JONAS ANDREWS

Countries and Concepts Pearson College Division

Power & Choice provides a general, comparative introduction to the major concepts and themes of political science. The author's goal when writing the book was a text that is conceptually alive and that engages students with concrete examples of analysis without losing them "in a clutter of definitional minutiae."

The Oxford Handbook of Political Institutions SAGE

This text is suited for Introduction to Political Science courses taught at universities and colleges across Canada. In this fourth edition of *An Introduction to Political Science: Comparative and World Politics*, students are introduced to politics and government through a comparative lens with a Canadian emphasis. Canadian content has been increased throughout the text, and material has been updated to address such contemporary topics as globalization and the September 11 terrorist attacks. The text can be used in either a relevant one-semester or full-year course, both of which are offered by universities and colleges in Political Science and Public Administration departments.

An Introduction Rowman & Littlefield

For courses in Introduction to Political Science. Explore the Fundamentals of Political Science Political Science: An Introduction shows students how the fundamental tenets of political science have helped important leaders make critical decisions for centuries. The authors present a balance of theoretical abstractions and applied reasoning to help students understand how to make calm, rational choices when it comes to political manipulation. The Fourteenth Edition asks students to explore the controversial topic of exported democracy, and whether certain countries are ready and equipped to apply our form of government. By examining issues such as the Iraq war and the difficulty of adapting our own democracy in the U.S., the text prompts students to form their own opinions about democracy and political science. Geared toward those learning about the topic for the first time, the authors encourage students to consider different paradigms, viewpoints, and theories when developing their own political views. MyPoliSciLab® not included. Students, if MyPoliSciLab is a recommended/mandatory component of the course, please ask your instructor for the correct ISBN and course ID. MyPoliSciLab should only be purchased when required by an instructor. Instructors, contact your Pearson representative for more information. MyPoliSciLab is an online homework, tutorial, and assessment product designed to personalize learning and improve results. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts.

The Human Polity SAGE

Novel collection of essays addressing contemporary trends in political science, covering a broad array of methodological and substantive topics.

An Introduction SAGE Publications Pvt. Limited

Approaching the subject from a focussed international and pluralist perspective, this book provides advanced-level treatment of all the core areas to give postgraduate students a wide-ranging and dynamic introduction

The New World of International Relations Palgrave Macmillan

The textbook *Political Science Basics* helps you learn the fundamentals of the American Government while digging deeper into theory and history. This textbook provides easy-to-read chapters through fundamental core concepts found in most American Government 101 classes. Students are offered sophisticated and rigorous learning of American Government in a simple and easy-to-understand format. *Political Science Basics* also provides students with study questions to prepare for examinations at the end of each chapter, ensuring ease of learning.

Poli Sci Fi SAGE

Christians are called to be informed about political science as they seek to be ambassadors for Christ in a diverse society. In this introductory textbook, Fred Van Geest presents a balanced Christian perspective on political science, providing a nonpartisan guide to the key concepts, institutions, and policies that shape politics today.

A Christian Perspective Pearson

The SAGE Handbook of Political Science presents a major retrospective and prospective overview of the discipline. Comprising three volumes of contributions from expert authors from around the world, the handbook aims to frame, assess and synthesize research in the field, helping to define and identify its current and future developments. It does so from a truly global and cross-area perspective Chapters cover a broad range of aspects, from providing a general introduction to exploring important subfields within the discipline. Each chapter is designed to provide a state-of-the-art and comprehensive overview of the topic by incorporating cross-cutting global, interdisciplinary, and, where this applies, gender perspectives. The Handbook is arranged over seven core thematic sections: Part 1: Political Theory Part 2: Methods Part 3: Political Sociology Part 4: Comparative Politics Part 5: Public Policies and Administration Part 6: International Relations Part 7: Major Challenges for Politics and Political Science in the 21st Century

An Introduction to Political Science Pearson Higher Ed

Written from Mike Roskin's unique and engaging point-of-view, IRarms students with a direct and down-to-earth understanding of contemporary international relations. This text surveys key events in world history as well as fundamental theoretical concepts to trace the international system's evolution and to assess its future. Putting the behavior of global actors into more complete context, IRhelps students think critically about the challenges faced by the United States in an era of globalization.

An Introduction to Comparative Methods and Statistics Houghton Mifflin School

Explains the basics of political science *Political Science: An Introduction*, 13/e, provides a comprehensive and jargon-free introduction to the field's basic concepts and themes. It draws examples from the U.S. and other countries to introduce the entire field of political science to new

readers. The authors stress how exciting politics can be, balancing practical and theoretical knowledge. MyPoliSciLab is an integral part of the Roskin/Cord/Medeiros/Jones program. Activities and videos help readers engage in the material and retain its main points. Readers can watch videos that explore the key topics of politics and participate in simulations that allow them to experience politics firsthand. Assessment in MyPoliSciLab helps gauge readers' progress. Note: MyPoliSciLab does not come automatically packaged with this text. An Introduction to Political Science CQ Press

Long established as this leading text in the field, the new 4th edition has been comprehensively updated, revised and rewritten throughout to take account of the impact and consequences of the events of September 11 2001 and other key developments of the early twenty-first century. Lively, accessible, student-friendly and truly international in its coverage, the 4th edition includes the usual wide range of pedagogical features including full page country case studies, debate boxes and an increased number of charts, figures, tables, and quotations throughout. The companion website for this new edition features an entirely new chapter on political economy. The website is available at www.palgrave.com/politics/hague

Understanding the Political World Cambridge University Press

A precise, analytical and critical account of the fundamentals of political theory and the major concepts used in political analysis. This book offers an introduction to major political theories for the first learners of political science at the graduate level as well as those interested in building a strong groundwork of the subject. It cites Indian and global examples and discusses real-life applications of these theories to make the theories and concepts relatable and approachable. The book offers a compact overview of the concepts of state, society, civil society, justice, law, freedom, equality and others along with critical discussions on premier political ideologies of Marxism, Liberalism, Anarchism, Fascism, Gandhism and much more. Enriched by the author's long-term experience in research and teaching on the subject, this textbook will prove to be an essential companion for students of political science, sociology and social work as well as Civil Services aspirants. Key Features: • Special focus on Indian political theory and the course of its development. • Encourages the readers to ponder and debate further. • Presents a practical perspective, by contextualizing the theories within real-life situations.

an introduction to political science Humanities Academic Publishers

How is ethnicity viewed by scholars of different academic disciplines? Can its emergences be compared in various regions of the world? How can it be conceptualized with specific reference to distinct historical periods? This book shows in a uniquely and innovative way the broad range of approaches to the political uses of ethnicity, both in contemporary settings and from a historical perspective. Its scope is multidisciplinary and spans across the globe. It is a suitable resource for

teaching material. With its short contributions, it conveys central points of how to understand and analyze ethnicity as a political resource.

American Public Policy: An Introduction InterVarsity Press

Updated in its 11th edition, *Understanding the Political World* offers a comparative perspective on how politics works at the global, national, group, and individual level. Focusing on how fundamental concepts in political science relate to real political events, this bestselling text surveys political behavior, systems, and processes throughout the world and asks students to evaluate and apply this knowledge. Through an engaging writing style, numerous examples, and the instructive use of visuals, *Understanding the Political World* encourages readers to think like political scientists and to critically examine new and enduring political realities and challenges.

Political Science, an Introduction and Prentice Hall Authors Speak Out CQ Press

Political science has changed; the way students learn has changed; so too should the way it's taught. This is political science, today. *Political Science Today* by Wendy Whitman Cobb gives you a holistic view of the subfields that make up political science by dedicating one chapter to each of the topics at the core of the discipline. Unlike denser texts on the market, *Political Science Today* uses a field-based approach that allows you to engage with the material directly and dig into each of the discipline's diverse subfields while also developing critical thinking skills, discerning the differences between politics and political science, conducting and consuming research, and broadening your future career aspirations. The book's innovative table of contents begins with foundational tools like theories and research methods, then builds up to subfield chapters on Comparative Politics, International Relations, American Government, Political Economy, and Public Policy and Administration. Current case studies throughout the text provide a backdrop for engaging classroom discussions on topics such as President Trump's travel ban, ISIS as a state, and strengths and weaknesses of the United Nations. This unique approach provides short segments of topic coverage, plenty of summarizing content and review questions, as well as comprehensive learning objectives which will help you understand the realities of political science today.

An Introduction to Political Science W. W. Norton

The Challenge of Politics introduces students to the fundamental questions of political science. With a distinctive normative approach that portrays politics as a potentially humanizing enterprise, authors Neal Riemer, Douglas W. Simon and Joseph Romance equip readers to recognize major forms of government, evaluate research findings, and understand how policy issues directly affect people's lives. This comprehensive text balances classic and contemporary political theory with current events and empirical study. The Fifth Edition is fully revised to reflect recent national and international developments, including a new chapter on American Politics and Government.

An Introduction to Political Science Cambridge University Press

This revised and updated edition of a core textbook – one of the most well-established texts in the field of comparative politics – offers a comprehensive introduction to the comparison of governments and political systems, helping students to understand not just the institutions and political cultures of their own countries but also those of a wide range of democracies and authoritarian regimes from around the world. The book opens with an overview of key theories and methods for studying comparative politics and moves on to a study of major institutions and

themes, such as the state, constitutions and courts, elections, voters, interest groups and political economy. In addition, two common threads run throughout the chapters in this edition – the reversal of democracy and declining trust in government – ensuring that the book fully accounts for the rapid developments in politics that have taken place across the world in recent times. Written by a team of experienced textbook authors and featuring a range of engaging learning features, this book is an essential text for undergraduate and postgraduate courses on Comparative Politics, Comparative Government, Introduction to Politics and Introduction to Political Science.

An Introduction to Political Science through Science Fiction Routledge

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Updated in its 12th edition, *Countries and Concepts* systematically examines politics from around the world and presents eleven accessible and in-depth studies of Britain, France, Germany, Japan, Russia, China, India, Mexico, Brazil, Nigeria, and Iran. This text looks at similarities and differences in five key areas of each country to facilitate comparative analysis, defining important concepts and integrating examples from current events throughout. Highly readable and thought-provoking, *Countries and Concepts* introduces readers to the politics and governments of the world and bolsters their civic education by considering the historical, political, economic, geographical, and moral aspects of democracy. *Politics, Geography, Culture* Cengage Learning

The classic introduction to political science and comparative politics has been comprehensively updated for this new edition. Retaining the clarity of expression and breadth of coverage that has made it the introduction of choice for generations of students, it provides a lively and up-to-date account of the events and forces shaping politics in today's interconnected world. The new edition includes separate chapters on theoretical approaches and research strategies in political science as well as increased coverage of security, media, culture, law and regulation. Carefully designed learning features illustrate the text throughout. These include: • full-page Profiles on individual countries and the European Union, with associated Spotlights linked to each chapter • on-page glossary definitions for key terms and timelines of key events • guides to additional learning resources for each chapter • a companion website providing additional resources and activities *A Global Perspective* Cambridge University Press

The study of political institutions is among the founding pillars of political science. With the rise of the 'new institutionalism', the study of institutions has returned to its place in the sun. This volume provides a comprehensive survey of where we are in the study of political institutions, covering both the traditional concerns of political science with constitutions, federalism and bureaucracy and more recent interest in theory and the constructed nature of institutions. The *Oxford Handbook of Political Institutions* draws together a galaxy of distinguished contributors drawn from leading universities across the world. Authoritative reviews of the literature and assessments of future research directions will help to set the research agenda for the next decade.
