RHETT CORINNE

The Essential Erasmus Delphi Classics

These volumes are concerned with literature and education. Each

translation is introduced by the translator, and a general introduction by the editor discusses the significance of each of the works, its relation to the others, and its subsequent fortunes. Wallace K. Ferguson provides an introductory essay, 'The Works of Erasmus.'

The Praise of Folly University of Toronto Press

Erasmus produced his five editions of the New Testament in Greek and Latin and his Paraphrases on the Gospels and Epistles

almost contemporaneously with the tumultuous events that accompanied the beginnings of the Reformation in Europe. At the same time, his scholarship was a signal illustration of the Christian Humanism of northern Europe. His remarkable scholarship is translated and annotated in the *Collected Works of Erasmus*, volumes 42-60, published by the University of Toronto Press. This volume, CWE 41, seeks to set in perspective in a major introductory essay the full range of that scholarship. It traces the origin of Erasmus' work and its development over the course of the last two decades of his life, placing the work on the New Testament in the context of his life and the political and religious events of his age, revealing the endeavour as a process, and thus giving the reader illuminating points of reference for the many cryptic allusions in his annotations and paraphrases. The book includes an annotated translation of three of Erasmus' major writings on Scripture and its interpretation -- the *Paraclesis*, the *Ratio verae theologiae* ('System of True Theology'), and the *Apologia* (defense of his work). It includes as well some of his further attempts to clarify his endeavour -- relevant letters and a vitriolic response to his 'crabby critics' (*Contra morosos*). The volume offers a unique insight into the production of Erasmus' scholarship in book form, illustrating abundantly the special features that made his editions of the New Testament and his Paraphrases both esthetically pleasing and effectively marketable products.

The Collected Works of Erasmus HarperCollins

The aim of the *Collected Works of Erasmus* is to make available an accurate, readable English text of Erasmus' correspondence and his other principal writings in an edition of 89 volumes.

Erasmus was one of the architects of modern thought and his works reflect a vast range of interests including history, theology, the classics, social theory, education, political theory, literature, and the history of ideas. His letters remain the single most important source for the intellectual history of the Renaissance and Reformation. -- Publisher.

Collected Works of Erasmus University of Toronto Press

What became of Erasmus' books? The most famous scholar of his day died in peaceful prosperity and in the company of celebrated and responsible friends. His zeal for useful books was insatiable. Indeed, he had taken care to insure that after his death they would pass to an appreciative noble owner, yet after his death their fate was unknown. *Erasmus and His Books* provides the most comprehensive evidence available about the books of Erasmus of Rotterdam -- the books he owned and his attitude towards them, when and how he acquired them, how he housed, used, and cared for them, and how, from time to time, he disposed of them. Part 1 details the formation, growth, scope, and arrangement of Erasmus' library and opens the door to a new understanding of the more intimate side of his daily life as a scholar at home with his books, friends, publishers, and booksellers. Part 2 presents a carefully annotated catalogue, the *Versandliste*, of the more than 400 books in Erasmus' possession at one point. Drawing upon his command of bibliographical data and his extensive knowledge of Erasmus' correspondence and related records Egbertus van Gulik proposes as precise an identification of each of the titles as the evidence will allow. Van Gulik's insightful discoveries tell us what can be known of books in Erasmus' working library and how he used them and will be of

interest to students of the northern Renaissance, the history of the book, and the history of learning.

Collected Works of Erasmus University of Toronto Press

First single volume in English to show the full spectrum of this Renaissance man's thought, which is no less profound because it is expressed with grace, wit, and ironic detachment only a great writer can achieve.

Collected Works of Erasmus Signet Book

This annotated selection of 116 proverbs, which includes all the longer essays, is based on the translation in the *Collected Works of Erasmus*.--BOOK JACKET.

Collected Works of Erasmus: Letters 594 to 841, 1517 to 1518

University of Toronto Press

This final volume in the *Literary and Educational Writings* contains diverse works spanning a generation. They demonstrate Erasmus' skill in applying classical rhetoric to contemporary Christian needs. Four are short rhetorical pieces; the next group illustrates facets of Erasmus' classical scholarship and includes several works that bear witness to Erasmus' friendship with Thomas More. The last and most expansive piece in the volume, the *Lingua*, has not previously been translated into English. This work represents Erasmus' growing criticism of his theological position by both Catholics and reformers.

Collected Works of Erasmus: Poems *Collected Works of Erasmus* *Literary and Educational Writings* Books 3 and 4, Volume 25 and 26

Although most of the letters from this period are familiar letters to friends or formal dedications to prospective patrons, there are occasional glimpses into the intense intellectual activity that filled

these years.

Collected Works of Erasmus: The correspondence of Erasmus

University of Toronto Press

The Dutch humanist Desiderius Erasmus was the greatest scholar of the northern Renaissance, as well as the first editor of the New Testament. A classical scholar that wrote in a pure Latin style, Erasmus earned the sobriquet "Prince of the Humanists". Using the philological methods pioneered by Italian humanists, he helped lay the foundations for the historical-critical study of the past. This comprehensive eBook presents Erasmus' collected works, with numerous illustrations, rare texts appearing in digital print for the first time, informative introductions and the usual Delphi bonus material. (Version 1) * Beautifully illustrated with images relating to Erasmus' life and works * Concise introductions to the texts * All the major works, with individual contents tables * Features rare translations appearing for the first time in digital publishing * Two translations of 'The Praise of Folly': John Wilson and the anonymous 1887 Hamilton, Adams and Co. Translation * Excellent formatting of the texts * Easily locate the dialogues or essays you want to read * Special criticism section, with essays evaluating Erasmus' contribution to literature, including P. S. Allen's seminal study * Features three biographies - immerse yourself in Erasmus' medieval world * Scholarly ordering of texts into chronological order and literary genres Please visit www.delphiclassics.com to browse through our range of exciting titles CONTENTS: The Books The Manual of a Christian Knight The Praise of Folly Colloquies Ciceronianus The Education of Children Against War The Complaint of Peace The Criticism The Age of Erasmus by P. The Correspondence of Erasmus University of Toronto Press
This is the first of five volumes to appear in the section of the
CWE devoted to Erasmus' spiritualia, works of spirituality that
include such aspects of religion as piety, theology, and the
practice of ministry. The volume begins with an introductory
essay that provides the first comprehensive review of the
content, sources, and style of Erasmus' many works dealing with
piety.

An introduction with Erasmus' Preface and Ancillary Writings
University of Toronto Press

This is one of seven volumes that will contain the more than 4000
adages that Erasmus gathered and commented on, sometimes in
a few lines and sometimes in full-scale essays. The notes identify
the classical sources and indicate how Erasmus' reading and
thinking developed over the quarter-century spanned by the
eight revisions of the original work. Many of the proverbs cited by
Erasmus are still in our common stock of speech.

Collected Works of Erasmus Literary and Educational Writings
Books 3 and 4, Volume 25 and 26 University of Toronto Press

Essential Works of Erasmus Random House

A deeply textured dual biography and fascinating intellectual
history that examines two of the greatest minds of European

history—Desiderius Erasmus and Martin Luther—whose heated
rivalry gave rise to two enduring, fundamental, and often
colliding traditions of philosophical and religious thought.
Erasmus of Rotterdam was the leading figure of the Northern
Renaissance. At a time when Leonardo, Michelangelo, and
Raphael were revolutionizing Western art and culture, Erasmus
was helping to transform Europe's intellectual and religious life,
developing a new design for living for a continent rebelling
against the hierarchical constraints of the Roman Church. When
in 1516 he came out with a revised edition of the New Testament
based on the original Greek, he was hailed as the prophet of a
new enlightened age. Today, however, Erasmus is largely
forgotten, and the reason can be summed up in two words:
Martin Luther. As a young friar in remote Wittenberg, Luther was
initially a great admirer of Erasmus and his critique of the
Catholic Church, but while Erasmus sought to reform that
institution from within, Luther wanted a more radical
transformation. Eventually, the differences between them flared
into a bitter rivalry, with each trying to win over Europe to his
vision. In *Fatal Discord*, Michael Massing seeks to restore Erasmus
to his proper place in the Western tradition. The conflict between
him and Luther, he argues, forms a fault line in Western
thinking—the moment when two enduring schools of thought,
Christian humanism and evangelical Christianity, took shape. A
seasoned journalist who has reported from many countries,
Massing here travels back to the early sixteenth century to
recover a long-neglected chapter of Western intellectual life, in
which the introduction of new ways of reading the Bible set loose
social and cultural forces that helped shatter the millennial unity

of Christendom and whose echoes can still be heard today. Massing concludes that Europe has adopted a form of Erasmian humanism while America has been shaped by Luther-inspired individualism.

Collected Works of Erasmus: Antibarbari Parabolae

University of Toronto Press

Assembled for the young Prince William of Cleves, Erasmus' Apophthegmata consists of thousands of sayings and anecdotes collected from Greek and Latin literature for the moral education of the future ruler. Betty I. Knott and Elaine Fantham's two-volume annotated translation of the aphorisms and Erasmus' commentary on them makes this once popular literary and educational text accessible to modern audiences. The introduction discusses the origins of the Apophthegmata, the contents of the collection, and Erasmus' sources. Volumes 37 and 38 of the Collected Works of Erasmus series - Two-volume set. *Collected Works of Erasmus: Lingua* University of Toronto Press
When did you last tell your children to put their hand over their mouth when they yawn? When did you last suggest that when

they are introduced to someone they should shake hands firmly and look them in the eye? Do you suggest that they should wait until everyone is served before they eat rather than Hoover up the best bit for themselves? Do you demand that your young daughter dress decorously lest she elicit outraged looks? Do you think that the children of today have disgraceful manners? Unlike, of course, when you were young ... Well, that's certainly what Erasmus of Rotterdam thought in 1530 when he published *De Civilitate Morum Puerilium: A Handbook on Good Manners for Children*. He felt that learning good manners was crucial to a child's upbringing, and that the uncouth and ill-disciplined behaviour around him demanded a new kind of book. After all, as William of Wykeham memorably said in the 1350s, 'Manners maketh man'. *A Handbook on Good Manners for Children* is considered to be the first treatise in Western Europe on the moral and practical education of children. It was a massive bestseller - indeed the biggest-selling book of the sixteenth century - going into 130 editions over 300 years and being translated into 22 languages within ten years of its publication. In it, Erasmus concerns himself with matters such as how to dress, how to behave at table, how to converse with one's elders and contemporaries, how to address the opposite sex and much else. For example: Table Manners 'It's just as rude to lick greasy fingers as it is to wipe them on your clothing, Use a cloth or napkin instead.' 'Some people, no sooner than they've sat down, immediately stick their hands into the dishes of food. This is the manner of wolves.' 'Making a raucous noise or shrieking intentionally when you sneeze, or showing off by carrying on sneezing on purpose, is very ill-mannered.' 'To fidget around in

your seat, and to settle first on one buttock and then the next, gives the impression that you are repeatedly farting, or trying to fart.' The advice is as relevant today as it was 500 years ago.

An Introduction with Erasmus' Prefaces and Ancillary Writings
University of Toronto Press

The aim of the Collected Works of Erasmus is to make available an accurate, readable English text of Erasmus' correspondence and his other principal writings in an edition of 89 volumes. Erasmus was one of the architects of modern thought and his works reflect a vast range of interests including history, theology, the classics, social theory, education, political theory, literature, and the history of ideas. His letters remain the single most important source for the intellectual history of the Renaissance and Reformation. -- Publisher.

Spiritualia and pastoralia

Erasmus was above all an educator, and his writings as a teacher and theorist give him a claim to be regarded as the greatest figure in the history of education since antiquity. By the decade of the 1520s, he had become the leading spokesman for the cause of humanistic education in Europe. The five translations in Collected Works of Erasmus 23 and 26 reflect Erasmus' main ideas about education: concern for the most desirable and effective curriculum; the need to read and appreciate the best writings of the finest classical authors; the importance of well-trained, well-paid, competent, inventive, and compassionate teachers; practical advice on the temperament and conduct of parents; the provision of adequate education for women and mature students; in short, the development of a philosophy of education that would produce the kind of person best educated

for the service of God and man. Contained in these volumes are the first modern English translations of *De conscribendis epistolis* | On the Writing of Letters, *Conficiendarum epistolarum formula* | A Formula for the Composition of Letters, *De civitate* | On Good Manners for Boys, *De pueris* | A Declamation on the Subject of Early Liberal Education for Children, and *De recta pronuntiatione* | The Right Way of Speaking Latin and Greek A Dialogue. These works present Erasmus' educational program for children from the very young to pre-university age - a compendium of his views on the nature and value of a humanistic education that remains of importance for all times and places.

Collected Works of Erasmus: The edition of St. Jerome

Erasmus produced his five editions of the New Testament in Greek and Latin and his Paraphrases on the Gospels and Epistles almost contemporaneously with the tumultuous events that accompanied the beginnings of the Reformation in Europe. At the same time, his scholarship was a signal illustration of the Christian Humanism of northern Europe. His remarkable scholarship is translated and annotated in the Collected Works of Erasmus, volumes 42-60, published by the University of Toronto Press. This volume, CWE 41, seeks to set in perspective in a major introductory essay the full range of that scholarship. It traces the origin of Erasmus' work and its development over the course of the last two decades of his life, placing the work on the New Testament in the context of his life and the political and religious events of his age, revealing the endeavour as a process, and thus giving the reader illuminating points of reference for the many cryptic allusions in his annotations and paraphrases. The book includes an annotated translation of three of Erasmus'

major writings on Scripture and its interpretation -- the Paraclesis, the Ratio verae theologiae ('System of True Theology'), and the Apologia (defense of his work). It includes as well some of his further attempts to clarify his endeavour -- relevant letters and a vitriolic response to his 'crabby critics' (Contra morosos). The volume offers a unique insight into the production of Erasmus' scholarship in book form, illustrating abundantly the special features that made his editions of the New Testament and his Paraphrases both esthetically pleasing and effectively marketable products.
