## **BURGESS GREYSON**

for the NEBOSH International General Certificate in Occupational Health and Safety CRC Press

The second edition of International Health and Safety at Work has been specially written in simple English for the thousands of students who complete the NEBOSH International Certificate in Health and Safety each year. Fully updated and matched to the March 2011 syllabus, this course book provides students with all they need to tackle the course with confidence. Full colour pages and over 200 illustrations bring health and safety to life. Each chapter starts with learning outcome summaries and ends with questions taken from recent NEBOSH examinations. Specimen answers and a study skills chapter are also included to aid exam preparation. Endorsed by NEBOSH for the International General Certificate in Occupational Health and Safety. Provides all the material students need for the course including tables, forms and checklists that can be used for health and safety activities such as risk assessment Gives a unique summary of Occupational Health and Safety legal frameworks in over 20 countries including

the EU and USA plus details of several ILO conventions and recommendations which are useful to students and a wide range of managers This NEBOSH-endorsed textbook introduces the reader to the fundamentals of health and safety in the workplace from an international perspective. The book not only meets the needs of students on the NEBOSH course but remains a useful reference for all managers who work to international standards and need to adapt them to local needs and practice. Phil Hughes MBE, MSc, CFIOSH, is a former Chairman of NEBOSH (1995-2001), former President of IOSH (1990-1991) and runs his own consultancy. He received an MBE for services to health and safety and as director of RoSPA in the New Year's Honours List 2005. Ed Ferrett PhD, BSc (Hons Eng), CEng, MIMechE, MIET, CMIOSH, is a former Vice Chairman of NEBOSH (1999-2008) and a lecturer on various NEBOSH health and safety courses. He is a Chartered Engineer and a health and safety consultant.

 2011 Updated Reprint. Updated Annually. Oman Oil and Gas Exploration Laws and Regulation Handbook  
*Oman's Basic Statute and Human Rights: Protections and Restrictions* Walter de Gruyter GmbH & Co KG  
 This book is the first to explore Arabic tourism from a business

viewpoint, rather than taking a sociological, anthropological or political stance. It focuses on business planning, management and marketing destinations in the Arab World, which are topics crucial for industry stakeholders and which have previously been neglected in the tourism literature. The book examines similarities and differences in the emergence and development of the tourism industry in countries across the Arab world as well as its inbound and outbound travel flows. It analyses several different aspects of Arabic tourism including tourism policy, organisation and planning, tourism product development, destination marketing and consumer behaviour. This volume will be of interest to postgraduate students and researchers of tourism studies, business and Middle Eastern studies.

*Perspicuous Edition 2014* Channel View Publications

The "Resource Curse" in the Persian Gulf systematically address the little studied notion of a "resource curse" in relation to the Persian Gulf by examining the historical causes and genesis of the phenomenon and its consequences in a variety of areas, including human development, infrastructural growth, clientelism, state-building and institutional evolution, and societal and gender relations. The book explores how across the Arabian Peninsula, oil wealth began accruing to the state at a particular juncture in the state-building process, when traditional, largely informal patterns of shaikhly rule were relatively well established, but the formal institutional apparatuses of the state were not yet fully formed. The chapters show that oil wealth had a direct impact on subsequent developments in these two complementary areas. Contributors discuss how on one hand, the distribution of petrodollars enabled political elites to solidify existing patterns of rule through deepening clientelist practices and by establishing new, dependent clients; and how on the other, rent revenues gave state leaders the opportunity to establish and shape institutions in ways that solidified their political control. The "Resource Curse" in the Persian Gulf will be of great interest to scholars of Middle Eastern studies, focusing on a variety of subject areas, including human development, human resources, clientelism, infrastructural growth, institutional evolution, state-building, and societal and gender relations. This book was originally published as a special issue in the *Journal of Arabian Studies*.

*United States Bilateral Free Trade Agreements* Walter de Gruyter GmbH & Co KG

The sultanate's economy continues to enjoy the benefits of petroleum wealth, which has provided budget surpluses in most years and served as a backbone for growth. However, planning is well under way for an era in which oil will not be the main economic driver, with the twin goals of diversification and creating an increased number of private sector jobs at the top of the government's current agenda. Indeed, in recent years, the non-OPEC oil exporter's economy has been undergoing a steady transformation, reorienting from oil toward a more diverse set of service and industry-based economic activities. So far, progress has been promising. In 2011 oil and gas accounted for 38.8% of GDP. With the continuation of higher-than-expected energy prices in 2012, the government has increased economic investments accordingly. These investments, which include infrastructure, social programmes and small-business development, are aimed toward better preparing the country for its post-fossil fuel future.

Aligned to the NEBOSH International General Certificate in Occupational Health and Safety Practice questions and answers to test knowledge and increase understanding Complete with a companion website containing extra resources for tutors and students at [www.routledge.com/cw/hughes](http://www.routledge.com/cw/hughes) The only textbook endorsed for the NEBOSH International General Certificate in Health and Safety, *International Health and Safety at Work* remains the most effective tool for those working to fit international health and safety standards to local needs and practice.

*Abuse and Exploitation of Migrant Domestic Workers in Oman* Oxford Business Group

The contents of this volume focuses on the economic issues such as income inequality, foreign direct investment, world income classification, business issues such as customer churn analysis, internal branding, human resources issues among others. The papers were presented during the 11th Annual Research Conference of Symbiosis Institute of Management Studies (SIMSARC2020). The book also focuses on the information technology and its application for the business in the form of

social media, role of artificial intelligence etc. The contents of the volume are highly relevant, consisting of recent data and results, and based on strong research and statistical analysis. They widely cover the business, society and environmental issues faced in the present times, and the challenges faced by India to reach its goal of a trillion dollar economy. The papers not only discuss the issues but also come up with research based solutions and will be of interest to scholars, corporates, policy makers, and academics alike.

Oxford Business Group

Over the years, the Sultanate of Oman has witnessed radical changes in its legal system through varied laws and the interpretation of the laws. With special emphasis on the Oman labor law, this book delves into certain radical amendments in brief from 2011 to 2013 in the form of ministerial decisions, through which, the law makers in the jurisdiction, strived to strengthen the socio-economic structure of Oman as a productive economy on one hand, and also reflects on how the implementation of such ministerial decisions received a blow at the inception and took time to settle down in the minds of the governed. The book in its last chapter suggestively deals in brief with general legal principles in the Sultanate of Oman and certain concepts that it advisedly ought to integrate in its legal system as an emerging constitution.

Trade and Development Act of 2000 Seven Stories Press

Oman's GDP grew 4.6% between 2013 and 2014 according to the Oman Central Bank, with hydrocarbons the main driver of the economy at almost 50% of GDP. Although the dip in oil prices has put pressure on government revenues, authorities are pressing ahead with spending plans for the sector, particularly in the downstream segment. The country's infrastructure expansion plans are also moving forward, particularly at the country's three ports as the country seeks to leverage its strategic position on the Strait of Hormuz and establish itself as a global transport and logistics hub. Feeding off this development drive are the sultanate's banks, with project finance regarded as one of the most promising areas for lending growth. In the longer term, Oman Vision 2020 seeks to boost private sector participation in the economy and fuel SME growth in key sectors, including construction, retail, tourism and transport.

Oman A "Spy" Guide - Strategic Information and Developments

*Unfair Dismissal Study in Omani Labour Law with Emphasis on the Relevance of Shari'a* Springer

The aim of this research is to investigate the implications of

unfair dismissal within the boundaries of Omani labour law with particular relevance to the role of Shari'a. Shari'a itself does not provide a legal code, contract law, or a law of tort as yet but it does provide examples of applicable rules, supported with analogies, to deal with employment. The basic principles of forming a contract in Omani Commercial Law; English Law and Shari'a are similar; however, they differ in application. Likewise, the principles of the employment contract are similar with a few differences being seen in implementation; specifically with regards to unfair dismissal issues. This research used a qualitative approach that has enabled the generation and analysis of data from multiple sources including literature review, semi-structured interviews, court cases, Shari'a implied employment contract principles as found in the Qur'an, the Sunnah and relevant Islamic texts. The research shows that the main reasons for employee dismissal can be categorised into: poor performance, disobedience regarding the contractual rules and regulations, absenteeism, aggressive behaviour and an extreme critical attitude in the work-place. From the employee's perspective, the main reasons for filing cases at Oman Courts were to seek justice, to obtain fair compensation or to highlight the moral values that form the Islamic code of practice. In contrast the employers considered seeking financial gain and revenge as the motivating factors for employees for filing court cases. There obviously is a mismatch to the reasons by each side and the key findings from this research suggest that there is a modest impact of the legal aspects of Shari'a on the Omani Law of Contract and the Employment Law though it is normally conceived by the public that Shari'a is the fundamental law that governs all aspects of muslim life. There needs to be an overwhelming expectation and requirement to develop procedures in the Omani Employment Law that expedite the process of dealing with dismissal cases and the propositions of establishing an arbitration committee may seem to be a way forward. In addition, the establishment of a Labour Court is paramount as at present the employment cases are heard in the Commercial Courts. This will align with the approach taken in the English system where the Employment Tribunals and the Employment Appeal Tribunal oversee cases and minimize delays in achieving justice. There is also a strong argument that there needs to be a review of Article 40/35/2003 that deals with employer rights to dismiss the worker without prior notice in order to establish a solid foundation for justice in the Sultanate of Oman. Unfair dismissal is a phenomenon that impacts on the employee, the employer, the employee's wider family network and society. This study provides an in-depth understanding and insight into these impacts and into the capacity of Shari'a impact to address modern employment issues in relation to the labour laws and secular laws being used in Oman today.
