 Operation Equipment Inspection Checklist.
 Check tires, rims or undercarriage for
 damage or abnormal wear and clear away
 debris. Much like you or I don't operate at
 full capacity on a broken foot or while
 wearing shoes that are broken or don't fit,
 a machine can be hobbled by the
 inefficiencies of the tires or tracks it sits

on. The Pre- and Post-Operation Equipment Inspection Checklist ... EXCAVATION CHECKLIST (To be completed by a Competent Person) Indicate for each item: YES - NO - or N/A for not applicable . 1. General Inspection of Jobsite: A. Excavations, adjacent areas, and protective systems inspected by a competent person daily before the start of work. EXCAVATION CHECKLIST - University of Delaware Using a pre-use inspection checklist template like you see here, you can streamline and improve how all of your inspections are conducted and actioned. The checklist you see to the right is the basic framework, and was built specifically for heavy equipment pre-use inspections. Pre-use Inspection Checklist (Customisable for any pre-use ... Excavation checklists are used to perform safety inspections and risk assessments for excavation and trenching projects. Excavation checklists are an essential tool used during pre-operations to evaluate the jobsite, utilities and equipment, access means, area atmosphere and support systems to identify problems before they occur. Excavation Safety Checklists: Top 7 [Free Download] - iAuditor Are your operators in the habit of performing a pre-use walk-around before they start up their machines to tackle the day's tasks? If not, they should be. Doing so isn't just a safety issue - it's also a bottom-line one. First and foremost, the purpose of a pre-use inspection is to ensure that the machine is safe to operate. Why equipment pre-use walk-around inspections are a must Pre-use inspections are required before use of any equipment or work process that has a potential to result in a severe loss. This inspection must be recorded in a log that is kept on the equipment or near the process and be available for review. Individual departments are responsible for identifying and completing the pre use checklist. Pre-use inspections | Safety Office | University of Waterloo Note: Always use personal protective equipment such as a face shield, long sleeves, and gauntlet gloves when checking liquid propane tanks and fittings.
