"Brilliant and unflinching." —Peter Zheutlin, New York Times bestselling author of *Rescue Road* and *Rescued* When journalist Rory Kress met Izzie, she didn't think twice about bringing her home. She found the twelve-week-old wheaten terrier in a pet shop and was handed paperwork showing Izzie had been born in a USDA-licensed breeding facility—so she couldn't be a puppy mill dog, right? But a few years later, as Rory embarked on her own difficult journey to become a mother, her curiosity began to tug at her. Sure, Izzie was her fur baby, but who was her dog's real mother, and where was she now? And where did Izzie pick up her strange personality quirks? Like so many people, Rory had assumed the young puppy was a clean slate when she bought her. Those questions led Rory—with Izzie by her side—on a nationwide investigation, the first of its kind. From a dog livestock auction to the laboratory of one of the world's leading animal behavioral scientists all the way up to the highest

echelons of the USDA, they sought answers about who we're trusting to be the watchdogs for our pet dogs. *The Doggie in the Window* is a story of hope and redemption. It upends the notion that purchased dogs are a safer bet than rescues, examines how internet puppy sales allow customers to get even farther from the truth of dog breeding, and offers fresh insights into one of the oldest bonds known to humanity. With Izzie's help, we learn the real story behind the dog in the window—and how she got there in the first place. "Seldom have I been as moved and as educated by a book about dogs."

The Doggie in the Window Anselm Academic

What Jesus as his teachings mean to contemporary Buddhists, Hindus, Muslims, Jews, and Christians in the context of their traditions and in their personal faith experiences.

Anthology of World Scriptures Cram101 Spanning many different epochs and varieties of religious experience, this book develops a new approach to religion and its role in human history. The authors look across a range of religious phenomena—from ancestor worship to totemism, shamanism, and worldwide modern religions—to offer a new explanation of the evolutionary success of religious behaviors. Their book is more empirical and verifiable than most previous books on evolution and religion because they develop an approach that removes guesswork about beliefs in the supernatural, focusing instead on the behaviors of individuals. The result is a pioneering look at how and why natural selection has favored religious behaviors throughout history.

Studyguide for Experiencing the World's Religions by Michael Molloy, ISBN 9780078038273 Experiencing the World's Religions Tradition, Challenge, and Change "Religions speak in symbols-fire, cloud, hills and high places, darkness and light, incense, candles, colors. Religions, though, perhaps love water best. Buddhists use water for blessing. Hindus purify themselves in rivers. Christians undergo baptism in water as a rite of initiation. Followers of Islam and Shinto cleanse themselves with water before prayer. Water means change, purification, and new beginnings. Because water can signify so much to us, it is the major symbol of this book. By studying many religions, we also hope to be cleansed and brought to new life. This book was written for my students. Keeping their needs in mind, I have tried to provide what is essential and to present it in clear language. I want to talk about doctrine and practice. Yet I also hope to show some of those things that have captivated me: religious music, art, and architecture. I want to show my respect for all religious traditions, both in a scholarly and an approachable way. Finally, I hope to invite

students not only to read about religions, but also to experience them firsthand. It is like the difference between reading maps of a country and then actually traveling on its roads and seeing its sights. Experience brings the prize"--Experiencing the World's Religions
An important and timely recipe for hope for humans and all forms of life Palila v Hawaii. New Zealand's Te Urewera Act. Sierra Club v Disney. These legal phrases hardly sound like the makings of a revolution, but beyond the headlines portending environmental catastrophes, a movement of immense import has been building in courtrooms, legislatures, and communities across the globe. Cultures and laws are transforming to provide a powerful new approach to protecting the planet and the species with whom we share it. Lawyers from California to New York are fighting to gain legal rights for chimpanzees and killer whales, and lawmakers are ending the era of keeping these intelligent animals in captivity. In Hawaii and India, judges have recognized that endangered species from birds to lions have the legal right to exist. Around the world, more and more laws are

being passed recognizing that ecosystems have legally enforceable rights. And if nature has rights, then humans have responsibilities. In The Rights of Nature, noted environmental lawyer David Boyd tells this remarkable story, which is, at its heart, one of humans as a species finally growing up. Read this book and your world view will be altered forever.

Worldview as a Concept McGraw-Hill Today, Fleet Street is just a term for the newspaper business. But not so long ago it was a real place. Each paper had its own favourite pubs, its own extraordinary characters, and its own stock of legendary tales about the triumphs and disasters that had befallen friends and enemies. It was the Street of Dreams; the Street of Adventure; the Street of Disillusion and, in the end, sadly, the Street of Profits. But

once upon a time it was a place of magic. Mike Molloy began in Fleet Street as a messenger boy on the Sunday Pictorial, and subsequently worked as a cartoonist, page designer, feature writer, and features executive. Eventually he was appointed the thirteenth and youngest editor of the Daily Mirror, a post he held for ten years. To his surprise, as he had opposed the take-over, when Robert Maxwell bought the Mirror, Maxwell made him editor-in-chief of the group. This is Molloy's spellbinding, and often hilarious, account of his years working with some of the giants, and pygmies, who produced the nation's daily papers. Along the way he tells of his encounters with politicians, prime ministers, rock stars, American presidents, trade union leaders, members of the royal family, and some of the legendary figures of show business. In the final sector of the book he charts his astonishingly surreal five years with Robert Maxwell, whose chaotic reign brought new heights of blundering absurdity to the role of the tyrannical 'press lord'.

Jesus in the World's Faiths Cram101 The Idea of the Holy is one of the enduring

classics of 20th-century German theology. The Lutheran theologian Rudolf Otto coined the term "numinous" and defined it as a "non-rational, non-sensory experience or feeling whose primary and immediate object is outside the self." Otto's work had a massive influence on thinkers as diverse as Paul Tillich and C.S. Lewis. The book contains the following chapters: I. The Rational and the Non-rational II. 'Numen' and the 'Numinous' III. The Elements in the 'Numinous' IV. Mysterium Tremendum V. The Analysis of 'Mysterium' VI. The Element of Fascination VII. Analogies and Associated Feelings VIII. The Holy as a Category of Value IX. Means of Expression of the Numinous X. The Numinous in the Old Testament XI. The Numinous in the New Testament XII. The Numinous in Luther XIII. The Two Processes of Development XIV. The Holy as an A Priori Category XV. Its Earliest Manifestations XVI. The 'Cruder' Phases XVII. The Holy as an A Priori Category XVIII. The Manifestations of the 'Holy' and the Faculty of 'Divination' XIX. Divination in Primitive Christianity XX. Divination in Christianity Today XXI.
