Indian and Christian: Changing Identities in Modern India is a collection of essays from the 1st SAIACS Consultation that

took place during November 2010 at SAIACS, Bangalore. 'Who am I?' is a question that every human needs to ask themselves. In this book, this question is looked at from a dual perspective—Indian and Christian. Can one be both 'Indian' and 'Christian' in the modern world? Should one have a single identity or can one have multiple identities? The book attempts to address these issues with clarity and conviction through sixteen articles covering areas of Biblical Studies, Theology & Philosophy, Religion & Culture, and Pastoral Theology & Psychology.

Is civic identity in the United States really defined by liberal, democratic

political principles? Or is U.S. citizenship the product of multiple traditions--not only liberalism and republicanism but also white supremacy, Anglo-Saxon supremacy, Protestant supremacy, and male supremacy? In this powerful and disturbing book, Rogers Smith traces political struggles over U.S. citizenship laws from the colonial period through the Progressive era and shows that throughout this time, most adults were legally denied access to full citizenship, including political rights, solely because of their race, ethnicity, or gender. Basic conflicts over these denials have driven political development and civic membership in the U.S., Smith argues. These conflicts are what truly define U.S. civic identity up to this day. Others have claimed that nativist, racist, and sexist

traditions have been marginal or that they are purely products of capitalist institutions. In contrast, Smith's pathbreaking account explains why these traditions have been central to American political and economic life. He shows that in the politics of nation building, principles of democracy and liberty have often failed to foster a sense of shared "peoplehood" and have instead led many Americans to claim that they are a "chosen people," a "master race" or superior culture, with distinctive gender roles. Smith concludes that today the United States is in a period of reaction against the egalitarian civic reforms of the last generation, with nativist, racist, and sexist beliefs regaining influence. He suggests ways that proponents of liberal democracy

should alter their view of U.S. citizenship in order to combat these developments more effectively.
