 This review by the American Pharmacy Association (APhA) is organized to correspond directly to the National Pharmacy Technician Certification Examination's Content Outline. The Content Outline, revised in March 2000, is based on a US national study of tasks pharmacy technicians perform in a variety of practice settings. So APhA's review is both a thorough primer on the many specific activities that pharmacy technicians actually perform and a detailed review of the knowledge that test candidates must master to pass the Pharmacy Technician Certification Examination.

Hart und zynisch - ein moderner amerikanischer Thriller
Mafiakiller Sal Cupertine hat es vermasselt. Durch Verquickung unglücklicher Umstände hat er in Chicago drei FBI-Beamte getötet - ein böser Fehler. Statt dafür von seinem Boss selbst ins Jenseits befördert zu werden, landet er nach diversen Gesichtoperationen und entsprechendem Intensivstudium als Rabbi David Cohen in einer jüdischen Gemeinde in Las Vegas. Aber auch dort hat die Mafia ihre Finger im Spiel. Bald geht Rabbi Cohen nicht nur wieder seinem alten Gewerbe nach, sondern entdeckt weitere lukrative Betätigungsfelder, die sich mit der Rolle als Seelsorger aufs Beste vereinen lassen. Mit viel Witz verbindet Tod Goldberg in einem raffinierten Plot die Welt des organisierten Verbrechens mit Tora und Talmud - und das alles im glitzernden Las Vegas, diesem ruchlosen Gangsterland mitten in der Wüste.

It's a dog eat dog world. Especially, when all the dogs involved are hungry! For a sheltered mama's boy like Demarcus, everything was all roses until a life changing experience showed him that every rose has thorns. After a well-orchestrated set up, Demarcus' plans to go to college are derailed by a trip to state prison. It is while in the belly of the beast, that the mama's boy has to make the choice between being a man, or being a victim. Upon his release, Demarcus tries to get his life back on track, but his felony conviction causes door after door to be slammed in his face. Going to college is no longer an option, and flipping burgers is not in his plans. With little other choice, Demarcus applies the lessons learned in prison and takes it to the streets. He gets caught up in the game of selling heroin, known on the streets as Dog Food. When all hell breaks loose between the major dealers, in Memphis, over the city's heroin distribution, Demarcus finds

himself on the losing side of a bloody drug war. As he prepares for the show down with his opposition, he begins to uncover truths about his past, including what happened that fateful night of his arrest. To add insult to injury, when he finally stands face to face with his enemy, he discovers that the face is a familiar one. They say that blood is thicker than water, but when it comes to cash, sometimes even those closest to you will try to do you in.

This book covers the latest data available to understand the mechanisms causing the formation of single species fungal biofilms or polymicrobial biofilms involving fungal species; specific chapters present hot topics such as resistance mechanisms and composition and role of the matrix. Moreover, it reviews updated data on biofilms that contain yeasts or filamentous fungi and develop in the human body or in water and may cause infections. The latest available data for both diagnostic and treatment of infections associated to fungi growing in biofilms is also presented. The activity of antifungal and disinfectant agents against fungal biofilms is discussed in specific chapters and future treatments on natural sources are suggested. This book bridges the gap between basic and applied research. It is the result of many years of research work done by laboratories worldwide, all known for their expertise on fungal biofilms.

The use of different foods, herbs, and spices to treat or prevent disease has been recorded for thousands of years. Egyptian papyrus, hieroglyphics and ancient texts from the Middle East have described the cultivation and preparations of herbs and botanicals to "cure the sick." There are even older records from China and India. Some ancient scripts describe the use of medicinal plants which have never been seen within European cultures. Indeed, all ancient civilizations have pictorial records of different foods, herbs, and spices being used for medical purposes. However, there are fundamental issues pertaining to the scientific evidence for the use of these agents or their extracts in modern medicine. These issues are explored in Ancient and Traditional Foods, Plants, Herbs and Spices Used in Diabetes. Features · Investigates alternative healthcare paradigms that use traditional dietary foods, plant-derived materials, and extracts to treat diabetes · Describes scientific studies using modern day biomedical techniques · Provides information on diets, specific agents, extracts and resources. · Many chapters focus on plant-derived material, providing a historical background, uses, toxicity, and cautionary notes and summary points. There have been considerable advances in scientific techniques over the last few decades. These have been used to examine the composition and applications of traditional cures. Modern science has also seen the investigation of herbs, spices and botanicals beyond their traditional usage. Diabetes is one of the most common diseases worldwide, with over 400 million people with the illness. With chapter contributions by an international panel of contributors, this book is useful for researchers in the area of functional foods. Diabetologists, nutritionists, endocrinologists, healthcare workers, and pharmacologists will also find this book extremely valuable.
