MARQUEZ HAROLD

Comparative Politics CQ Press

The 2nd edition of *Global Politics: A New Introduction* continues to provide a completely original way of teaching and learning about world politics. The book engages directly with the issues in global politics that students are most interested in, helping them to understand the key questions and theories and also to develop a critical and inquiring perspective. Completely revised and updated throughout, the 2nd edition also offers additional chapters on key issues such as environmental politics, nationalism, the internet, democratization, colonialism, the financial crisis, political violence and human rights. *Global Politics: Examines the most significant issues in global politics - from war, peacebuilding, terrorism, security, violence, nationalism and authority to poverty, development, postcolonialism, human rights, gender, inequality, ethnicity and what we can do to change the world* Offers chapters written to a common structure which is ideal for teaching and learning and features a key question, an illustrative example, general responses and broader issues Integrates theory and practice throughout the text, by presenting theoretical ideas and concepts in conjunction with a global range of historical and contemporary case studies Drawing on theoretical perspectives from a broad range of disciplines including international relations, political theory, postcolonial studies, sociology, geography, peace studies and development this innovative textbook is

essential reading for all students of global politics and international relations.

Introduction to Politics Cengage Learning

Starting from the principal-agent perspective, this book offers a new analysis of government. It interprets political institutions as devices designed to solve the omnipresent principal-agent game in politics. In other words how to select, instruct, monitor and evaluate political agents or elites so that they deliver in accordance with the needs and preferences of their principal: the population. This book explores whether there are any evolutionary mechanisms in politics which guide mankind towards the rule of law regime, domestically and globally. It combines a cross-sectional approach with a longitudinal one. Comparing the extent of the rule of law among states, using a set of data from 150 countries concerning political and social variables, the author seeks to understand why there is such a marked difference among states. Taking a state-centred perspective and looking at countries with a population larger than one million people during the post Second World War period, the book examines: The stability and performance of states The conditions for the rule of law regime: economic, social, cultural and institutional ones The evolution of governments towards rule of law Comparative Politics - The Principle-Agent Perspective will be of interest to students and scholars of comparative politics, government, political theory and law.

An Introduction to Politics, State and Society New York : Free Press

'First-rate . . . The text has a little for everyone and could suit the political ideas people, the humanists, and the behavioralists. And there is enough of

a nuts and bolts approach to this book to satisfy those who want students to come away from the course as 'master mechanics' of political dilemmas.'-David W. Dent, Towson State University

[Why Politics Matters: An Introduction to Political Science](#) Routledge

Comparative Politics: A Global Introduction shows new students of world politics how the methods and concepts of comparative politics can lead them to ask critical questions to better understand the complex world around them. The majority of undergraduates in introductory comparative politics courses do not plan to pursue graduate education in political science nor embark upon careers as political scientists. Most hope to take part in public and perhaps international affairs as elected officials, civil servants, or engaged citizens. As such they will need to make countless decisions about public policy, including foreign policy, throughout their careers. Comparative Politics: A Global Introduction equips students to make better, more informed decisions. Central to that task are three important goals: (1) to introduce readers to the conceptual foundations of comparative politics, (2) to enhance their analytical and critical-thinking skills through an introduction to basic empirical techniques of political and social science, and (3) to promote their understanding of a wide range of countries and political leaders.

A Brief Introduction to American Politics provides a coherent and succinct account of how contemporary American politics blends enduring principles with the realities and demands of the present day. Beginning with a brief overview of American society today, the book introduces the constitutional framework of American politics and the fluid concept and practice of federalism. It also covers the major features of the representative process, looking at both elections and main players such as parties, interest groups, and the media. Chapters on the major institutions of the federal government - the presidency, the Congress, and the Supreme Court - examines how they are simultaneously independent and constrained by each other. Chapters on domestic and foreign policy demonstrate how government and politics work in connection with the system's main outputs. A Brief Introduction to American Politics is a shorter version of Politics USA and is intended for students who need an introduction to the essential features of the American political system.

[An Introduction to Politics](#) SAGE

An introduction to Chinese Politics which provides an accessible overview of the structures and dynamics of Chinese politics today. Concentrating on the era since 1949, the text takes a look at politics in the widest sense, analysing political institutions within the crucial broader context of Chinese history and the pressures of social, economic and cultural changes.

[a href="http://www.oupcanada.com/ebrochure/garner/index.html"](http://www.oupcanada.com/ebrochure/garner/index.html)img src="/images/hed/closer_look_btn.gif"/aNow in a Canadian edition, this truly international introduction to politics offers comprehensive coverage of key concepts and ideologies, institutions, and international relations. Balancing theory with a wealth of Canadian and international real world examples, this text equips students with the knowledge required to think critically about the current state of global politics. Intellectually stimulating yet accessible, Introduction to Politics offers students a solid foundation to understanding politics and how it impacts every aspect of our lives.

[An Introduction](#) Routledge

This text offers a very basic introduction to world politics. The book is not as theoretical as other introductory IR texts, but instead emphasizes the role of people in politics.

[Decolonizing Politics](#) Cengage Learning

This comprehensive introduction to politics provides an essential template for assessing the health and workings of present day democracy by exploring how democratic processes bring public policy into line with popular preferences. Incorporating the latest findings from Big Data across the world, it provides a crucial framework showing students how to deploy these for themselves, providing straightforward, practical orientation to the scope and methods of modern political science. Key features: Everyday politics is explained through concrete applications to democracies across the world; Predictive theories illuminate what goes on at various levels of democracy; Outlines - in easy to understand terms - the basic statistical approaches that enable empirically-informed analysis; Rich textual features include chapter summaries, reviews, key points, illustrative briefings, key concepts, project and essay suggestions, relevant reading all clearly explained in 'How to Use This Book'; Provides a firm basis for institutional and normative approaches to democratic politics; Concluding section reviews other approaches to explaining politics, assessing their strengths and weaknesses. Politics is an essential resource for students of political science and of key interest to economics, public policy analysis and more broadly the social sciences.

[Political Science Second Edition](#) Unknown MIR TitleThe most current and clearly written introduction to politics with the perfect balance of

international and Canadian examples and cases.Guiding students through the basics of political ideologies and institutions before moving on to more complex concepts, this text is a comprehensive yet accessible introduction to political studies. With an emphasis on Canadian content while

maintaining a global perspective, students will learn how to tie theory to practice using case studies and current examples from Canada and around the world.Politics: An Introduction

Building on the strengths of the third edition, this highly regarded textbook continues to provide the best introduction to the strategies of comparative research in political science. Divided into three parts, the book begins by examining different methods, applying these methods to dominant issues in comparative politics using a wealth of topical examples from around the world, and then discusses the new challenges in the area. This thoroughly revised and updated edition features: Additional contemporary case studies including the democratisation of technology and the Arab Spring; Detailed discussion of regression analysis and diffusion; More analysis of justice, inequality, and compliance; Reflection on new methods and treatments of contemporary comparative politics. Balancing reader friendly features with high quality analysis makes this popular academic text is essential reading for everyone interested in comparative politics and research methods.

[Issues and Methods in Comparative Politics](#) Oxford University Press, USA

The second edition of this user-friendly text for students taking introductory courses in politics builds on the success of the first edition. It provides completely updated and stimulating coverage of topics essential to the understanding of contemporary politics. Ideal for students taking combined degrees at introductory level in politics and the social sciences, it emphasises the individual and social dimension of politics and covers theories and concepts in an accessible way. New features in the second edition include: * new examples drawn from Western democracies and other political systems * expanded sections on nationalism, religion, alternative politics, globalisation and ethnic conflict * updated examples from the most contemporary political events * biographies of key political thinkers and figures.

'...a lively introduction to media and politics, with timely chapters on the media, war and terrorism and the internet. If you want to know why media matters in politics this is a great place to start' - Dr Margaret Scammell, London School of Economics and Political Science 'This book has the truly international perspective that helps to put politics and media in the context of current world events...a unique and valuable text' - Professor Lynda Lee Kaid, University of Florida '...a new and promising perspective to the study of media and politics in a comparative dimension' - Professor Paolo Mancini, Università di Perugia Introduction to Media and Politics draws together evidence from the United States, the United Kingdom, Russia and beyond to provide students with an understanding of the relationship between the media and the political sphere. This highly accessible text: - balances theory with case studies on elections, war, terrorism, and the emerging role of the Internet, enabling the reader to think critically about how the media should work in the service of democracy. - places the study of media and politics in a comparative perspective, allowing the reader to consider how the same media institutions - including commercial and public service broadcasting, paid political advertising, and war coverage - function in different countries. This text is essential reading for advanced undergraduate and postgraduate students of media and politics.

[An Introduction](#) Univ of Wisconsin Press

An Introduction to Religion and Politics offers a comprehensive overview of the many theories of religion and politics, and provides students with an accessible but in-depth account of the most significant debates, issues and methodologies. Fox examines the ways in which religion influences politics, analyses the current key issues and provides a state of the art account of religion and politics, highlighting the diversity in state religion policies around the world. Topics covered include: Secularism and secularization Religious identity Religious worldviews, beliefs, doctrines and theologies Religious legitimacy Religious institutions and mobilization Rational and functional religion Religious fundamentalism Conflict, violence and terror This work combines theoretical analysis with data on the religion policies of 177 governments, showing that while most of the world's government support religion and many restrict it; true neutrality on the issue of religion is extremely rare. Religion is becoming an inescapable issue in politics. This work will be essential reading for all students of religion and politics, and will also be of great interest to those studying related subjects such as comparative politics, international relations and war and conflict studies.

Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[An Introduction](#) John Wiley & Sons

"Thirty-five years ago few could have predicted that The New Science of Politics would be a best-seller by political theory standards. Compressed within the Draconian economy of the six Walgreen lectures is a complete theory of man, society, and history, presented at the most profound and intellectual level. . . . Voegelin's [work] stands out in bold relief from much of what has passed under the name of political science in recent decades. . . . The New Science is aptly titled, for Voegelin makes clear at the outset that a 'return to the specific content' of premodern political theory is out of the question. . . . The subtitle of the book, An Introduction, clearly indicates that The New Science of Politics is an invitation to join the search for the recovery of our full humanity."—From the new Foreword by Dante Germino "This book must be considered one of the most enlightening essays on the character of European politics that has appeared in half a century. . . . This is a book powerful and vivid enough to make agreement or disagreement with even its main thesis relatively unimportant."—Times Literary Supplement "Voegelin . . . is one of the most distinguished interpreters to Americans of the non-liberal streams of European thought. . . . He brings a remarkable breadth of knowledge, and a historical imagination that ranges frequently into brilliant insights and generalizations."—Francis G. Wilson, American Political Science Review "This book is beautifully constructed . . . his erudition constantly brings a startling illumination."—Martin Wright, International Affairs "A ledestar to thinking men who seek a restoration of political science on the classic and Christian basis . . . a significant accomplishment in the retheorization of our age."—Anthony Harrigan, Christian Century

[An Introduction](#) Routledge

The authors emphasize the role of the individual in politics, and the interplay between the personal, the national and the global. This interactive text includes think points, exercises and extracts as well as illustrative material.
