## HERRERA BARRON

the novel that inspired the chilling BBC series *University of Michigan Press*

In 1845, British explorer Sir John Franklin set out on a voyage to find the North-West Passage – the sea route linking the Atlantic Ocean to the Pacific. The expedition was expected to complete its mission within three years and return home in triumph but the two ships, HMS Erebus and HMS Terror, and the 129 men aboard them disappeared in the Arctic. The last Europeans to see them alive were the crews of two whaling ships in Baffin Bay in July 1845, just before they entered the labyrinth of the Arctic Archipelago. The loss of this British hero and his crew, and the many rescue expeditions and searches that followed, captured the public imagination, but the mystery surrounding the expedition's fate only deepened as more clues were found. How did Franklin's final expedition end in tragedy? What happened to the crew? The thrilling discoveries in the Arctic of the wrecks of Erebus in 2014 and Terror in 2016 have brought the events of 170 years ago into sharp focus and excited new interest in the Franklin expedition. This richly illustrated book is an essential guide to this story of heroism, endurance, tragedy and dark desperation.

**Silent Hill** Mulholland Books

The "masterfully chilling" novel that inspired the hit AMC series (*Entertainment Weekly*). The men on board the HMS Terror — part of the 1845 Franklin Expedition, the first steam-powered vessels ever to search for the legendary Northwest Passage — are entering a second summer in the Arctic Circle without a thaw, stranded in a nightmarish landscape of encroaching ice and darkness. Endlessly cold, they struggle to survive with poisonous rations, a dwindling coal supply, and ships buckling in the grip of crushing ice. But their real enemy is even more terrifying. There is something out there in the frigid darkness: an unseen predator stalking their ship, a monstrous terror clawing to get in. "The best and most unusual historical novel I have read in years."

—Katherine A. Powers, *Boston Globe*

*The Terror Years* University of Wales Press

Since the terrorist attacks of September 11, 2001, Detroit's large and nationally prominent Arab and Muslim communities have faced heightened prejudice, government surveillance, and political scapegoating, yet they have also enjoyed unexpected gains in economic, political, and cultural influence. Museums, festivals, and cultural events flourish alongside the construction of new mosques and churches, and more Arabs are being elected and appointed to public office. Detroit's Arab population is growing even as the city's non-Arab sectors, and the state of Michigan as a whole, have steadily lost population. In *Arab Detroit 9/11: Life in the Terror Decade*, a follow-up to their volume *Arab Detroit: From Margin to Mainstream* (Wayne State University Press, 2000), editors Nabeel Abraham, Sally Howell, and Andrew Shryock present accounts of how life in post-9/11 Detroit has changed over the last ten years. Abraham, Howell, and Shryock have assembled a diverse group of contributors whose essays range from the scholarly to the artistic and include voices that are Palestinian, Iraqi, Yemeni, and Lebanese; Muslim and Christian; American born and immigrant. The book is divided into six sections and begins with wide-angle views of Arab Detroit, looking first at how the community fits within greater Detroit as a whole, then presenting closer portraits of Arab Detroit's key ethnonational and religious subgroups. More personal, everyday accounts of life in the Terror Decade follow as focus shifts to practical matters such as family life, neighborhood interactions, going to school, traveling domestically, and visiting home countries. Finally, contributors consider the interface between Arab Detroit and the larger society, how this relationship is maintained, how the War on Terror has distorted it, and what lessons might be drawn about citizenship, inclusion, and exclusion by situating Arab Detroit in broader and deeper historical contexts. In Detroit, new realities of political marginalization and empowerment are evolving side by side. As they explore the complex demands of life in the Terror Decade, the contributors to this volume create vivid portraits of a community that has fought back successfully against attempts to deny its national identity

and diminish its civil rights. Readers interested in Arab studies, Detroit culture and history, transnational politics, and the changing dynamics of race and ethnicity in America will enjoy the personal reflection and analytical insight of *Arab Detroit 9/11*.

Driven by a passion for travel and history and a love of ships and the sea, former Monty Python stalwart and beloved television globe-trotter Michael Palin explores the world of HMS Erebus, last seen on an ill-fated voyage to chart the Northwest Passage. Michael Palin brings the fascinating story of the Erebus and its occupants to life, from its construction as a bomb vessel in 1826 through the flagship years of James Clark Ross's Antarctic expedition and finally to Sir John Franklin's quest for the holy grail of navigation—a route through the Northwest Passage, where the ship disappeared into the depths of the sea for more than 150 years. It was rediscovered under the arctic waters in 2014. Palin travels across the world—from Tasmania to the Falkland Islands and the Canadian Arctic—to offer a firsthand account of the terrain and conditions that would have confronted the Erebus and her doomed final crew. Delving into the research, he describes the intertwined careers of the two men who shared the ship's journeys: Ross, the organizational genius who mapped much of the Antarctic coastline and oversaw some of the earliest scientific experiments to be conducted there; and Franklin, who, at the age of sixty and after a checkered career, commanded the ship on its last disastrous venture. Expertly researched and illustrated with maps, photographs, paintings, and engravings, *Erebus* is an evocative account of two journeys: one successful and forgotten, the other tragic yet unforgettable.

**The Terror of Living** Harper Collins

Several "pieces first published in *The New Yorker* recall the path terror in the Middle East has taken from the rise of al-Qaeda in the 1990s to the recent beheadings of reporters and aid workers by ISIS ... They include an ... impression of Saudi Arabia, a kingdom of silence under the control of the religious police; the Syrian film industry, then compliant at the edges but already exuding a feeling of the barely masked fury that erupted into civil war; [and] the 2006-11 Israeli-Palestinian conflict in Gaza, a study

in disparate values of human lives. Others continue to look into al-Qaeda as it forms a master plan for its future, experiences a rebellion from within the organization, and spins off a growing web of terror in the world"--

The Science of Breaking Bad Good Press

"Intriguing [and] enjoyable." —Ian McGuire, New York Times Book Review *Ice Ghosts* weaves together the epic story of the lost Franklin Expedition of 1845—whose two ships, HMS Erebus and HMS Terror, and their crew of 129 were lost to the Arctic ice—with the modern tale of the scientists, divers, and local Inuit behind the recent incredible discoveries of the wrecks. Paul Watson, a Pulitzer Prize-winning journalist who was on the icebreaker that led one of the discovery expeditions, tells a fast-paced historical adventure story and reveals how a combination of faith in Inuit knowledge and the latest science yielded a discovery for the ages.

"A fast-paced, gripping story set in a world of gruesome violence and perversity, where 'why?' is not a question and murder happens on a whim: but where a very faint ray of grace and hope lights up the landscape of salt and blood and ice. A tour de force of narrative tension and a masterful reconstruction of a lost world that seems to exist at the limits of the human imagination." -- Hilary Mantel "This is a novel that takes us to the limits of flesh and blood. Utterly convincing and compelling, remorselessly vivid, and insidiously witty, *The North Water* is a startling achievement." --Martin Amis A nineteenth-century whaling ship sets sail for the Arctic with a killer aboard in this dark, sharp, and highly original

tale that grips like a thriller. Behold the man: stinking, drunk, and brutal. Henry Drax is a harpooner on the *Volunteer*, a Yorkshire whaler bound for the rich hunting waters of the arctic circle. Also aboard for the first time is Patrick Sumner, an ex-army surgeon with a shattered reputation, no money, and no better option than to sail as the ship's medic on this violent, filthy, and ill-fated voyage. In India, during the Siege of Delhi, Sumner thought he had experienced the depths to which man can stoop. He had hoped to find temporary respite on the *Volunteer*, but rest proves impossible with Drax on board. The discovery of something evil in the hold rouses Sumner to action. And as the confrontation between the two men plays out amid the freezing darkness of an arctic winter, the fateful question arises: who will survive until spring? With savage, unstoppable momentum and the blackest wit, Ian McGuire's *The North Water* weaves a superlative story of humanity under the most extreme conditions.

Renowned producer, director, and "B movie" showman Charles Band takes readers on a wild romp through Hollywood's decidedly un-Oscar-worthy underbelly, where mayhem and zombies reign supreme, and cheap thrills and entertainment are king "This book is a blast. It made me want to stay up all night and watch terrible movies." —Peter Sagal "One of the most entertaining film bios ever." —Larry Karaszewski "Reads like a Tarantino film written by Hunter S. Thompson." —Booklist *Zombies*, aliens, a little skin, lots of gore—and even more laughs—the cinematic universe of Charles Band is legendary. From the toilet-invading creatures of

*Ghoulies* to the time-travelling bounty hunter in *Trancers* to the pandemic-crashed *Corona Zombies*, Band has spent four decades giving B-movie lovers exactly what they love. In *Confessions of a Puppetmaster*, this congenial master of Grindhouse cinema tells his own story, uncut. Born into a family of artists, Band spent much of his childhood in Rome where his father worked in the film industry. Early visits to movie sets sealed young Charlie's fate. By his twenties he had plunged into moviemaking himself and found his calling in exploitation movies—quick, low-budget efforts that exploit the zeitgeist and feed people's desire for clever, low-brow entertainment. His films crossed genres, from vampire flicks to sci fi to erotic musical adaptations of fairy tales. As he came into his own as a director, he was the first to give starring roles to household names like Demi Moore, Helen Hunt, and Bill Maher. Off set, Band's life has been equally epic. Returning to his beloved Italy, he bought both Dino De Laurentiis's movie studio and a medieval castle. After Romania's oppressive communist regime fell, he circumvented the U.S. State Department to shoot films in Dracula's homeland. He made—and then lost—a moviemaking fortune. A visionary, Band was also at the vanguard of the transition to home video and streaming, making and distributing direct-to-video movies long before the major studios caught on. In this revealing tell-all, Band details the dizzying heights and catastrophic depths of his four decades in showbiz. A candid and engaging glimpse at Hollywood's wild side, *Confessions of a Puppetmaster* is as entertaining as the movies that made this consummate schlockmeister famous.

*The Afterlives of the Terror* MIT Press

This book explores the ways in which television has engaged directly and indirectly with the new realities of the post-9/11 world. It offers detailed analysis of a number of key programmes and series that engage with, or are haunted by, the aftermath of the events of September 11 in the USA and what is unavoidably through problematically and contentiously referred to as the resulting 'war on terror'. The substantive part of the book is a series of independent chapters, each written on a different topic and considering different programmes. It includes series and single dramas representing the invasion of Iraq (*The Mark of Cain*, *Occupation and Generation Kill*), comedic representations (Gary, Tank Commander), documentary (the BBC Panorama's coverage of 9/11), 'what if' docudramas (*Dirty War*), 9/11 in popular series (*CSI:NY*) and representations of Tony Blair in drama and docudrama. The book concludes with an extended reflection on contemporary docudrama and an interview with filmmaker and docudramatist Peter Kosminsky.

Scottish doctor and explorer John Rae is a controversial figure in the history of the Arctic. He began his career with the Hudson's Bay Company as a surgeon in Moose Factory, Ontario, where he learned to survey, live off the land, and travel great distances on snowshoes. These skills served him well when, in 1846, he was charged with completing the geography of the northern shore of

North America and set out on his first expedition. Some years later, while exploring the Boothia Peninsula in 1854, Rae obtained information about the rather shocking fate of the Franklin expedition, which had been missing since 1845. Upon his return to England, however, Rae was discredited by Charles Dickens and shunned by the British establishment, never receiving proper recognition for his roles in finding the Northwest Passage and discovering the fate of Franklin and his crew. The Arctic Journals

of John Rae is the definitive collection of John Rae's writings, from his only published work, Narrative of an Expedition to the Shores of the Arctic Sea in 1846 and 1847, to obscure notes and journals and reports of his controversial findings in 1854. An accomplished explorer who had great respect for the customs and skills of the peoples native to the Arctic, John Rae is a fascinating figure and an important part of the history of the North.
