 Betrayal in the City, first published in 1976 and 1977, was Kenya's national entry to the Second World Black and African Festival of Arts and Culture in Lagos, Nigeria. The play is an incisive, thought-provoking examination of the problems of independence and freedom in post-colonial African states, where a sizeable number of people feel that their future is either blank or bleak. In the words of Mosese, one of the characters: "It was better while we waited. Now we have nothing to look forward to. We have killed our past and are busy killing our future."--Page 4 of cover.

The Caucasian Chalk Circle CSIRO PUBLISHING
 In 1995, this novel won both the Jomo Kenyatta Literature Prize, and the Commonwealth Writers Prize Best First Book in the Africa Region. Now reprinted, it remains in great demand. An epic story spanning cultures, it tells the lives of three generations of women. It traces the story of Akoko in her rich traditional Luo setting, through to the children who live and die in the 20th century.

Philosophy In a Week: Teach Yourself Hachette UK
 This book describes and analyzes protracted conflicts in the Great Lakes Region of Africa. In doing so, it emphasizes obstacles to peace rather than root causes of conflict. Case studies are presented from Burundi, the Democratic Republic of the Congo,

Northern Kenya, Northern Uganda, Southern Sudan, and Zanzibar. Amongst other conclusions, the book shows that, to settle or transform protracted conflicts, distinction must be made between strategic and nonstrategic actors: the former must be able to prevail upon the latter in the negotiation and implementation of peace agreements. The theme and collection of the research presented in this book is unique in the literature. The case studies all employ methods of thick description, a process tracing (following particular actors and their interests), and in-depth personal interviews. The book will be of interest to academics, researchers, undergraduate and post-graduate students, and professionals in conflict theory, analysis and resolution, African and development studies, political science and international affairs, as well as to mediators, negotiators, and facilitators in conflict resolution

Brecht projects an ancient Chinese story onto a realistic setting in Soviet Georgia. In a theme that echoes the Judgment of Solomon, two women argue over the possession of a child. Thanks to the unruly judge, Azdak (one of Brecht's most vivid creations) natural justice is done and the peasant Grusha keeps the child she loves, even though she is not its mother. Written while Brecht was in exile in the United States during the Second World War, *The Caucasian Chalk Circle* is a politically charged, much-revived and complex example of Brecht's epic theatre. This new Student Edition contains introductory commentary and notes by Kristopher Imbriggota from the University of Puget Sound, US, offering a much-needed contemporary perspective on the play. The introduction covers: - narrative structure: play about a play within a play ("circle") - songs and music - justice and social systems - context: Brecht, exile, WWII, socialism - notions of collective and class - fable and story adaptation, folk fairy tale

 Leading Pauline-studies expert Thomas Schreiner provides an updated guide to the exegesis of the New Testament epistles traditionally assigned to Paul.  Adelaide Binchley is probably the only fortysomething housewife and junior college dropout ever to be nominated for the Nobel Prize in Physics, and she's certainly the only one whose career was launched by a bedpan. When Addie meets Physics professor Jakob Pankowicz, she discovers that having just one person see a greater potential in her, and believe in her even when she doesn't believe in herself, is all she needs to escape her self-imposed limits. In this hilarious and touching novel, as she navigates the rough territory created by her teenage-feminist daughter, borderline delinquent son, philandering husband, and the friends

in her embroidery circle, Addie finds when one person selflessly reaches out to another, that gesture has the power to change the world.

A growing interest in the oeuvre of Hans J. Morgenthau and in re-readings of 'classical realism' increases the significance of his European, pre-emigration writings in order to understand the work of one of the founding figures of IR. This book is the first English translation of Morgenthau's French monograph *La notion du politique* from 1933 (translated by Maeva Vidal).

Harlem is one of the most famous neighborhoods in the world—a historic symbol of both black cultural achievement and of the rigid boundaries separating the rich from the poor. But as this book shows us, Harlem is far more culturally and economically diverse than its caricature suggests: through extensive fieldwork and interviews, John L. Jackson reveals a variety of social networks and class stratifications, and explores how African Americans interpret and perform different class identities in their everyday behavior.
