Who Is Bill Gates? Enlightened Publishing

Gates reveals the guiding genius behind the unparalleled success of the Microsoft Corporation-- the biggest and most profitable personal computer software company in history-- and exposes the intensely competitive tactics that help it dominate the desktops of America. Chairman and co-founder of Microsoft, Bill Gates is the most powerful person in the computer industry and the youngest self-made billionaire in history. His company's DOS and Windows programs are such universal standards that more than nine out of ten personal computers depend on Microsoft software. Under the "Microsoft Everywhere" rallying cry, Gates intends to expand his company's worldwide dominance to office equipment, communications, and home entertainment. Vivid and definitive, Gates details the behind the scenes history of the personal computer industry and its movers and shakers, from Apple to IBM, from Steve Jobs to Ross Perot. Uncovering the inside stories of the bitter battle for control of the expanding personal computing market, Gates is a bracing, comprehensive portrait of the industry, the company, and the man-- and what they mean for a future where software is everything.

Bill Gates is an American business magnate and founder of Microsoft Corporation. In 1975, Gates and Paul Allen launched Microsoft, which became the world's largest PC software company. Gates led the company as chief executive officer until stepping down in January 2000, but he remained as chairman and created the position of chief software architect for himself. In June 2006, Gates announced that he would be transitioning from full-

time work at Microsoft to part-time work and full-time work at the Bill & Melinda Gates Foundation, which was established in 2000. He gradually transferred his duties to Ray Ozzie and Craig Mundie. He stepped down as chairman of Microsoft in February 2014 and assumed a new post as technology adviser to support the newly appointed CEO Satya Nadella. Gates is one of the best-known entrepreneurs of the personal computer revolution. He has been criticized for his business tactics, which have been considered anti-competitive. This opinion has been upheld by numerous court rulings.
