Lucian Blaga (1895-1961) is judged by many to be Romania's most original philosopher and greatest poet of the twentieth century. While scholars with access to his works in Romanian are well-aware of their importance, his work has remained, up to now, little known in the English-speaking world. The book represents one of the first efforts to make Blaga's work accessible to an international audience. Zalmoxis is Blaga's first play and one of his most important literary works. It underlines much of his philosophy and also reflects his poetry. Blaga's attachment to Expressionist ideals is discernible in his treatment of the characters primarily as vehicles of ideas and his preference for primitive nature over the cultured metropolis. This book includes an introduction by Keith Hitchins of the University of Illinois, one of the leading historians of Romania in the United States and a scholar intimately acquainted

with Blaga's life and work. In it, he discusses the life of Lucian Blaga, and the importance of his literary and philosophical work. The translation is by Doris Plantus-Runey from Wayne State University in the United States.

The past as a building block of a more affirming and hopeful future As early as the eighteenth century, white Americans and Europeans believed that people of African descent could not experience nostalgia. As a result, black lives have been predominately narrated through historical scenes of slavery and oppression. This phenomenon created a missing archive of romantic historical memories. Badia Ahad-Legardy mines literature, visual culture, performance, and culinary arts to form an archive of black historical joy for use by the African-descended. Her analysis reveals how contemporary black artists find more than trauma and subjugation within the historical past. Drawing on contemporary African American culture and recent psychological studies, Ahad-Legardy reveals nostalgia's capacity to produce

positive emotions. Afro-nostalgia emerges as an expression of black romantic recollection that creates and inspires good feelings even within our darkest moments. Original and provocative, *Afro-Nostalgia* offers black historical pleasure as a remedy to contend with the disillusionment of the present and the traumas of the past.

A Love Letter to Whiskey Harper Collins We first meet Susan Cushman's characters, John and Mary Margaret, in her short story collection, *Friends of the Library*. In her second novel and seventh book, Cushman fleshes out their stories, covering over fifty years of their lives in Mississippi and Memphis against the backdrop of the civil rights movement and continuing through current-day events. John and Mary Margaret is an insider's look into the White-privilege bubble of a young girl growing up in Jackson, Mississippi, and participating in sorority life on the Ole Miss campus in the late 1960s. But it's also a candid portrayal of a young Black boy from Memphis who follows his dream to study law at the predominately White university. What happens when their

shared love for literature blossoms into an ill-fated romance? Set squarely in the center of decades of historical events in Mississippi and Memphis, here their story brings those events to life.

A man lies sleepless in a foul-smelling room while raucous noises come from next door, and women--past and present, real or

imagined--pass through his mind. From these few elements, Romanian author Dumitru Tsepeneag builds a dreamlike world both ancient and contemporary, and as mesmerizing as that in his critically acclaimed "Vain Art of the Fugue." Praised by Emil Cioran for its precise and masterly evocation of sensual detail, "The Necessary Marriage" confirms Tsepeneag's position as one of the most important Eastern European writers of the post-communist era.

Stancetaking is inherent in verbal communication, as it is connected with the expression of subjectivity and the construction of intersubjectivity in discourse. This book presents theoretical findings in this field and their practical implications, exploring the variations in time and space of meaning negotiation processes in a large variety of communicative forms, including political and judicial discourse, journalism, fiction, private letters, informal conversations, and school debates. Some articles refer to events with a

strong impact on social and political life, such as the COVID-19 pandemic or Ceaușescu's trial. The volume's approach is mainly pragma-rhetoric and interactional, but also interdisciplinary, promoting dialogue between stance researchers in different fields. There is a specific focus on possible applications of some key findings of stance research in improving inter-ethnic communication and the teaching of foreign languages, as well as students' communicative abilities.

Timeless insights from one of the most important people in church history. Some people value good works so much that they overlook faith in Christ. Faith should be first.... It is faith—without good works and prior to good works—that takes us to heaven. We come to God through faith alone.

This volume is based on contributions from the First International Conference on Recent Advances in Natural Language Processing (RANLP'95) held in Tzigrich, Bulgaria, 14-16 September 1995. This conference was one of the most important and competitively reviewed conferences in Natural Language Processing (NLP) for 1995 with submissions from more than 30 countries. Of the 48 papers presented at RANLP'95, the best (revised) papers have been selected for this

book, in the hope that they reflect the most significant and promising trends (and latest successful results) in NLP. The book is organised thematically and the contributions are grouped according to the traditional topics found in NLP: morphology, syntax, grammars, parsing, semantics, discourse, grammars, generation, machine translation, corpus processing and multimedia. To help the reader find his/her way, the authors have prepared an extensive index which contains major terms used in NLP; an index of authors which lists the names of the authors and the page numbers of their paper(s); a list of figures; and a list of tables. This book will be of interest to researchers, lecturers and graduate students interested in Natural Language Processing and more specifically to those who work in Computational Linguistics, Corpus Linguistics and Machine Translation.

All Around Bustletown

- Fall John Benjamins Publishing

This book is a compilation of the racing career (and beyond) of Harry McQuinn who was dubbed "King of the Midgets" and ran with the "Chicago Gang." It's an historical narrative to chronicle the information about his career and to tell the story of someone who came before and helped blaze the path in auto racing. The information has been assembled by Dr. Brad T Tinkle who, as a child, fondly remembers fishing and boating with his great grandparents, Harry and Juanita McQuinn. He recalls many of "Daddy Harry's" racing stories, trophies, injuries, and scars, but didn't have a true understanding of the significance of his racing career since Harry had long retired by that time. These memories didn't come to the forefront until decades later when his son, Zachary Tinkle, started his stock car racing career, which plunged Brad into

learning about mechanics, car set up, and spotting. While traveling around to the different tracks, he started to notice photos of Harry at different tracks during events like Hall of Fame weekend at Grundy County Speedway. He delved into family archives, newspaper archives, and track historical records to bring Harry's stories to light. People that he encountered that knew or knew of Harry have different perspectives. Some remember him as a firm race official. Others remember that he is the first and only person to land an airplane on the Brickyard. And, others recall his contribution to the start of NASCAR(R) because of his kicking Mr. France out of a race track. Many know the stories, but may not have necessarily known the man behind them. Included in the book are: - Early Years- McQuinn falls in love... with cars. - Dirt Track Racing (1924-1934)- McQuinn didn't have the best start to his racing career, but he persisted to become one of the best in the Midwest. - Big Car Racing (1934-1948)- Living in the shadow of the Indianapolis Speedway, he aspired to join the 500

race. He made his dream come true, but routinely had bad luck. However, he still managed to get two top tens in ten starts. - Midget Racing (1934 - 1946)- Midgets roared onto the Midwest scene in 1934 and 1935. McQuinn fell in love with the little dynamos and wheeled them with furor, making his name known coast to coast. - Race Officiating (1949-1969)- McQuinn was well experienced in racing and when he was done as a driver, he still continued in his love of racing. He was considered stern, but fair and had his share of controversy. - Piloting (Airplane)- World War II introduced McQuinn to airplanes and he enlisted in the reserve. He worked hard to have the airplane as much a part of the Indianapolis Motor Speedway as the race car was. - Later Years- Having retired from racing activities after 45 years, he accepted a quieter life. His accomplishments were still recognized long thereafter. Reading the excerpts and stories about Harry McQuinn gives an appreciation for the safety issues with racing and how far standards have come across all series. For anyone that has dealt with issues with racing

mechanics and politics, reading the evolution of Harry McQuinn's career gives them a respect for what it took for McQuinn to make a career of racing, both on and off the track.
