*Das Handbuch für Startups* Walter de Gruyter  
 Language and Globalization explores the effects of language in the processes of globalization. Norman Fairclough adopts the approach of combining critical discourse analysis with cultural political economy to develop a new theory of the relationship between discourse and other dimensions of globalization. Using examples from a variety of countries such as the USA, Britain, Romania, Hungary and Thailand, Language and Globalization shows how the analysis of texts can be coherently integrated within political economic analysis. Fairclough incorporates topical issues such as the war on terror and the impact of the media on globalization into his discussion. Areas covered include: globalization and language: review of academic literature discourses of globalization the media, mediation and globalization globalization, war and terrorism. This book will be of interest to students and researchers in applied linguistics, language and politics and discourse analysis.

*and Systems* BoD - Books on Demand

Through unprecedented access to over 100 court files and sentences, and interviews with police and security personnel in both origin and destination countries, this book provides the most comprehensive exploration to date of human trafficking and migrant smuggling in Eastern Europe and Russia.

*Auf dem Weg zum perfekten Unternehmen* Springer Nature

This book explores the challenges of teaching journalism and communication in an ever-changing media environment. It considers the classroom as a space of "trial and error" and, therefore, of necessary innovation. It brings together professors and students from different universities across Europe to recount their teaching and learning experiences. The book also provides training proposals which offer an insight into the ongoing international debate on which teaching trends and practices can be effective in the digital environment. As such, the text will contribute to strengthening the university teaching of professional communicators based on technological innovation and critical thinking.

The aim of this edited volume is to bring together the views of expert academics and practitioners on the latest regulatory developments in sustainable finance in Europe. The volume includes a wide range of cutting-edge issues, which relate to three main themes along which the volume is structured: (1) corporate governance; (2) financial stability; and (3) financial markets. With individual contributions deploying different methods of analysis, including theoretical contributions on the status quo of macro-financial research as well as law and economics approaches, the collection encourages interdisciplinary readership and will appeal to those researching capital markets law, European financial law, and sustainable finance, as well as practitioners within the finance industry.

Der Band behandelt in neun Beiträgen die nationalistisch bedingten Ausbauprozesse einer Reihe romanischer Regionalsprachen und Varietäten dies- und jenseits des Atlantiks aus komparatistischer Sicht. Im ersten, synchron ausgerichteten Teil werden sechs Regionalsprachen – Katalanisch, Galicisch, Friaulisch, Sardisch, Korsisch und Okzitanisch – in den drei großen Ländern der europäischen Romania – Spanien, Italien und Frankreich – im Hinblick auf die sprachpolitischen Akteure, Präsenz in der wissenschaftlichen Kommunikation sowie bestimmte Aspekte der Normierung systematisch miteinander verglichen. Im zweiten, diachron ausgerichteten Teil wird der Fokus zunächst auf einzelne ausgewählte Regionalsprachen der europäischen Romania – das Dalmatische Ragusas und Galicisch – gelegt. Der transatlantische Vergleich europäischer und amerikanischer Sprachvarietäten am Beispiel des argentinischen Spanisch sowie des Galicischen und des Katalanischen in den entsprechenden Regionen des Spanischen Kolonialreiches im 19. Jahrhundert stellt eine weitere methodologische Dimension des Bandes dar. Zum Schluss wird eine dritte komparatistische Dimension erschlossen, und zwar die des inneramerikanischen romanistischen Vergleichs von Spracheinstellungen in Hispanoamerika, Brasilien und Frankokanada im 19. Jahrhundert im Sinne des Trierer Ansatzes der "America Romana". Die Beiträge sind zum Teil auf Deutsch und zum Teil auf Spanisch verfasst.

Celovito načrtovanje območij s kulturno dediščino mora združevati družbene, kulturne, gospodarske, prometne in okoljske vidike ter spodbujati aktivno vključevanje različnih, tudi nasprotujočih si interesnih skupin v voden participativni proces. Da bi upravljavce tovrstnih območij čim bolje opremili s koristnimi informacijami, so v knjigi predstavljene različne teme, pomembne z vidika upravljanja kulturne dediščine, in sicer: tipizacija kulturne dediščine, vloga Unesca in njegove smernice pri varovanju kulturne dediščine ter teoretski pogledi na ohranjanje kulturne dediščine. Sledi planerski del, kjer predstavljamo okoljsko načrtovanje na območjih s kulturno dediščino, vlogo in varstvo kulturne pokrajine, revitalizacijo starih mestnih jeder, obnovo zgodovinskih stavb in središč. Nadaljujemo s prispevki o javno zasebnem partnerstvu, razvojnih potencialih kulturne dediščine, vlogi socialnega podjetništva pri obnovi območij kulturne dediščine, o rabi kulturne dediščine na področju blagovnih znamk, trženju kulturne dediščine ter o s kulturo in kulturno dediščino povezanemu odgovornem turizmu v podeželskih območjih. Predstavljamo tudi trajnostne prometne rešitve, geoinformacijsko podporo kulturni dediščini, upravljanje transnacionalnih območij kulturne dediščine, sklenemo pa s predstavitev problematike naravnih nesreč na območjih s kulturno dediščino ter z opisom spremljanja in vrednotenja kulturne dediščine. Skupno številnim omenjenim prispevkom je spoznanje, da je za učinkovito upravljanje z območji kulturne dediščine odločilno vključevanje deležnikov in še zlasti tam živečih prebivalcev. V tako imenovanem participativnem pristopu so vrednote in ideje prebivalcev upoštevane in uporabljene kot osnova za vključitev okoljskih vidikov v konvencionalen način upravljanja kulturne dediščine. - - - Managing Cultural Heritage Areas Comprehensive planning for cultural heritage areas must bring together social, cultural, economic, transport, and environmental aspects and promote active inclusion of various, and even conflicting, interest groups in a guided participatory process. In order for managers of such areas to best equip themselves with useful information, this book presents various topics that are important from the perspective of cultural heritage management: classification of cultural heritage, the role of UNESCO and its guidelines in protecting cultural heritage, and theoretical views on cultural heritage preservation. This is followed by a planning section, which presents environmental planning in areas with cultural heritage, the role of cultural heritage and protecting it, revitalization of old urban cores, and restoration of historical buildings and town centers. Contributions follow about public-private partnership, the development potentials of cultural heritage, the role of social entrepreneurship in renewing cultural heritage areas, the use of cultural heritage in trademarks, marketing cultural heritage, and responsible rural tourism connected with culture and cultural heritage. Other material presented includes sustainable transport solutions, geoinformation support for cultural heritage, and managing transnational cultural heritage areas. The volume concludes with a presentation of natural disasters in cultural heritage areas and a description of monitoring and assessing cultural heritage. Altogether, all of these contributions are recognition that the inclusion of stakeholders, and especially local residents, is decisive for the effective management of cultural heritage areas. In a participative process, the values and ideas of residents are respected and used as a basis for including environmental aspects in the conventional manner of managing cultural heritage.

Critical Thinking in the Sustainable Rehabilitation and Risk Management of the Built Environment Založba ZRC

Within the past decade, there has been a re-emergence of tourism in Europe, especially in the central and eastern regions.

With socialism becoming a distant memory, these former communist countries are now attractive destinations for travel. Research on this current phenomenon is essential, as professionals and scientists must stay informed on the modern development of this global region. *New Trends and Opportunities for Central and Eastern European Tourism* provides emerging research exploring the theoretical and practical aspects of contemporary tourism in Eastern Europe and its effect on economics and sociology. Featuring coverage on a broad range of topics such as monument protection, economic features, and socialist architecture, this book is ideally designed for travel agents, tour developers, restaurateurs, hotel management, economic analysts, government officials, policymakers, tourism journalists, tourism practitioners, researchers, and professors seeking current research on the development of travel in Eastern and Central Europe.

Das Jugendstrafrecht in Rumänien weist eine besonders interessante Geschichte auf, da es bereits in der langen Periode im Einflussbereich der Sowjetunion einen gemäßigten und stark erzieherisch geprägten Sonderweg ging, andererseits mit einiger Verzögerung nunmehr auf dem Weg zu einem modernen justizmodellorientierten System ist. Jüngste Reformen (2014) des Straf- und Strafprozessrechts, die jeweils die grundlegenden Inhalte des materiellen und formellen Jugendstrafrechts beinhalten, lassen eine Modernisierung in Richtung menschenrechtlicher Standards in der Praxis erwarten. Das Reformpaket von 2014 beinhaltet auch ein neues Strafvollzugs- und Strafvollstreckungsgesetz sowie ein Bewährungshilfegesetz, die gleichfalls neue jugendspezifische Regelungen gebracht haben. Die Autorin bringt dank ihrer rumänischen Abstammung und Sprachkenntnisse die Kompetenz mit, auch Dokumente in der Originalsprache auswerten und damit beispielsweise den parlamentarischen Reformprozess vertieft analysieren zu können. In ihrer Einleitung verdeutlicht die Autorin ihren umfassenden Forschungsansatz bezogen auf das materielle und formelle Jugendkriminalrecht einschließlich vollzugs- und vollstreckungsrechtlicher Fragen. Dabei liegt ein Hauptaugenmerk auch darauf, ob die rumänischen Reformen dem Anspruch, den internationalen menschenrechtlichen Standards des Europarats und der Vereinten Nationen Rechnung zu tragen, gerecht werden.

This book is a collation of numerous valuable guidelines for making decisions based on recent advances and improvement of transport systems. Offering know-how and discussing practical examples as well as decision-making support systems it is of interest of those who face the challenge of seeking solutions to contemporary transport system problems on a daily basis, including local authorities involved in planning and preparation of development strategies for specific transport related areas (in both urban and regional dimension) as well as representatives of business and industry who participate directly in the implementation of traffic engineering solutions. The guidelines are provided in individual chapters, making it possible to address the given problem in an advanced manner and simplify the choice of appropriate strategies (including those related to increasing competitiveness of public transport; identifying bus lines to potentially be serviced by electric buses; pedestrian traffic solutions; developing bike-sharing systems; safety conditions in road tunnels; integrating supply chains or route planning support by means of technologically advanced systems and applications). On the other hand, since the book also addresses the new approach to theoretical models (including traffic flow surveys and measurements, transport behaviours, capacity models, delay modelling and road condition modelling), it appeals to researchers and scientists studying this body of problems. The book entitled *Recent Advances in Traffic Engineering for Transport Networks and Systems* includes selected papers submitted to and presented at the 14th Scientific and Technical Conference "Transport Systems. Theory and Practice" organised by the Department of Transport Systems and Traffic Engineering at the Faculty of Transport of the Silesian University of Technology. The conference was held on 18-20 September 2017 in Katowice (Poland).

Si bien existen muchos documentos sobre la historia de Roma en general, y de su historia política, el objetivo principal en este proyecto de investigación es contextualizar y analizar históricamente el "Commentariolum Petitionis" de Quinto Cicerón, particularmente en su aspecto político, buscando conocer de qué manera se realizaban las distintas prácticas electorales durante la crisis de la república romana. Entendiendo por práctica electoral todo lo referido a candidaturas, instituciones, cargos políticos, etc. La intencionalidad al finalizar este proyecto es dar a conocer con claridad cuál es la modalidad en que se desarrollaban tales actividades políticas, como así también reconocer la importancia de las mismas. Palabras Clave: Roma, política, Commentariolum Petitionis, Quinto Cicerón.

The Civic Space Review of Romania provides an in-depth analysis of national legal frameworks, policies, institutions, and practices relevant to civic space protection. It reviews strengths and areas for improvement, and providing guidance on a wide range of issues. The Review assesses four key dimensions of civic space: civic freedoms, media freedoms and online civic space, the enabling environment for civil society organisations, and citizen participation in policy and decision making.

Claude C. Hopkins ist einer der ganz großen Namen und Pioniere im Anzeigengeschäft! Er lebte und wirkte bis Anfang des 20. Jahrhunderts; Hopkins hat einige sehr bedeutende strategische Grundlagen des Marketings sowie des Inserierens erarbeitet, die bis heute fortwirken und rege eingesetzt werden, denn sie haben an Aktualität nichts eingebüßt. Im Gegenteil. Auch wenn sich die

Medien in den letzten 100 Jahren rasant weiter entwickelt haben, das auf Papier gedruckte Wort längst nicht mehr das Feld beherrscht, zwinkern uns die zunächst etwas "fossil" anmutenden Mechanismen der Kundengewinnung, die Hopkins eingeführt hat, gerade auch heute sehr wirkungsvoll - selbst aus dem Cyberspace - zu.

In this interdisciplinary textbook, which bridges the gap between the natural and social sciences both, the scientific principles of restoration ecology and practical aspects of ecosystem restoration are comprehensively presented. The diversity of land-use types with a focus on Central Europe is highlighted and case studies of practical restoration projects are presented. The textbook offers students who deal with the environment as well as scientists and practitioners a profound and up-to-date, but also critical overview of the state of knowledge. This book opens up the broad spectrum of degraded ecosystems of Central European natural and cultural landscapes. In further chapters, marine ecosystems and their restoration as well as development potentials and the limits of restoration are discussed in more detail. The ecological fundamentals are expanded through an interdisciplinary perspective taking into account environmental ethics, sociology, anthropology, and economics. In addition to an up-to-date overview of the various areas and fields of activity in restoration ecology and ecosystem restoration, the textbook provides a valuable basis for studies, science, and practice. The students also receive assistance in searching for literature and critical fact analysis, and the lecturers on teaching formats and interdisciplinary approaches to discussion in restoration ecology.

**Higher Education in Romania: Overcoming Challenges and Embracing Opportunities** Springer Nature

This open access book includes a series of relevant policy research articles, elaborated in the framework of the "Quality in higher education: internationalisation and databases to enhance the Romanian education system" project, implemented by the Executive Agency for Higher Education, Research, Development and Innovation Funding (UEFISCDI), together with the Ministry of Education. The project aims to develop and implement systemic measures at tertiary education level, leading to an increased

quality of the overall higher education system and universities better prepared for labour market requirements and international standards. The book focuses on areas of interest for Romanian higher education, such as systemic measures to improve access, participation and completion for (vulnerable) students, better promotion of the Romanian higher education to attract students, as well as instruments for a more efficient use of data at higher education level. Each article includes evidence-based policy proposals that could support new strategic initiatives in higher education, including new legislation. Additionally, the collection of articles tells a comprehensive story about the audacity of a higher education system which went through significant challenges to align itself with both European and international trends, as well as respond to national imperatives. Over the last three decades, since the fall of the Iron Curtain, Romanian higher education has undergone significant transformations, aiming to align itself to the latest developments and trends at European and international level. The National Law on Education no. 1/2011 has set the stage for a full implementation of the Bologna Process action lines, taking into account that Romania was already a part of the largest European intergovernmental process -- currently the European Higher Education Area (EHEA) -- as a founding member. However, since the adoption of this normative framework, the law suffered numerous amendments, making it challenging to observe and achieve coherence in its implementation. Furthermore, Romania is also currently redesigning the strategy for the allocation of European structural funds 2021-2027, based on two strategic documents - the new Education and Employment Operational Programme and the National Recovery and Resilience Plan which highlight the reform and investment priorities at a national level. At the same time, 2021 is a good time to analyze the level of implementation for the objectives and measures included in the National Strategy for Tertiary Education 2015-2020, the Europe 2020 Strategy, and the Bologna Process action lines in the 2010 - 2020 timeframe. Therefore, the present moment may be an important time to assess the impact of strategic documents and actions in the last decade and, possibly, to draft a new National Education Law, better adapted to current realities, starting from the recent initiative by the President of Romania - the Educated Romania strategic vision which was also politically assumed by the Romanian Government.
