MICHAEL DRAKE

A self-assessment guide CRC Press
This book includes MCQs in the basic sciences that underpin the study of obstetrics and gynaecology, as is examined in Part 1 of the membership examination. Following the syllabus recommended by the RCOG, the questions are arranged in papers of 60 questions, each question having 5 stems with True/False answer options. Full answers with explanatory text will be

provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD-ROM. Using this the candidate will be able to select at random questions to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program will calculate their scores and indicate whether this

would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.

Self-assessment in Obstetrics and Gynaecology: Prepare for the MRCOG
Lippincott Williams & Wilkins

What is an OSCE? How do you prepare for it? What is the structure of the DRCOG exam? Can I time and score myself ahead of the exam? How are OSCE and MCQ questions set and what marking schemes are used? Answer to all of these questions - and more - are provided in this new text. The quality of the text and supporting illustrations - many in full colour - will make it useful to a wide audience, including candidates preparing for the DRCOG and the MRCOG; undergraduate medical

students who need to revise their understanding of O&G; midwives, as an aid to practice; and overseas doctors studying for the PLAB.

MCQs & Short Answer Questions for MRCOG Paras Medical Publisher

The Part 1 MRCOG covers basic science knowledge as it applies to obstetrics and gynaecology. There are two papers, both of which contain a mixture of single best answer questions (SBAs) and multiple choice questions (MCQs). This book provides a verbatim transcript for the MCQ element of each of the 10 papers set between 1997 and 2001, giving candidates the opportunity to test their knowledge and preparedness for the examination against real questions. *OSCEs and MCQs in Obstetrics and Gynaecology* PasTest Ltd

This new review guide contains approximately 500 multiple choice questions on obstetrics and gynecology. Each question is followed by the correct answer and an explanation of the answer. A PC disk accompanies the book, enabling the reader to take several practice tests under exam conditions.

Chandresh Agrawal

"... the only book needed to pass finals in obs and gynae." Student BMJ "...the best obstetrics and gynaecology textbook...' Barts and The London Chronicle Impey's Obstetrics and Gynaecology is the key textbook in the field. The book provides: Management sections - invaluable for OSCE's Ethics and legal aspects Integrated approach to basic science and clinical practice

History and examination, Investigations and diagnosis Common disorders and diseases Abnormalities and complications The second edition presents: Features & Benefits Illustrations including new scans and accompanying new line diagrams - Aids understanding in real life clinical context Key Points boxes - Highlights core information At a Glances - Rapid summary of chapter contents New Cochrane References - Access to the clinical evidence base Further reading section - Points to sources of deeper knowledge and understanding All in all, Obstetrics and Gynaecology is the only book you need to complete your course and pass your exams!

Basic Sciences and Obstetrics and Gynaecology CRC Press

Multiple Choice Questions are the most common method of assessing knowledge in radiology. This book has more than 1000 questions, covering all the essential topics in Gastrointestinal Radiology. The questions have been divided into separate topics, which will enable revising the subjects on a topic basis, with due emphasis on anatomy, techniques and pathology. The questions have been designed on the format used by the Royal College of Radiologists UK, Ireland, Hong Kong, Australia and New Zealand. There is a single question with five stems, which require a true or false response. The answers and detailed explanations are provided at the end of each chapter. This book will be a valuable resource for review and practice prior to the Fellowship exams.

Bibliographies have been provided for further reading.

For Undergraduate and Postgraduate Students

CRC Press
This comprehensive question-and-answer resource covers all aspects of the curriculum for the Part 2 MRCOG examination. Candidates are given the opportunity to practise the Single Best Answer question style, to cover the content they will encounter in the examination and to assess their knowledge. As consultants actively engaged in the writing of the Part 2 Single Best Answers, the authors and editor have provided directly applicable questions. Candidates to review the syllabus in an organised, systematic manner, with comprehensive explanations for each answer. This title

also includes new sections on ethics, training, audit and clinical governance. Mock exams are also available online to familiarise candidates with the real-life examination. The detailed answers, evidence and comprehensive list of references offer an excellent training and reading source for all candidates preparing for the Part 2 MRCOG examination.

Past Papers MRCOG Part One Multiple Choice Questions CBS Publishers & Distributors Pvt Limited, India SGN .The book covers More Than 300 MCQs With Answers.

MCQs Cambridge University Press
First published in 1917 as 'Midwifery', Obstetrics by Ten Teachers is well established as a concise, yet comprehensive, guide within its field.

The twentieth edition has been thoroughly updated by a new team of 'teachers', integrating clinical material with the latest scientific developments that underpin patient care. Each chapter is highly structured, with learning objectives, definitions, aetiology, clinical features, investigations, treatments, case histories and key point summaries and additional reading where appropriate. New themes for this edition include 'professionalism' and 'global health' and information specific to both areas is threaded throughout the text. Along with its companion Gynaecology by Ten Teachers the book will continue to provide an accessible 'one stop shop' in obstetrics and gynaecology for a new generation of doctors.

A Survival Guide CRC Press

Basic Sciences for Obstetrics and Gynaecology - MCQs presents sample multiple choice questions and answers dealing with the basic sciences in obstetrics and gynaecology. The aim of the volume is to give those candidates studying for examinations such as the MRCOG Part 1 a flavour of the examination itself. -- book cover.

Essential MCQs in Obstetrics and Gynaecology for Medical StudentsPasTest Ltd

Basic Sciences for Obstetrics and Gynaecology Anshan

This book comprises MCQs that are designed to test the candidate's theoretical and practical knowledge of obstetrics and gynaecology as

recommended in the syllabus for the MRCOG Part 2 examination. Upwards of 250 single and multiple stem questions will be included giving over 800 questions in all. Full answers with explanatory text will be provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD ROM. Using this the candidate will be able to select at random questions to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program will calculate their scores and indicate whether this

would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.

Clinical Obstetrics and Gynaecology

Bailliere Tindall Limited

Modelled on the current MRCOG syllabus, *Get Through MRCOG Part 2: EMQs* is designed to test candidates' theoretical and practical knowledge of obstetrics and gynaecology. The book opens with an introductory section explaining the format of the examination, providing advice on how to prepare for it and how EMQs should be approached in order to obtain the highest marks. 320 EMQs are presented in the form of eight practice papers, reflecting the level of difficulty and style of the actual examination, and each

answer is supplemented with a detailed explanation to help candidates assess and improve their own level of knowledge. Providing an invaluable bank of revision questions, *Get Through MRCOG Part 2: EMQs* is the essential revision guide for all specialist trainees preparing for this examination. The book is comprehensive and authoritative: Justin Konje was closely involved in pioneering the introduction of EMQs into the MRCOG examination and runs a highly regarded MRCOG Part 2 course in the UK.

MCQs for MRCOG CRC Press

MCQs in clinical radiology CRC Press
 European Practice in Gynaecology and Obstetrics is a series of books conceived and endorsed by the European Board and College of Obstetrics and Gynaecology (EBCOG). The topics chosen for each volume are those of significant clinical interest where treatment is changing in response to research findings and developments in practice. The volume editor and contributing authors are European specialists invited to contribute because of their expertise in their field. The books concentrate on various types of management used in European practice as well as published results. The authors present treatments for which a consensus exists and - when there is no

consensus - they discuss the key elements of the controversy. Each book provides a review of the basic science, recent concepts in pathophysiology, clinical aspects, treatment and unresolved problems or controversies, as well as the major recent references. A final section provides multiple-choice questions for each chapter. Series concentrates on important and changing areas of clinical practice Each volume editor is a leading European expert in the field Contributors are drawn from a wide range of European countries All volumes include a review of basic science and pathophysiology, as well as clinical aspects, treatment, unresolved problems Current references are included for each chapter Multiple choice questions are provided at the end of

each chapter This volume comes with a CD containing all the colour images in the book plus 106 extra images
Get Through MRCOG Part 2: EMQs CRC Press

This work features a Foreword by David Taylor, Vice Dean, Leicester Medical School. "This book is the first to assist students with a new format of testing knowledge and clinical skills, i.e., the extended matching question. I am delighted my colleagues here in Leicester, where undergraduate education is given the very highest priority, have found the time and energy to write this book. This book comprehensively tests a whole range of obstetrics and gynaecology and I congratulate them for it." - David Taylor,

in the Foreword. This revision aid in Obstetrics and Gynaecology is based on the Extended Matching Question format (EMQ). It contains over 200 patient vignettes arranged in topic areas covering a broad range of themes and degrees of difficulty. It provides test EMQs and detailed answers at the completion of each section. "EMQs in Obstetrics and Gynaecology" is an indispensable study and revision aid for undergraduate medical students preparing for in-course assessment in obstetrics and gynaecology as well as final exams. It also provides a vital review for specialist trainees in obstetrics and gynaecology preparing to take postgraduate exams.
