This is the 2nd edition of my previous book, "Self-Assessment for MRCP part II; 135 Best of Many Questions with Photographic Materials for MRCP(UK) and MRCP(I) Part II Written Exams", which was published in 2009. This book is a rapid self-assessment tool.

There are many clues and tricks on how to analyze and answer certain questions. Each chapter does not contain more than 15 questions; it's like a mock paper/exam. I have included many data interpretations and photographic materials. Each question has an objective. Try to target that objective. In writing this book, I tried my best to include the commonest examination themes that have been encountered recently. Good luck!
