Imagine having an extra \$500, \$1000, or even \$10K above your other income each and every month. Imagine that income was completely unconnected to your time and just showed up in your bank account at the end of every month like clockwork without you having to punch a clock or trade 40 hours of your life every week to earn it. What would you do with that money? Send your children to college? Pay your mortgage off early? Finally go on the vacation you've always dreamed of? Or maybe you would do all three! The internet has quietly ushered in an age of unlimited passive income potential. A couple of decades ago, unless you were born into money, you had to work to survive, essentially selling your life off by the hour to a company that likely didn't

care much about your happiness, well-being, hopes, or dreams. And worst of all, if the company found a way to automate or outsource your job and save a couple of cents an hour, they'd do it in a heartbeat. You give the company the best hours of your day and the best days of your life and in exchange you're paid enough to survive but not enough to thrive. But for those who have harnessed the power of online small business startups to generate passive income streams, **THOSE DAYS ARE OVER!** Author and internet entrepreneur Seth Ramsey has boiled down the essentials of earning passive income online and laid out a proven 8 step plan that even a total beginner can follow and successfully generate passive income streams within 90 days.
