**Активация твердофазного диффузионного взаимодействия при формировании сварных соединений** Surplus Record

SURPLUS RECORD, is the leading independent business directory of new and used capital equipment, machine tools, machinery, and industrial equipment, listing over 95,000 industrial assets; including metalworking and fabricating machine tools, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines, and more. Over 1,100 businesses list with the SURPLUS RECORD. May 2022 issue. Vol. 99, No. 5

LaserOpto Surplus Record

SURPLUS RECORD, is the leading independent business directory of new and used capital equipment, machine tools, machinery, and industrial equipment, listing over 110,000 industrial assets since 1924; including metalworking and fabricating machine tools, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines, and more. Over 1,100 businesses list with the SURPLUS RECORD. March 2023 issue. Vol. 100, No. 3

 Surplus Record

SURPLUS RECORD, is the leading independent business directory of new and used capital equipment, machine tools, machinery, and industrial equipment, listing over 110,000 industrial assets since 1924; including metalworking and fabricating machine tools,

chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines, and more. Over 1,100 businesses list with the SURPLUS RECORD. April 2023 issue. Vol. 100, No. 4

March 2023 - Surplus Record Machinery & Equipment Directory  
 Litres

SURPLUS RECORD, is the leading independent business directory of new and used capital equipment, machine tools, machinery, and industrial equipment, listing over 95,000 industrial assets; including metalworking and fabricating machine tools, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines, and more. Over 1,100 businesses list with the SURPLUS RECORD. January 2022 issue. Vol. 99, No. 1

Welding Design & Fabrication Surplus Record

SURPLUS RECORD, is the leading independent business directory of new and used capital equipment, machine tools, machinery, and industrial equipment, listing over 110,000 industrial assets since 1924; including metalworking and fabricating machine tools, lathes, cnc equipment, machine centers, woodworking equipment, food equipment, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines, and more. Over 1,100 businesses list with the SURPLUS RECORD. June 2023 issue. Vol. 100, No. 8

#### The Tube & Pipe Quarterly Litres

Изложены теоретические основы образования дефектов неразъемных соединений при сборке титановых конструкций сваркой плавлением. Представлены сведения о свойствах титановых сплавов, входящих в состав конструкционных материалов современных летательных аппаратов. Приведено описание технологических процессов, специального и специализированного оборудования для сборки летательных аппаратов, включая технологию и средства образования неразъемных соединений в процессе сборки летательных аппаратов сваркой. Определены основные факторы образования поверхности раздела, вызывающие капиллярную конденсацию загрязнений, обосновано их влияние на дефектность металла шва неразъемного соединения при сборке титановых конструкций. Для специалистов НИИ, КБ, предприятий авиационно-космического комплекса, а также для студентов и аспирантов технических специальностей.

*Machinery and Production Engineering* Surplus Record  
*Welding of Metallic Materials: Methods, Metallurgy and Performance* looks at technical welding methods used based on different principles and sources, such as heat, with or without pressure, electrical, plasma, laser and cold-based welding. The metallurgical aspects associated with the welding processes, specifically those associated with metallic alloys, are explained, alongside the advantages and welding features that are associated with specific welding processes. In addition, the performance of metallic weldments under specific conditions and environments such as offshore, oil industry, radiation and high-temperature services are discussed. This book will a vital resource for researchers, practicing engineers and undergraduate and graduate students in the field of materials science and engineering. Covers the latest developments in welding technology methods and their applications Explains the metallurgical aspects of the welding processes Recent applications of welding processes are described such as welding in medicine applications and additive manufacturing The book includes discussions about the performance of weldments in

terms of fatigue and corrosion and explores the interplay with automation and 3D applications

Рассмотрены направления развития технологии сварки в твердофазном состоянии конструкционных материалов. Изложены теоретические основы взаимодействия однородных и разнородных материалов в условиях

активационного воздействия среды. Исследовано влияние существующих видов раздела материалов на формирование структуры и рельефа поверхности и процессы адсорбции и десорбции загрязнений на этой поверхности. Исследованы процессы активации твердофазного поверхностного легирования металлами и металлоидами формирования твердофазного соединения порошковых частиц, холоднопрессованных порошковых частиц и листовых заготовок. Для специалистов в области сварки и аспирантов
