and chilling atmospherics, including Frankenstein, The Mummy, and The Invisible Man. With each new film, Universal established its place in the Hollywood firmament as the leading producer of horror films, a status it enjoyed for more than twenty years. In The Monster Movies of Universal Studios, James L. Neibaur examines the key films produced by the studio from the early 1930s through the mid-1950s. In each entry, Neibaur recounts the movie's production, provides critical commentary, considers the film's commercial reception, and offers an overall assessment of the movie's significance. Neibaur also examines the impact these films had on popular culture, an influence that resonates in the cinema of fear today. From the world premiere of Dracula to the 1956 release of The Creature Walks among Us, Universal excelled at scaring viewers of all ages—and even elicited a few chuckles along the way by pitting their iconic creatures against the comedic pair of Abbott and Costello. The Monster Movies of Universal Studios captures the thrills of these films, making this book a treat for fans of the golden age of horror cinema. "Studio stills and trade ads for several of the films add a suitably scary touch to this treat for fans and scholars alike. — Booklist "An impressive work of film scholarship." — Cinema Retro

The Films of Bong Joon Ho John Wiley & Sons

Monster in the Closet is a history of the horror film that explores the genre's relationship to the social and cultural history of homosexuality in America. Drawing on a wide variety of films and primary source materials including censorship files, critical reviews, promotional materials, fanzines, men's magazines, and popular news weeklies, the book examines the historical figure of the movie monster in relation to various medical, psychological, religious and social models of homosexuality. While recent work within gay and lesbian studies has explored how the genetic tropes of the horror film intersect with popular culture's understanding of queerness, this is the first book to examine how the concept of the monster queer has evolved from era to era. From the gay and lesbian sensibilities encoded into the form and content of the classical Hollywood horror film, to recent films which play upon AIDS-related fears. Monster in the Closet examines how the horror film started and continues, to demonize (or quite literally "monsterize") queer sexuality, and what the pleasures and "costs" of such representations might be both for individual spectators and culture at large.

Pulpy, smart, and scary, the stories in Creepy constituted some of the best shortform horror fiction ever told in comics. With legendary comics writer/editor Archie Goodwin both editing the magazine and crafting most of its storytelling, Creepy was at once a newsstand favorite with fright fans, and a vaunted showcase of fine comics art for serious fans of the art form. For decades, the only sources for these stories were the expensive collectible original issues. Now Dark Horse is collecting all of the original material from the history of Creepy magazine into a hardcover archive library
