**Dinosaur Firefighters** Рипол Классик  
 ♦ Ideal gift for children. ♦ Learn from these timeless classic teachings that have inspired so many children and adults alike to create their own beautiful works of art.  
 ♦ Simple to follow, yet for budding artists of all ages leads to enviable drawing skills.  
 ♦ Step-by-step technique takes a blank page to a finished drawing using principles seen in sophisticated artwork and animations today. ♦ Fast progression in skill level with this method that uses gradual, simplified stages to build a finished piece of artwork. Learning to draw can be easy when you are shown correctly right from the start. So why not learn from the master teacher who is credited to

have inspired Walt Disney to start drawing and pursue his animating career. Author and illustrator Edwin George Lutz is the man, and he is famous for his method of breaking down complex illustrations into simple step-by-step stages that anyone can follow. Many fine artists and illustrators over the decades have used his technique, and the classic teachings in this book will teach you how as well. In this remarkable course you will learn to draw many types of plants, landscapes, shapes, and other things such as various objects. Some of these objects you will learn to draw include airplanes, automobiles, trains, boats, and toys. This book is aimed at teaching children (although it's great for any beginner no matter the age), and the choice of pictures is designed to keep a child fascinated. The method makes for a magical experience making drawing easy and delightfully

interesting. The book is 104 pages and provides a step-by-step system that fixes the object in memory and develops naturally a physical skill and a memorized knowledge of proportion and form. Images are broken down into simple key-lines, which are then built upon with clear step-by-step instructions, resulting in impressive drawings. Instructions are very brief, for the key-lines of each object tell their own story and the child is entranced by the results soon gained. The youngest child may grasp the magic progress of this way of working and he or she will quickly learn to draw the picture naturally and well. We think anyone who applies the knowledge contained within this course will be delighted with their results, and the speed and ease at which they attain them.

"LOL funny." –Girls Life A middle schooler comes head-to-head with his vampire slayer crush in this laugh-out-loud funny graphic novel that's a perfect coming-of-age story for anyone who's ever felt too young, too small, or too average. It's the beginning of the new school year and AJ feels like everyone is changing but him. He hasn't grown or had any exciting summer adventures like his best friends have. He even has the same crush he's harbored for years. So AJ decides to take matters into his own hands. But how could a girl like Nia Winters ever like plain vanilla AJ when she only has eyes for vampires? When AJ and Nia are paired up for a group project on Transylvania, it may be AJ's chance to win over Nia's affection by dressing up like the vamp of her dreams. And soon enough he's got more of Nia's attention than he bargained for when he learns she's a slayer. Now AJ has to worry about self-preservation while also trying to save everyone he cares about from a real-life threat lurking in the shadows of Spoons Middle School.

There's more to great cartooning than drawing a funny face. You need to match that head to a body, give your character expression and attitude, and move him this way and that to tell your story, all while keeping his look consistent from frame to frame. *Cartoon 360* covers every angle of drawing fantastic cartoon people, from coming up with fresh ideas for an endless assortment of faces, to bringing your work to a polished, professional finish with inking and coloring. Harry Hamernik's three-dimensional drawing method helps you design fun cartoon characters from head to toe AND draw them again and again, from any angle and in any pose you want. Easy-to-follow demonstrations show the start-to-finish evolution of a variety of character types and poses. Every page is loaded with fun examples and expert secrets, like the amazing power of feature spacing and head height measurements. A power-packed, must-have guide for anyone who wants to draw cartoons, this book contains enough skills and insights to go around—for characters that pop off the page.

Brazilian designer Fábio Sasso, who has wildly popular design blog *Abduzeedo*, has created the definitive guide to design. This book features interviews with designers and offers tutorials on various design styles, an extension of what he does with his site *abduzeedo.com*. Each chapter addresses a particular style, e.g., Vintage, Neo-surrealism, Retro 80s, Light Effects, Collage, Vector, and starts off with an explanation about the style and techniques that go into that style. Next, the *Abduzeedo Design Guide* shows images from different visual artists illustrating each style. Fábio interviews a master of each style, such as, in the case of Retro Art, James White. Then he wraps up the chapter with a tutorial showing the elements and techniques for creating that style in Photoshop. Meant for beginning to intermediate designers as well as more experienced designers looking for inspiration, the book focuses on styles that can be applied both to web or print. *Advanced animation* Watson-Guptill Shares secrets to creating effective caricatures, focusing on what features to emphasize in a face, and includes information on basic theories and professional tips and tricks.

Chances are, you already know how to draw some expressions. But face it, your stories can only get so far with "happy," "sad" and "angry." In order to give your characters some character, you need to know what they look like when they're about to sneeze, when they smell something stinky or when they're flirting, horrified or completely blotto. Lucky for you, that's what this book is all about! Making Faces contains everything you need to give your characters a wide range of expressions! Part 1: The Basics. How to draw heads, mouths, noses and eyes, and how they change shape when they move. Part 2: The Faces. Over 50 step-by-step demonstrations for a variety of expressions divided into scenarios. Each scenario shows four or five expressions from a single character, from simple emotions to more subtle and complex variations, so you see how a face changes with each emotion. Sidebars illustrate the same expressions on a variety of other characters. Part 3: Storytelling. How to move your story along using expression, point of view, body language and composition. See how it all comes together with damsels in distress, a noir-style interrogation, a Western standoff and other situations. Illustrated with a diverse cast of characters from hobos to superheroes to teenage girls, this guide will help you create the looks that say it all.
