Dear Reader! I

am Anurag
Pandey. I am
a writer, a
poet and also
a passionate
programmer. I
like writing
codes. I use
coding to
automate
required tasks
in my office,
which have
reduced
particular
tasks
completion
time from
hours and
even days to
just a few
minutes. I
remember,
once an
official from
Income Tax

Department of India had said to me that you are an Excel expert. I had replied him that I am not an Excel expert. I only use logic in anything, if I can. We know that Excel is a very powerful application. But we only use it for simple data entry purpose. We do some plus-minus and a little multiplication etc. and all that. Let's do little more with Excel. Let's play with excel. "Let's Play with Excel" has 51 Macros written

by me. They are useful programs having original VBA coding. If you are Computer Student/ VBA Learner/ Excel Professional then you would find this book really helpful. I would like to tell you about a few programs of this book here. One of its' Macro is able to give you ready to print Invoice with auto retrieving data. Another Macro is able to take details of entire class (any number of students

and subjects) and to provide ready to print Mark-sheet of each student along with Result Sheet of all students at one place. Another Macro provides you simple and easy format to enter data of one or many Invoice/s at once. Then another Macro creates JSON file from that data, which you can use for bulk upload for generating E Invoices. Other two Macros are able to Encode/Decode data of your Excel sheet.

Using this you can encode your data and can send the encoded Excel file on Mails etc. At the other hand the file can be decoded only if you have provided the Macro for decoding the sheet. You can very easily make changes in those Macros and then you would have unique Macros for encoding and decoding your Excel sheets. Another Macro of this book has the ability to check two sheets and to list all those

cells which have dissimilar data along with both the data. Using this you can check for changes in two sheets having similar data with some expected/unexpected/accidental/unknown mismatches. Some Macros from this book would help you to learn and do manipulation of data your way, some other would help you to exercise logic and programming and some other would

help you to learn a little about Excel and VBA. With great excitement and expectation, I request you to check "Let's Play with Excel" and provide your invaluable feedback.

A chapter book edition of Nobel Peace Prize winner Malala Yousafzai's bestselling story of courageously standing up for girls' education. Malala's

memoir of a remarkable teenage girl who risked her life for the right to go to school is now abridged and adapted for chapter book readers. Raised in a changing Pakistan by an enlightened father from a poor background and a beautiful, illiterate mother, Malala was taught to stand up for what she believes. Her story of bravery and determination in the face of extremism is

more timely than ever. In this edition, Malala tells her story in clear, accessible language perfect for children who are too old for Malala's Magic Pencil and too young for her middle-grade memoir. Featuring line art and simplified back matter, Malala teaches a new audience the value of speaking out against intolerance and hate: an inspiring message of hope in Malala's own

words. *Malala*
ANURAG S PANDEY
Excerpts from the book I saw the main entrance getting a sharp shock. That moment only in the cow house I saw the cow jumping. All the doors from the main gate to the storeroom were pushed one by one by some invisible power. In the end the storeroom door got a big shock. A wave of air entered the storeroom. The cow had given birth to a calf a few

days ago. That calf was tied in the storeroom only. The calf was sleeping. But as the wind entered the room, the calf woke up and started bouncing. We brother and sister got scared. Then only I felt the breeze rotating around my neck with some pressure. I got scared if Guru Akhandanand wants to strangle me? ** * She screamed, 'I can't leave A.P.! A.P. is mine only! A.P. is mine!

A.P....' I said, 'Say this to that lady!' She said fearfully, 'No! She is scary!' I asked, 'Does she have long teeth or scary face?' She said 'No! She is beautiful. But I am feeling fear from her.' I asked 'How old is that lady?' She said 'About 25 years. She is asking me to leave A.P. Call A.P. I have to go to my A.P.' ** * Then she looked at me and gave me a crooked and mysterious smile. Her face expressions

were not of her. It was strange, cold and scary. Doesn't know why I felt a wave of fear running down my spine. I controlled myself and asked to her, 'What happened? Su? (I used to call her Su, short form of Sunita).' She smiled in a way like she was making fun of me. Then she said in a friendly but stone hard, ice cold way, 'You won't be able to save her. I will kill your SU drop by drop like this

only.' ** * It was Tuesday night. I was practicing meditation by sitting in Padmasana posture. Suddenly I heard anklet's sound around me, like some female came and was walking around me. Without getting scared I kept practicing meditation in the same posture. But after some time anklet's sound came closer to me as if she had stepped on my meditation carpet. Means she had come

too near to me. Yet I kept meditating. Then only doesn't know from where a gust of breeze entered the room despite closed door and windows and began to hug me. The touch of the breeze was very ecstatic and it was giving me very deep pleasure. I found myself unable to keep the breeze away from me. ** * Again I felt myself laid in the jungle. Then only I saw an angry wolf stepping towards me,

towards my head from 10 feet distance. Wolf's stepping on the dry leaves was producing rattling sound. That wolf came near my left ear and growled fiercely. A chilled vibe ran through my whole body. The wolf started entering my body through my left ear hole. ** * That night in my half-waken sleep and half-waken dream, suddenly I felt weightlessness. A strange beautiful girl whose colour was unfair and

skin was glowing, came in my dream. Her presence was not unfamiliar at all. She took my hand in her hand with love and flown off holding my hand and took me on a high branch of a tree in an unknown place. In my dream, I was realizing that she was a ghost. But yet I had no feeling of fear. I was totally fearless and I was feeling oneness with her. She poured a lot of love on me through her silent

presence. When I woke up in the morning, I was feeling deeply contented and light. ** * He stepped on the road. As he reached the middle of the road, he became hundreds of feet tall. He was moving towards the field in his front. That field ended to some localities. Just in three steps he crossed the long field, entered some locality and got out of my eyes. ** * Life is the most precious gift which the God

has given us just for free. We should value it. I was lucky that I was saved despite taking in 78 sleeping pills. But if I was not saved, how could I enjoy my life after the end of those dark days. We should always remember - good days always come and bad days always go. ** * Hello! I am Anurag Pandey, author of this book. I live in Bhubaneswar, India. Writing is my passion. Though I am doing job in

private sector, I dream to grow as an established writer. I hope you would enjoy reading this book. Your invaluable reviews requested.

Nobel Peace Prize winner and New York Times bestselling author Malala Yousafzai's first picture book, inspired by her own childhood. Malala's first picture book will inspire young readers everywhere to find the magic all around them. As a child in Pakistan, Malala made a wish for a magic pencil. She would use it to make everyone happy, to erase the

smell of garbage from her city, to sleep an extra hour in the morning. But as she grew older, Malala saw that there were more important things to wish for. She saw a world that needed fixing. And even if she never found a magic pencil, Malala realized that she could still work hard every day to make her wishes come true. This beautifully illustrated volume tells Malala's story for a younger audience and

shows them the worldview that allowed Malala to hold on to hope even in the most difficult of times. "This is a wonderful read for younger students that will also provide insight and encourage discussion about the wider world. ... The simplicity of Yousafzai's writing and the powerful message she sends, make this book inspirational for all." -- School Library Journal

The Golden days is a collection of memories and experiences of the best phase of every human. It's a celebration of childhood by recreating, reminding and reliving those days. The days in which we used to have the best imaginative skills. The days in which we were so curious about every aspect of life. The days when our body co-operates with us to play the fullest. The Golden days is

not just a book, it's an emotion every human carries in their heart. We hope this may remind the readers to recollect their childhood memories.

'I don't even bother to write this. It

isn't like I'm going to ever read it, and I certainly wouldn't see the point of showing it to anybody else. I suppose it's just for the sake of writing, even if it's not very creative or even particularly interesting, at least it's writing.' These are the words of Thomas Mark Crites as he embarks on a period of rehabilitation for his dependence on alcohol. Crites (as he preferred to be called) had intelligence,

wit and a talent for art that earned him respect in the small press world. He self-published much of his work as well as that of others, and it seemed like youth was on his side. What got in the way was the booze. 'A few beers at lunch and drinks around dinner turned into straight alcohol (vodka, whiskey, rum) from the first opening of the eyes on through to blackout.' Following

another serious accident that he cannot remember (in this instance a face-first fall down a flight of stairs), Crites' family convince him to seek professional help. He believes his treatment will last only days, but it takes many long months. Through journal entries and correspondence with family and close friends, this is Crites' story, one that documents the months prior to,

during, and immediately following his admission to a clinic for alcohol dependency. It is an uncompromising and ultimately tragic account, but filled with humour and insight in Crites' own inimitable style.

WHY SHOULD I READ THIS BOOK? I have heard a lot of stories of dissatisfaction among the Sarkari Babus be it a peon, a bank manager or a top ranked IAS

officer. Many of them will complain of job stress, work load and an ever mounting pressure on their head. And eventually they face lack of time for personal and family life, or any other leisure time. They get bored, gets sad, depressed of their daily routine and tries to find an escape! These people eventually become a typical Sarkari Babu, the ones who are not so friendly

to deal with if we happen to go to them, in their office. Some of them are so fed up that they do not work as per requirement, a few of them finds odd ways to earn, they may get into corruption or less productive in ability. All such activities sometimes bring a bad picture to the reputation of some public sector enterprises. A typical Government job aspirant would either ignore these aspects or is

actually ignorant of it. He/she will only focus on grabbing that particular job. After getting it they work for a couple of years with zeal and enthusiasm but eventually become a Sarkai babu! And a viscous cycle of unhappiness in the world is continues. Let us pause here and ask, Why? Why it happens? What went wrong? Why the people who were once mad after a particular service/job are

unhappy now when they have it in reality? What is the solution? How to find a way out? ✓ The book resembles true life experiences. If you, or any of your concerned, is preparing for Competitive exams like Banking, Civil Services, SSC CGL and other Government Jobs, it is worth reading. ✓ If you are planning to quit your existing job for the sake of preparing for a Government job, Caution!

✓ If you believe Competitive Exam is the only way to get a job! Wrong track dude! Read this book. ✓ If you believe you are getting job security in Government job and for this you ought to have one, You actually ought to read this book. ✓ If you think only a Government job will earn respect in a society ask a peon in a Sarkari office! Let me clarify that initially our thoughts may differ but soon you will

start to correlate and justify the journey of my career which has not ended, but started. You will start to agree that blindly going after a government job preparation is the worst thing a person can do to torture oneself. No offence with anyone although. This is just for the people who have the potential to channelize their energy somewhere else but is there

preparing for a wrong field.
