This short story, told in the Gothic tradition represents Poe's first work to be printed, and represents the foundation of what would constitute much of his future work. The tale, set in Hungary, recounts the later years of an interminable feud between two noble houses, the Metzengersteins and the Berlifitzings. This third person narration follows the young orphaned

Baron of the Metzengersteins, Frederick, as he inherits his family's fortune and their feud. An ancient prophecy is all that remains of the origins of this feud, one that has seemingly come true when Frederick is suspected of the murder of the Berlifitzings patriarch. It is this prophecy that drags these two families to a conclusion teeming with tragedy, mystery, violence, madness and

the supernatural. For any fans of Poe, mystery or the supernatural it is a must read. Edgar Allan Poe (1809-1849) is a titan of literature. Most famous for his poetry, short stories, and tales of the supernatural and macabre, his body of work continues to resonate to this day. Poe is widely regarded as the inventor of the detective genre and a contributor to the emergence of

science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1945), "The Black Cat" (1943), and "The Gold-Bug" (1843). *Power Moms* John Wiley & Sons Dive into the ocean to learn about opposites in this bubbly book from Fhiona Galloway! The First Dirk & Steele Novel
Harper Collins
A classic horror story that follows the arrival of a fiendish figure in a small town, "The Devil in the Belfry" draws its potency from the amusing,

ironic, and extremely creative atmosphere. An ordered and perfect city is disturbed, while the author pays exquisite attention to the smallest of details, offering memorable descriptions and narrations. Presented with a dose of sarcasm and comedy, the story is actually a great read exactly because it is so different from the characteristic, supernatural

stories of Poe. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven"

(1945), "The Black Cat" (1943), and "The Gold-Bug" (1843).
