How can a feeble faith in an almighty Christ move mountains? Part of Andrew Murray's classic Secret Series devotionals, *The Secret of the Faith* Life provides insight into the need, power, and blessedness of a wholehearted faith in Jesus and an unreserved surrender to Him, so that we can be prepared to receive Him in the fullness of His love and abiding presence.

The connection between faith, leadership and public life is a complex one as Preston Manning knows all too well from his years as a scout and trailblazer on Canada's political frontiers. Now, in his new book *Faith, Leadership and Public Life: Leadership Lessons from Moses to Jesus* he fearlessly tackles this subject by drawing upon his own years in Canada's parliament and political arena and upon relevant

lessons to be learned from the public lives of the founding giants of Judaism and the Christian faith. Starting with the public life of Jesus himself, he also draws upon the experience of those leaders whom Jesus most frequently referenced such as Moses and David, as well as examining the lives of leaders such as Joseph and Daniel who were called upon to exercise their faith in societies and political systems hostile to their beliefs. He challenges people of faith today to learn from their examples about how to conduct ourselves responsibly at the faith-political interface, while bringing what Jesus called "salt and light" to bear on the political issues and structures of our times. If you are a person of faith, currently active in politics or leadership, or contemplating involvement in either, the following pages will help you in meeting those challenges.

Sometimes the best lessons in life are simple and basic. In this new book, author Marlan Cannon discusses his upbringing and uses those remembrances to apply simple but effective truths that will touch and bless the hearts of believers and non-believers alike. To those who are struggling and are grappling with issues surrounding their family, faith, and life, this book, written in the basic prose of a friend to another friend, will administer encouragement and enlightenment. Completely discarding the notion of "silver spoons," Cannon shares lessons from his humble upbringings, attributes his current successes to them, and inspires and exhorts the reader through his life experiences. These recollections will cause the reader to decry the apparent demise of the nuclear family and to celebrate the impact that strong, healthy Christian families can have on society at large. This book is recommended for those who wish to understand

the impact that strong Christian families can have on the lives of their children. It is a clarion call to individuals and families to adopt these simple, profound, yet effective insights that will lead to victory in Christ and success in every area of their lives.

Based on Eisenhandler's qualitative research study of men and women, sixty years and older, this volume provides a sociological narrative of religious belief that has been sustained and sometimes changed over the course of life. Through extensive interviews, Eisenhandler explores older adults' personal engagement with religion, the role of socialization in retaining faith in late life, and the extent to which older adults participate in religious behavior and find religious beliefs relevant to their present life. Questions at the core of Eisenhandler's research include: Do older adults today f.

Two Philosophers Ask and Answer the Big Questions About the Search for Faith and Happiness For seekers of all stripes, philosophy is timeless self-care. Notre Dame philosophy professors Meghan Sullivan and Paul Blaschko have reinvigorated this tradition in their wildly popular and influential undergraduate course "God and the Good Life," in which they wrestle with the big questions about how to live and what

makes life meaningful. Now they invite us into the classroom to work through issues like what justifies our beliefs, whether we should practice a religion and what sacrifices we should make for others—as well as to investigate what figures such as Aristotle, Plato, Marcus Aurelius, Iris Murdoch, and W. E. B. Du Bois have to say about how to live well. Sullivan and Blaschko do the timeless work of philosophy using real-world case studies that explore love, finance, truth, and more. In so doing, they push us to escape our own caves, ask stronger questions, explain our deepest goals, and wrestle with suffering, the nature of death, and the existence of God. Philosophers know that our “good life plan” is one that we as individuals need to be constantly and actively writing to achieve some meaningful control and sense of purpose even if the world keeps throwing surprises our way. For at least the past 2,500 years, philosophers have taught that goal-seeking is an essential part of what it is to be human—and crucially that we could find our own good life by asking better questions of ourselves

and of one another. This virtue ethics approach resonates profoundly in our own moment. The Good Life Method is a winning guide to tackling the big questions of being human with the wisdom of the ages.

Is your "new member class" uninspiring? draining energy? Consider a different way of ministering to church newcomers. One that builds on the simple arts of friendship and conversation, instead of classes and presentations. One that invites transformation, rather than just imparting information. One that gives the whole congregation a role to play in the church's ministry of spiritual hospitality. Companions is an outreach ministry that pairs newcomers in worship with church member companions for eight weeks of conversation about Christian faith and discipleship. One-page conversation guides, grounded in Scripture and prayer, help focus the dialogue on core themes of the life of faith, like gratitude, forgiveness, and community.

Companions is designed to build friendships, invite honest sharing, encourage questions, meet newcomers wherever they are, and help them grow in their life with God--exercises that strengthen the faith of church members as well as the newcomers they befriend! If you're interested in outreach and church growth, in discipleship and spiritual nurture, in expanding the church's reach in a secular culture, in equipping believers to articulate their faith, in strengthening lay ministries, in keeping baptismal identity at the center of church life--this book will speak to you.

As profound as Martin Luther's ideas are, this giant of church history was concerned above all with practical instruction for daily Christian living. Harvesting Martin Luther's Reflections highlights this concern of Luther, mining his thought in key areas of doctrine, ethics, and church practice. Gathering noteworthy contributions by well-known Luther scholars from Europe and the Americas, this book ranges broadly over

theological questions about baptism and righteousness, ethical issues like poverty and greed, and pastoral concerns like worship and spirituality. There are even rare discussions of Luther's perspective on marriage and on Islam. As a result, *Harvesting Martin Luther's Reflections* is both a state-of-the-art discussion of Lutheran themes and an excellent introduction for newcomers to Luther's work.

Faith, Leadership and Public Life Self

The question of what makes life worth living is more vital now than ever. In today's pluralistic, postsecular world, universal values are dismissed as mere matters of private opinion, and the question of what constitutes flourishing life--for ourselves, our neighbors, and the planet as a whole--

-is neglected in our universities, our churches, and our culture at large. Although we increasingly have technology to do almost anything, we have little sense of what is truly worth accomplishing. In this provocative new contribution to public theology, world-renowned theologian Miroslav Volf (named "America's New Public Intellectual" by Scot McKnight on his *Jesus Creed* blog) and Matthew Croasmun explain that the intellectual tools needed to rescue us from our present malaise and meet our new cultural challenge are the tools of theology. A renewal of theology is crucial to help us articulate compelling visions of the good life, find our way through the maze of contested questions of value, and answer the fundamental question of what makes life worth living.

True Faith in the True God meets the deep need for a clear and concise introduction to the life and teachings of the great church reformer, Martin Luther. After a brief overview of his life, the book devotes chapters to Luther's thoughts on key topics, including the knowledge of God, church

and sacraments, the Scriptures, marriage and parenthood, and vocation. The author incorporates extensive quotations from Luthers own writings to show how Luthers insights have relevance for all Christians today.

Thomas V. Morris discusses life, death,

religion, the nature of faith and more. This captivating book is ideal both for thoughtful unbelievers who consider Christianity unreasonable, and Christians wanting to know how to share their faith with sceptics. Writing in an engaging, conversational style, Morris takes an intriguing new look at the big questions that keep coming up -- questions about life, death, God, religion, the nature of faith, the formation of an adequate worldview, and the meaning of life. Morris explores these kinds of questions in an earnest yet thoroughly entertaining and easily readable way, relating numerous personal anecdotes, incorporating intriguing material from the films of Woody Allen and the journals of Tolstoy, and using the writings of the seventeenth-century genius Blaise Pascal as a central guide.

"The Foundations of Social Order was, and remains, the most unique book ever written in the history of Christendom. Nothing like it has been written before, and nothing like it has been written since. Christian and non-Christian historians have generally agreed on at least one thing about creeds and history: they are not connected in any meaningful, comprehensive way. A few non-Christian historians-Harold Berman and his Law and Revolution being a good example-have mentioned that the Christian creeds have been instrumental in shaping the legal views and therefore the legal structure of the West. But a general study of how the creeds formed the West and its unique outlook has always been lacking; the reason being that both Christian and non-Christian authors are eager to constrain the significance of the creeds

to the church and the history of theology. Even Philip Schaff in his three-volume work, *The Creeds of Christendom*, confines their value and use to the church. The view of the creeds has been dualistic; creeds were separated from history, and history was left to follow its own course, independent from the development of Christian theology and the perfection of the faith of the saints.

For the Life of the World (Theology for the Life of the World) Brazos Press This book addresses religion and secularism as critical and contested elements of college student diversity. It both examines why and how this topic has become an integral aspect of the field of student affairs, and considers how scholars and practitioners should engage in the discussion, as well as the extent to which they should be involved in students' crises of faith, spiritual struggles, and questions of life purpose. Part history of the field, part prognostication for the future, the contributing

authors discuss how student affairs has reached this critical juncture in its relationship with religious and secular diversity and why this development is poised to create lasting change on college campuses. Section I of this book focuses on the research on spirituality, faith, religion, and life purpose; considers the evolution of faith development theories from not only Christian perspectives but Muslim, Jewish, atheist and other secular worldviews; examines the influence of faith frames in students' daily lives; and addresses the impact of campus climate for religion/spirituality, as well as the relationship between religious minority/majority status, on student outcomes. It concludes by tracing the pendulum swing from higher education's historical foundation in religion to the science-focused, religion-averse 20th century, and now to a fragile middle position, in which religious and secular diversity are being seriously considered and embraced. Section II

analyzes the role professional associations play in advancing the student affairs field's commitment to spirituality, faith and life purpose; the degree of support they offer to practitioners as they examine their own religious and secular identities, and envisages potential new programming, resources, and networks. Section III describes a number of programs and services developed by practitioners and faculty members working in this area on their campuses; synthesizes these developments for an examination of where best practices stand today; and imagines the future of institutionalizing higher education's support for students' explorations of spirituality, faith, religion, and life purpose. *Making Meaning* provides a comprehensive resource for student affairs scholars and practitioners seeking to understand these topics and apply them in their own research and daily work.
