Patricia MacDonald has won a worldwide audience of readers with her pageturning crime novels that expertly blend riveting suspense and powerful family drama. Now, she delivers the chilling story of a woman who discovers that her own eyewitness testimony about her sister's abduction led to the conviction and execution of the wrong man -- and that the real killer is still at large. When Tess DeGraff was nine years old and on a camping trip in New Hampshire with her family, a stranger kidnapped and killed her sister Phoebe. Thanks to Tess's eyewitness testimony, a man named Lazarus Abbott was arrested and convicted for the heinous crime. But twenty years later, a test reveals that Abbott's DNA does not match that of Phoebe's murderer. Driven by her fear that she may have sent an innocent man to his death, Tess and her adopted son, Erny, return to the New Hampshire town in which it all happened years ago. Stone Hill, New Hampshire, is still an idyllic New England town. Tess's courageous mother, Dawn, who suffered the violent loss of her daughter and the early death of her heartbroken husband, now runs the charming Stone Hill Inn. Tess's older brother, Jake, lives nearby with his wife, a local girl he fell in love with during the trial of his sister's killer. While Tess's family stands by her account of the crime, nerves are frayed throughout Stone Hill, and others in town accuse her of lying and view her as a murderer. In a race against time to untangle the truth about her sister's murder, Tess encounters an anti-death penalty lawyer, Ben Webster, who infuriates her but who also might open her eyes

and her heart; a biased police chief related to the Abbotts; and an unknown killer who has Tess and Erny in his sights. With fascinating characters and a host of shocking surprises, *Stolen in the Night* displays Patricia MacDonald's storytelling powers at an impressive new level.

Nedjma is a masterpiece of North African writing. Its intricate plot involves four men in love with the beautiful woman whose name serves as the title of the novel. *Nedjma* is the central figure of this disorienting novel, but more than the unfortunate wife of a man she does not love, more than the unwilling cause of rivalry among many suitors, *Nedjma* is the symbol of Algeria. Kateb has crafted a novel that is the saga of the founding ancestors of Algeria through the conquest of Numidia by the Romans, the expansion of the Ottoman Empire, and French colonial conquest. *Nedjma* is symbolic of the rich and sometimes bloody past of Algeria, of its passions, of its tenderness; it is the epic story of a human quest for freedom and happiness.

Le savoureux tandem que forment Jiji et Pichou, cette fillette espiègle qui ne fait pas un pas sans son " bébé tamanoir-mangeur-de-fourmis-pour-vrai", a vu le jour en 1978. Pour célébrer leurs 30 ans, Ginette Anfousse a repris ses pinceaux afin de remettre au goût du jour et de bonifier d'une dizaine de pages ces récits aux thèmes toujours très actuels. Interpellant directement ses lecteurs et faisant d'eux ses complices, l'héroïne partage en effet ses peurs, ses amitiés, ses querelles, ses bouderies et tous les événements, heureux et malheureux, qui rythment sa vie, reflet de celle des petits. Sous ce titre : la petite blondinette découvre que Coco Tremblay a oublié sa collation sur le banc de parc. Malicieusement, elle déguste en vitesse le savoureux beigne au chocolat avant d'offrir sa banane au garçonnet qui accourt vers elle ...

Few animals elicit such a profound combination of horror, fear, and disgust as the bedbug. Uninvited, bedbugs invade our most private spaces (our beds), take away our blood, and afterwards, impudently mark their territory (our sheets). In this book, Klaus Reinhardt investigates the natural and human history of these vampiric insects, examining how ordinary people, travelers, writers, and scientists have experienced bedbugs; how we have coped with them; and what we have done to combat them. From fossils to classical Greek plays to the beds of medieval travelers, history is a rash of bedbugs. So ubiquitous and so loathed are these contentious creatures, the first recorded use of the insect moniker “bug” refers to them, a word that now means any sort of glitch or invader—from computer errors to snooping devices. Lifting the covers on this pestilential history, Reinhardt shows how bedbugs were not only the center of bitter fights among scientists, but also how the bugs’ dangerous aspects were foregrounded, and how bedbugs’ peculiar mating habits fueled public revulsion. Richly illustrated, full of the latest bedbug research, and sure to make you itch, *Bedbug* closes with a plea for sanguine tolerance—something humans and bedbugs will need alike as worldwide infestation rates soar.

Park Wan-suh is a best-selling and award-winning writer whose work has been widely translated and published throughout the world. *Who Ate Up All the Shinga?* is an extraordinary account of her experiences growing up during the Japanese occupation of Korea and the Korean War, a time of great oppression, deprivation, and social and political instability. Park Wan-suh was born in 1931 in a small village near Kaesong, a protected hamlet of no more than twenty families. Park was raised believing that "no matter how many hills and brooks you crossed, the whole world was Korea and everyone in it was Korean." But then the tendrils of the Japanese occupation, which had already worked their way through much of Korean society before her birth, began to encroach on Park's idyll, complicating her day-to-day life. With acerbic wit and brilliant insight, Park describes the characters and events that came to shape her young life, portraying the pervasive ways in which collaboration, assimilation, and resistance

intertwined within the Korean social fabric before the outbreak of war. Most absorbing is Park's portrait of her mother, a sharp and resourceful widow who both resisted and conformed to stricture, becoming an enigmatic role model for her struggling daughter. Balancing period detail with universal themes, Park weaves a captivating tale that charms, moves, and wholly engrosses.

Nous ne sommes pas seuls sur Terre. A côté de nous, à nos pieds, entre nos maisons, vit une autre civilisation. Les fourmis. Elles étaient sur Terre bien avant nous. Il y a plus de 100 millions d'années, alors que nos plus lointains ancêtres ne sont apparus qu'il y a 3 millions d'années. Elles ont su, au cours des siècles, développer leur propre technologie, leur propre agriculture, leur propre architecture, leur propre politique. Mais nous les méprisons juste à cause de leur taille. Un savant génial, le professeur Edmond Wells, a décidé enfin de susciter la rencontre. Le dialogue peut commencer malgré les méfiances et les peurs. Avec le souffle d'une saga aux décors d'autant plus hallucinants qu'ils sont vrais, avec la complexité d'un monde d'autant plus extraordinaire qu'il existe réellement à côté de nous, nous sommes emportés dans les aventures de la fourmi 103 683e. La Trilogie des Fourmis va nous faire découvrir les 3 " C " nécessaires à la rencontre avec toute civilisation étrangère : premier volume (Les Fourmis) : le Contact ; deuxième volume (Le jour des Fourmis) : la Confrontation; troisième volume (La Révolution des Fourmis) : la Coopération. Mais, bien au-delà du thème de la découverte de ces insectes étonnants, Bernard Werber nous invite à une réflexion philosophique sur la place de l'Homme sur Terre, sur sa capacité à comprendre ce qui lui est différent, - et à se comprendre lui-même...

On a far future Earth, mankind's achievements are immense: artificially intelligent robots, genetically uplifted animals, interplanetary travel, genetic modification of the human form itself. But nothing comes without a cost. Humanity is tired, its vigour all but gone. Society is breaking down into smaller communities, dispersing into the countryside and abandoning the great cities of the world. As the human race dwindles and declines, which of its great creations will inherit the Earth? And which will claim the stars?

Louis-Vincent Thomas (1922-1994) a été professeur à la faculté des lettres et sciences humaines à l'Université de Dakar de 1958 à 1968 et professeur de sociologie et d'anthropologie à la Sorbonne jusqu'à sa retraite en 1988. Membre fondateur puis président de la Société française de thanatologie, il s'est imposé comme la référence incontestée de l'anthropologie de la mort. Il laisse en effet une oeuvre considérable sur les rites et cultes mortuaires, les attitudes face au cadavre, les conduites de deuil, les rapports avec la mort et les morts, les imaginaires thanatiques, les mythes et les fantasmes eschatologiques. Publiés en 1968 à Dakar par la faculté des lettres et sciences humaines, ces Cinq essais sur la mort africaine constituent l'ouvrage classique de l'ethnothanatologie. Ils offrent par ailleurs une magistrale synthèse sur les croyances religieuses, les cosmogonies et les ontologies de l'Afrique traditionnelle. Grâce à sa longue familiarité avec les cultures africaines, Louis-Vincent Thomas y restitue la diversité des ethnies et des coutumes, les interactions entre les vivants et les morts, les obligations envers les défunts, les rapports avec les ancêtres. Ce livre est donc fondamental autant par son apport sur les questions de la mort et de ses représentations, que pour son érudition concernant les cultures et ethnies africaines. Il reste à ce titre d'une grande actualité.

THE INTERNATIONAL BESTSELLER AND WINNER OF THE PRIX GONCOURT FOR FICTION Paul Hansen is in prison. He’s been in this prison on the outskirts of Montreal for a couple of years now, sharing a cell with a murderous Hells Angel who often reminds Paul that he could kill him at any moment. What did Paul do to end up here? And why does he jeopardize his life and release by refusing to show remorse? Before prison, there were his parents. There were his friends at the Excelsior, the luxury apartment complex where Paul worked as caretaker as well as restorer of souls and comforter of the afflicted. And there was his partner, Winona, an intrepid seaplane pilot, and their beloved dog, Nouk. Many of those closest to him are gone now, but Paul still talks to them; they appear in his dreams and as ghosts in his cell. From France in the sixties to the asbestos mines of Québec, from the sand dunes of the peninsula where the Baltic connects to the North Sea to the wild lakes and mountains of Canada, Jean-Paul Dubois’s extraordinary novel and winner of the Prix Goncourt *Not Everybody Lives the Same Way*, follows this man, Paul Hansen, as he reviews his life. A life of equilibrium, it has given Paul both tragedy and gifts—that is, until the moment when fate presents him with someone capable of breaking his balance. *Not Everybody Lives the Same Way* is a powerfully original and unusual novel. Masterfully translated by David Homel and brilliantly animated by Jean-Paul Dubois’s keen feeling for humanity and intense revolt against all forms of injustice, it asks the question: What does it takes to live a dignified life?

This unique volume contains, in parallel translation, a thousand of the most frequently performed *Lieder*, both piano-accompanied and orchestral. Composers are arranged alphabetically, with their songs appearing under poet in chronological order of composition - thus allowing the reader to engage in depth with a particular poet and at the same time to follow the composer's development. Richard Stokes, whose work in this field is already widely acclaimed, provides illuminating short essays on each of the fifty composers' approach to *Lieder* composition, as well as well as notes on all the poets who inspired the songs. The volume is notable for the accuracy and elegance of its translations, and for its fidelity to the German verse: every care has been taken to print the words of the sung text, while adhering to the versification and punctuation of the original poem. Beethoven, Schubert and Schumann, Goethe, Heine and Schiller are among the highlights of a book which illuminates one of the great musical traditions and will be an indispensable handbook for every music lover.

Ants came to this planet long before man. Since then they have developed one of the most intricate civilizations imaginable – a civilization of great richness and technological brilliance. During the few seconds it takes you to read this sentence, some 700 million ants will be born on earth... Edmond Wells had studied ants for years: he knew of the power which existed in their hidden world. On his death, he leaves his apartment to his nephew Jonathan with one proviso: that he must not descend beyond the cellar door. But when the family’s dog escapes down the cellar steps, Jonathan has little alternative but to follow. Innocently he enters the world of the ant, whose struggle for existence forces him to reassess man’s place

in the cycle of nature. It is an experience that will alter his life for ever... Empire of the Ants is an extraordinary achievement. It takes you inside the ants' universe and reveals it to be a highly organised world, as complex and relentless as human society and even more brutal.

Exit - Le Jour des fourmis

One quirk of fate can send life spiralling in the most unexpected direction... A young girl loses her mother when a block of ice falls from the sky. A woman wins the jackpot twice. A man is struck by lightning four times. Coincidence? Or something more? Things That Fall from the Sky is the tale of three lives that are changed forever by random events. But it is also a meditation on the endurance of love, the passage of time and the pain of loss. Selja Ahava, one of Finland's best-loved novelists, weaves these stories together in an unforgettable, one-of-a-kind fable about the twists and turns that can define a lifetime.
