The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

When it was over, there were a lot of questions. The detectives were embarrassed but they still wanted answered, "How did a 15-year-old runaway successfully pose as a world traveled countess?" The newspapers turned it back on them, practically sneering, "How did she do it while under investigation by the FBI, DEA, and Interpol?" The Mafia had been demanding the same thing for six months, "What is your real name?" And the psychologists asked the question they always ask, "Why?" It's the why of it that will keep a girl in trouble. Assuming Names is the true story of a young con artist. It's the tale of a runaway that assumed the title of countess and then went on to fool the FBI, DEA, and Interpol-as well as a number of other celebrities and institutions-with an elaborate tale of world intrigue.

A Cold War bunker now used as a day trip destination for tourists ...A twin who died in mysterious circumstances ...A family lured to a special place at a particular time ...And then the darkness falls. Separated from his family as the entire planet becomes surrounded by a deathly blackness, Dan Tracy must figure out what's going on below ground. The bunker is at the centre of a conspiracy to destroy the Earth - but there's something special about Dan and his twin that could stop the terrorists dead in their tracks. It's a race against time as the process of destruction has already begun ...Who will be left to hear Earth's final screams? The Secret Bunker: Darkness Falls is the first in a trilogy of books by author Paul Teague.

WHAT IF WE COULD LIVE FOREVER? When her discovery makes headlines around the world, Dr. Yoonie Brandt becomes an instant celebrity. But her study is soon attacked and ferociously discredited. The headlines vanish overnight. So, too, does the young geneticist. Three years later, wealthy businessman Joe Kettleman is on the run from a wife who wants him dead, detectives who want him for a double homicide, and a tumor that wants him for an early grave. Badly wounded and out of options, he slips away to a remote cabin in New Mexico. When supplies dwindle, Joe is forced to take a perilous journey through the deserts of the Bisti Badlands. Two days into what was

supposed to be a five day trek, he comes across a town. A small city, really. Right in the middle of nowhere. And it's not on any map. That's when Joe's fate collides with that of a beautiful young woman, desperate to escape the strange city and making wild claims about a genetically-enhanced pandemic that will soon wipe out most of humanity. Clearly she's delusional. But why does her name—Dr. Yoonie Brant—sound so familiar? “...another phenomenal book from Mitty Walters. An absolute gripping novel!” ~ The Inside Flap (Episode #44) “A clever, rousing novel...” ~ Kirkus Reviews
