DIVWhen it comes to collector motorcycles, none hold the allure of the classic Harley-Davidson

Big Twins built from 1936 to 1964. But owning and maintaining these temperamental machines provides endless challenges. Even the most pristine, restored example needs a tremendous amount of care, maintenance, and repair. The rebuilding and restoring of these machines is not so much

a defined task as a never-ending process. This book serves to guide owners through that process./div Beginning with a practical section on understanding, choosing, and purchasing a classic Harley, this book focuses on the nuts and bolts of classic Harley ownership. Through step-by-step photography and thoughtful, informative

instruction, the reader will learn how to disassemble a chassis, rebuild a fork, lace a wheel, and paint the major parts for any restoration. It also provides thorough instruction on repairing, overhauling, and restoring all major components, such as the engine, transmission, and electrical system.

Excerpt from Youth in Harley This is Mis' Whitney's, he said. If you find it's all right, I guess

Jim '11 help ye take in your trunk. Thus, sitting quiet in his wagon, he let the young man meet his landlady unannounced. Stephen's introduction to the house was easier than he had been led to expect. Mrs. Whitney herself came to the door, a portentously thin figure in a shapeless gray dress, with gray hair drawn tight across her temples in a way that accentuated the emaciation of her face. She was not lovely to look at, yet the quiet depth of her voice, when she spoke, made one forget to

think her grotesque. Mr. Quaid? She said gently. The train must have been late again to-night. Your room is waiting for you. My husband will help you bring in your trunk. James! So, we proceeded to that location and, after much difficulty, located the said Phoebe Loper. My cousin said on the way - John, do you believe in fortune-tellers. Why? Said 1. Well, he said, before I found you I went to one and she

told me I would meet a tall man who would lead me on a long chase after an old woman who could tell us about a fortune. Almost the first thing Phoebe said to me was - John, did you see that advertisement in the paper, inquiring for the heirs of Phoebe Rabjohn, to a fortune of some I said, who was Phoebe Rabjohn; why, she was my grandmother, said she. I asked her how she came to see the advertisement; why, said she, Mrs. Kohler and I had been out to the park, about last

November, and on her return she picked up the Item and read it to me, and Mrs. Abbot also read it. Why did you not cut it out, said I. Oh! Said she, I told her I was old and the lawyers would get it all; so, I did not bother with it. Where was it located, said I. I think it was in Holland, said she, some place that ends with a dam. Amsterdam? Said I. No, said she. Rotterdam? Yes, that's it, she said. So, I hunted up Mrs. Abbot, and she said, yes, I remember reading it to Phoebe. What paper was it in? Said

I. I think it was the Ledger, said she, although it might have been the Record, because we often borrowed that paper from next door. This illustrated guide is packed with interesting facts and follows the history of the famous Harley-Davidson company and the development of its famous bikes, which have earned a special place in the hearts of enthusiasts everywhere. The story dates from 1903 when Bill Harley and the Davidson brothers, with no thought of fame or fortune, decided to build a motorcycle that really worked. So successful was it, that it led to the gradual formation of a

company that has survived through good times and bad. Through good times and bad, losing and winning back police contracts, as well as weathering various other vicissitudes, the company has achieved lasting success. In the end, Harley-Davidson came to the ultimate decision of giving its customers what they really wanted, not by providing year-on-year innovations, but by remaining true to the Founders' original concept. The result, as

everyone knows, are bikes of mythic status, imbued with a mysterious quality of their own and generating a passion in enthusiasts amounting almost to a love affair. The name has come to personify America and is up there alongside Coca-Cola, Ford and McDonald's. The bikes are described in detail, not only in mechanical terms, but also with glorious photographs, and will be of interest to everyone who loves motorbikes: even aficionados of Japanese and European

bikes, who have never even ridden a Harley-Davidson, will be able to recognize the unique marriage of style and nostalgia and the fact that there are no other bikes quite like them.
