The Rise of Napoleon - HISTORY
Napoleon dominated European and global affairs for more than a decade while leading France against a series of coalitions during the Napoleonic Wars. He won many of these wars

and a vast majority of his battles, building a large empire that ruled over much of continental Europe before its final collapse in 1815.
Napoleon's power and control continued to grow with his reforms. In 1804, he was crowned the first Emperor of France. At the coronation, he did not allow the Pope to place the crown on his head, but instead crowned himself.
