Learn the cockpit layout of the Boeing B737-400 with this ... 737-300 Non-EFIS F/O flight instruments. The first 737-300's were not fitted

with EFIS and the flight instruments were almost identical to the 737-200Adv. The yellow warning lights above the ADI are the instrument comparator warnings. The FMA annunciations were all contained in the panel above the ASI. Non-EFIS FMA Boeing 737 Flight Instruments The Boeing 737 MAX is the fourth generation of the Boeing 737, a narrow-body airliner manufactured by Boeing Commercial Airplanes (BCA). It succeeds the Boeing 737 Next Generation (NG). It is based on earlier 737 designs, with more efficient CFM International LEAP-1B engines, aerodynamic changes including its distinctive split-tip winglets, and airframe modifications. Boeing 737 MAX - Wikipedia The Boeing 737 is a narrow-body aircraft produced by Boeing Commercial Airplanes at its Renton Factory in Washington. Developed to supplement the Boeing 727 on short and thin routes, the twinjet retains the 707 fuselage cross-section and nose with two underwing turbofans. Envisioned in 1964, the initial 737-100 made its first flight in April 1967 and entered service in February 1968 with Lufthansa. Boeing 737 - Wikipedia When you're passing by the cockpit, see if you can sneak a peek inside. 737 MAX features a nicely updated flight deck, using Boeing's latest display technology. Thanks to the new, larger 15-inch screens, pilots get more information with less effort. Boeing: 737 MAX Grounded Boeing 737 MAX aircraft are seen parked at Boeing facilities at Grant County International Airport in Moses Lake, Washington, on Nov 17, 2020. (Photo: REUTERS/Lindsey Wasson) Advertisement Boeing hires pilots for airlines to help relaunch 737 MAX ... New large flight-deck displays inside the first 737 MAX have now come to life - glowing panels indicating that power is now flowing through the first airplane on the production line. "'Power on' is an important milestone because it is the first time systems on the airplane are integrated and talking to each other," said Rachel Kelley, 737 MAX ... Boeing: New Flight-Deck Displays With more than 74 units delivered world wide, our enclosure has been an outstanding success and the basis of many simulators. Other cockpit/nose section kits often look like the bride of frankenstein with weird sharp angular lines, but our ready to roll shell comes as a beautiful, smooth nose section that looks just like Boeing intended. B737 COCKPIT SHELL - Simquip Upon returning from my recent trip to Seattle, I was lucky enough to spend a few minutes inside a real 737 cockpit. The Captain of our Boeing 737-700 graciously allowed me to have a seat and take a few pictures of the flight deck after the plane had deboarded. A few minutes in a real 737 cockpit | my737NG Boeing 737 MAX Cockpit Layout New flight deck screens within the first 737 MAX have come to life: luminous panels that indicate that power flows through the first plane on the production line. "The 'on' is an important milestone because it is the first time that the systems in the aircraft integrate and talk to each other," said Rachel Kelley, 737 MAX leader in First Flight Leader for Airplane Development.
