 Towards Humanitarian and Peaceful World  
 is a book which tells about the importance  
 of effective communication; education: for  
 women's empowerment, education for all,  
 ICT, poems and literature; special  
 education: it's needs, awareness about  
 human rights and duties, students  
 responsibility towards society; and how  
 their amalgamation can bring revolution  
 and thus help in building a better and  
 peaceful world. It is a necessity in the  
 present scenario to inculcate values and  
 make the coming generation aware about  
 the advantages of education and how it

can help in making this world a better  
 place to live in. This is especially true for  
 children as they are the future of the  
 country, and the development of the  
 nation depends upon them. Teachers help  
 in nation building through their efforts and  
 innovative ideas, and they can make a  
 better tomorrow. A humanitarian world,  
 which is the dream of every citizen, can be  
 realized through this book as it would  
 really help readers know how far we have  
 come in bridging the gap between the old  
 traditional societies to the new modern

The desire to create this book began in 1985 when the words "Help My People" were whispered in the author's ear. That began a thirty-five-year journey to determine what was meant by that phrase. It happened once more about ten years later. In the meantime, the author and his wife, as well as others, proceeded to create a consulting firm that helped client organizations do a better job to create the kind of organization culture the frontline workers mostly said they wanted. The consulting business prospered, and the author thought for sure he was the one that the whisper was meant to help change in his dealings with his clients. That all changed! The word "my" shifted to the center of the RGBProZone—a productivity zone comprised of groups that surround an individual capable of influencing others in a positive way because they think differently, thus filling

voids. The meaning shifted from the one who had whispered in the author's ear that day in 1985, to everyone having influence over others, backed by authority or reciprocal trust in the direction they were headed. The "my" pertained to the husband and the wife, the parent and children, managers, workers, neighbors, and those with authority and those without. This book traces the step-by-step process used to begin where you are and never end. It is the over thirty-five-year history of the author and his family, friends, associates, and clients. It begins anew with a new whisper that inspires. Most importantly, it contains a process that shifts the responsibility for change from the driver to include the driven. From organization leadership to those who work together for mutual success. Included is a ten-stage one- to three-year time line to help create a new reality.
