\section{Background}
There are some researches covering the topic of this research. In

what follows, there are some discussion and literature reviews about them. \ First article is titled “properties of SuperHyperGraph and neutrosophic SuperHyperGraph” in \textbf{Ref.} \cite{HG1} by Henry Garrett (2022). It’s first step toward the research on neutrosophic SuperHyperGraphs. This research article is published on the journal “Neutrosophic Sets and Systems” in issue 49 and the pages 531-561. In this research article, different types of notions like dominating, resolving, coloring, Eulerian(Hamiltonian) neutrosophic path, n-Eulerian(Hamiltonian) neutrosophic path, zero forcing number, zero forcing neutrosophic-number, independent neutrosophic-number, clique number, clique neutrosophic-number, matching number, matching neutrosophic-number, girth, neutrosophic girth, 1-zero-forcing number, 1-zero-forcing neutrosophic-number, failed 1-zero-forcing number, failed 1-zero-forcing neutrosophic-number, global-offensive alliance, t-offensive alliance, t-defensive alliance, t-powerful

alliance, and global-powerful alliance are defined in SuperHyperGraph and neutrosophic SuperHyperGraph. Some Classes of SuperHyperGraph and Neutrosophic SuperHyperGraph are cases of research. Some results are applied in family of SuperHyperGraph and neutrosophic SuperHyperGraph. Thus this research article has concentrated on the vast notions and introducing the majority of notions. \\ The seminal paper and groundbreaking article is titled ``neutrosophic co-degree and neutrosophic degree alongside chromatic numbers in the setting of some classes related to neutrosophic hypergraphs" in $\text{\textbf{Ref.}} \text{\cite{HG2}}$ by Henry Garrett (2022). In this research article, a novel approach is implemented on SuperHyperGraph and neutrosophic SuperHyperGraph based on general forms without using neutrosophic classes of neutrosophic SuperHyperGraph. It's published in prestigious and fancy journal is entitled "Journal of Current Trends in Computer Science

Research (JCTCSR)" with abbreviation ``J Curr Trends Comp Sci Res" in volume 1 and issue 1 with pages 06-14. The research article studies deeply with choosing neutrosophic hypergraphs instead of neutrosophic SuperHyperGraph. It's the breakthrough toward independent results based on initial background. \\ The seminal paper and groundbreaking article is titled ``Super Hyper Dominating and Super Hyper Resolving on Neutrosophic Super Hyper Graphs and Their Directions in Game Theory and Neutrosophic Super Hyper Classes" in $\text{\textbf{Ref.}} \text{\cite{HG3}}$ by Henry Garrett (2022). In this research article, a novel approach is implemented on SuperHyperGraph and neutrosophic SuperHyperGraph based on fundamental SuperHyperNumber and using neutrosophic SuperHyperClasses of neutrosophic SuperHyperGraph. It's published in prestigious and fancy journal is entitled "Journal of Mathematical Techniques and Computational Mathematics(JMTCM)" with abbreviation ``J Math Techniques Comput Math" in volume 1 and issue 3

with pages 242-263. The research article studies deeply with choosing directly neutrosophic SuperHyperGraph and SuperHyperGraph. It's the breakthrough toward independent results based on initial background and fundamental SuperHyperNumbers. \\ In some articles are titled ``0039 | Closing Numbers and Super-Closing Numbers as (Dual)Resolving and (Dual)Coloring alongside (Dual)Dominating in (Neutrosophic)n-SuperHyperGraph" in $\text{\textbf{Ref.}} \text{\cite{HG4}}$ by Henry Garrett (2022), ``0049 | (Failed)1-Zero-Forcing Number in Neutrosophic Graphs" in $\text{\textbf{Ref.}} \text{\cite{HG5}}$ by Henry Garrett (2022), ``Extreme SuperHyperClique as the Firm Scheme of Confrontation under Cancer's Recognition as the Model in The Setting of (Neutrosophic) SuperHyperGraphs" in $\text{\textbf{Ref.}} \text{\cite{HG6}}$ by Henry Garrett (2022), ``Uncertainty On The Act And Effect Of Cancer Alongside The Foggy Positions Of Cells Toward Neutrosophic Failed SuperHyperClique inside Neutrosophic SuperHyperGraphs Titled Cancer's Recognition" in

The role played by concepts of the "Self" in the learning of languages has recently received increasing attention in academic studies. In the same way that fingerprints represent each person's uniqueness, the self here is related to the uniqueness of

learners, the way they receive and transmit their identity in the teaching and learning process. It is this uniqueness that brings dynamism, challenge and inspiration to learning and teaching. By focusing on language learners' self-concept, this book foregrounds the role of the learner in the process of language learning. It presents a number of empirical studies that bring into focus various aspects of the self, and will, as such, be of interest to EFL teachers, researchers and the general reader interested in the self and its effects on learners' approaches, motivation and interest in foreign language learning.

Dear Kesley, My therapist tells me I should write you a letter. Like flushing all my thoughts and feelings out of my system and onto paper. I tell her it's a stupid idea. But here I am, writing a letter to a dead girl. Where do I start? Where did our story begin? From the moment you were born...or died? I'll start with the moment I found out the truth about you. Your lies and my pain. Because it always begins and ends with you.

And that end began when Rafe Lawrence came back to town... Ava Hale will do anything to find her sister's killer...although she'll wish she hadn't. Because the harder Ava looks, the more secrets she uncovers about Kesley, and the more she begins to think that the girl she called sister was a liar. A sneak. A stranger. And Kesley's murderer could be much closer than she thought... A debut novel from Wattpad

award-winner Kara Terzis, *Frayed* is a psychological whodunit that will keep you guessing!

The field of Sound Studies has changed and developed dramatically over the last two decades involving a vast and dizzying array of work produced by those working in the arts, social sciences and sciences. The study of sound is inherently interdisciplinary and is undertaken both by those who specialize in sound and by others who wish to include sound as an intrinsic and indispensable element in their research. This is the first resource to provide a wide ranging, cross-cultural and interdisciplinary investigation and analysis of the ways in which researchers use a broad range of methodologies in order to pursue their sonic investigations. It brings together 49 specially

commissioned chapters that ask a wide range of questions including; how can sound be used in current academic disciplines? Is sound as a methodological tool indispensable for Sound Studies and what can sound artists contribute to the discourse on methodology in Sound Studies? The editors also present 3 original chapters that work as provocative 'sonic methodological interventions' prefacing the 3 sections of the book.

In the spirit of modern-day classics like *Fish in a Tree* and *Counting by 7s* comes the Schneider Family Book Award-winning story of a deaf girl's connection to a whale whose song can't be heard by his species, and the journey she takes to help him. From fixing the class computer to repairing old radios, twelve-year-old Iris is a tech genius. But she's the

only deaf person in her school, so people often treat her like she's not very smart. If you've ever felt like no one was listening to you, then you know how hard that can be. When she learns about Blue 55, a real whale who is unable to speak to other whales, Iris understands how he must feel. Then she has an idea: she should invent a way to "sing" to him! But he's three thousand miles away. How will she play her song for him? Full of heart and poignancy, this affecting story by sign language interpreter Lynne Kelly shows how a little determination can make big waves.

Unlike other dry business books, this refreshing, straightforward guide from Logo Design Love author and international designer David Airey answers the questions all designers have when first starting out on their own. In fact, the book was inspired by the many questions David receives every day from the more than 600,000 designers

who visit his three blogs (Logo Design Love, Identity Designed, and DavidAirey.com) each month. How do I find new clients? How much should I charge for my design work? When should I say no to a client? How do I handle difficult clients? What should I be sure to include in my contracts? David's readers—a passionate and vocal group—regularly ask him these questions and many more on how to launch and run their own design careers. With this book, David finally answers their pressing questions with anecdotes, case studies, and sound advice garnered from his own experience as well as those of such well-known designers as Ivan Chermayeff, Jerry Kuyper, Maggie Macnab, Eric Karjaluoto, and Von Glitschka. Designers just starting out on their own will find this book invaluable in succeeding in today's hyper-networked, global economy.

For many outside of the scientific community, big data and the forms it takes, such as statistical lists, spreadsheets and graphs, often seem abstract and unintelligible. This book investigates how digital

fabrication and traditional making approaches are being used to present data in newly engaging and interesting ways. The first part of the book introduces the basic premise of the data object and the concept of making digital data into a physical form.

Contributors cover topics such as biometrics, new technology, the economics of data and open and community uses of data. The second part presents a selection of exemplar forms and contexts for the application of data-objects, such as smart surfaces, smart cities, augmented reality techniques and next generation technical interfaces that blend physical and digital elements. Making Data delivers the importance and likely future prevalence of physical representations of data. It explores the creative methods, processes, theories and cultural histories of making physical representations of information and proposes that the making of data into physical objects is the next important development in the data visualisation phenomenon.

The relationship between musical activity and ethical significance occupies long traditions of thought and reflection both within Christianity and beyond. From concerns regarding music and the passions in early Christian writings through to moral panics regarding rock music in the 20th century, Christians have often gravitated to the view that music can become morally weighted, building a range of normative practices and prescriptions upon particular modes of ethical judgment. But how should we think about ethics and Christian musical activity in the contemporary world? As studies of Christian musicking have moved to incorporate the

experiences, agencies, and relationships of congregations, ethical questions have become implicit in new ways in a range of recent research - how do communities negotiate questions of value in music? How are processes of encounter with a variety of different others negotiated through musical activity? What responsibilities arise within musical communities? This volume seeks to expand this conversation. Divided into four sections, the book covers the relationship of Christian musicking to the body; responsibilities and values; identity and encounter; and notions of the self. The result is a wide-ranging perspective on music as an ethical practice, particularly as it relates to contemporary religious and spiritual communities. This collection is an important milestone at the intersection of ethnomusicology, musicology, religious studies and theology. It will be a vital reference for scholars and practitioners reflecting on the values and practices of worshipping communities in the contemporary world. *Animal Liberation. Die*
