This is *Robots Everywhere* — a show where we

chronicle the slow but steady takeover by our future robot overlords, and show you how they’re making their way into practically every facet of modern life. *Robots Everywhere: The Vast Promise of Humanoid Robots* ...Robots will also be used in tasks that people are unwilling or unable to perform because they are too dangerous, are unpleasant or repetitive, or require superhuman physical strength. Digitization of devices and information will lead to the creation of such massive volumes of data that it will require automated intelligent systems to process and analyze it (e.g. real-time data mining, etc.).
