This book is a compilation of articles, editorial, investigative reports, surveys, memoranda and other significant material on the Gujarat carnage. The final report of the Human Rights

Commission (that took a direct interest for the first time, of its own accord, in communal violence) is included in it. Useful material and information will be found in it by future researchers, academics and lay readers. As the specific event of the grim year are blurred and glossed over by other issues and by time, it is important to have such a compilation that preserves the lessons learnt in one of the most horrifying and ominous periods in India's modern history.
